OUR COUNTRY: First, Last and Forever.

The churches yesterday were well attended, and the services were appropriate to the solemn and impressive occasion.

SHENANDOAH needs more industries—and every encouragement should be given those contemplating locating in this town.

COIN HARVEY has added to his celebrated institution of learning a class in the study of the endless chain system of recruiting campaign funds.

BOURKE COCKRAN predicts that "the century is closing on the last great war the world will see for ages." All the same Dewey keeps the Oregon at hand in case of accident.

THE three Delaware Democrats who voted for Addicks are ignored by their neighbors since their return home, are refused credit and universally avoided in business. Party treachery is a poor investment in this country.

MR. BRYAN says the Chicago platform fits Jeffersonian principles to present conditions. When he voted for Weaver in 1892 he found the same virtues in the wild-eyed Populist platform of his candidate. The great Jefferson, in Bryan's hands, can be adjusted to anything on earth.

THE Washington Post is filled with the idea that Mr. Quay is not going to succeed; that the Legislature at Harrisburg will adjourn without electing a Senator, and Mr. Wanamaker is to take the matter before the people at the polls next year. The Harrisburg correspondent of the Post writes as if he belongs to one of the Philadelphia papers inimical to Mr. Quay.

THE Legislature is greatly perplexed over the problem how the deficit of \$3,000,000 can be partially paid during the next two years, as insisted on by the Governor, and the usual appropriations to the schools and charitable institutions be made. The Governor says it cannot be done. Unless offices can be abandoned, and salaries reduced, thus relieving the financial straits somewhat.

THE devil often finds mischief for idle tongues as well as idle hands to do. And the injury that may be done by the instrumentality of the former is sometimes as grievous as could be charged to the latter. Usually, a stab in the flesh of the back may be cured by prompt attendance of a skillful surgeon, but what remedy is there for those who are wounded by idle words? Against all such offenders the wrath of the community ought to be turned. The bond of common safety should unite us in repelling such aggressions upon good names of our fellows, for who knows that we who are willing listeners to-day, may be the victims of it to-morrow? The best of us sometimes give an o'er willing ear to tale-bearers. But we ought not to.

THE Philadelphia newspapers say that the Schuylkill water is entirely responsible for the typhoid fever epidemic raging in that city. Dr. John V. Shoemaker, of the Medico-Chirurgical hospital, takes issue with these journals, and says the water is not half as bad as represented, and the fact that it is muddy is no evidence that germ life is there. He does not believe that the water is responsible for half the typhoid fever cases, and adds: "Did you ever think that after the war, when 700 soldiers, sick with typhoid fever, were dumped into this city, that the water, drainage and soil were affected? Last September I said that after the soldiers were all cured, we would probably be visited with a typhoid fever epidemic. It has frequently occurred in other cities, and don't blame the poor Councilmen for it. Think how well governed your city is; what low taxes you pay, and what privileges you enjoy."

STILL Musing on Ghostly Relics. New York, March 27.—The work in the ruins of the Windsor hotel was continued with a full force of men yesterday, and the piles of debris were heaped up faster than the carts could take them away. The workmen came upon a human foot in a shoe yesterday morning. The shoe was badly charred and shriveled, and it could not be told whether the foot was that of a woman or a child. A second fragment of a human foot was found late in the afternoon. There was very little of it, only the great toe and some tendons being left. Near the place workmen found a pair of slippers. According to the records at the morgue the unidentified bodies now numbered 10. The identified dead are 11.

THEY RIDICULE IT.

Many People Ridicule the Idea of an Absolute Cure for Dyspepsia and Stomach Troubles.

Ridicule, however, is not Argument, and Facts are Stubborn Things.

Stomach troubles are so common and in most cases, so obstinate to cure that people are apt to look with suspicion on any remedy claiming to be a radical, permanent cure for dyspepsia and indigestion. Many such pride themselves on their success in never being humbugged, especially in medicines.

This fear of being humbugged can be carried too far, so far, in fact that many people suffer for years with weak digestion rather than risk a little time and money in faithfully testing the claims made of a preparation so reliable and universally used as Stuart's Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines for the reason that they are not a secret patent medicine, no secret is made of their ingredients, but analysis shows them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids, Golden Seal, bismuth, hydrastis and suet. They are not cathartic, neither do they act powerfully on any organ, but they cure indigestion on the common-sense plan of digesting the food eaten thoroughly before it has time to ferment, sour and cause the mischief. This is the only secret of their success.

Cathartic pills never have and never can cure indigestion and stomach troubles because they act entirely on the bowels, whereas the whole trouble is really in the stomach.

Stuart's Dyspepsia Tablets taken after meals digest the food. That is all there is to it. Food not digested or half digested is poison as it creates gas, acidity, headaches, palpitation of the heart, loss of flesh and appetite and many other troubles which are often called by some other name.

They are sold by druggists everywhere at 50 cents per package. Address F. A. Stuart Co., Marshall, Mich., for little book on stomach diseases, sent free.

Father and Son Sufocated.

Washington, March 27.—Dennis Kelly, aged 55, and his son Edward, aged 10, of Milesstrip, Madison county, were suffocated Saturday night at a hotel by inhaling illuminating gas. Their death appears to have been the result entirely of accident. The victims were evidently of the farmer class. The boy, who was sick, had been staying in southern Virginia, where the father had gone for him, the two stopping here for a brief visit on their way home.

How In Your Wife?

Has she lost her beauty? Is she Constipated, Indigestion, Sick Headache are the principal causes. Karl's Clover Root Tea has cured these ills for half a century. Price 50 cts. and 50 cts. Money refunded if results are not satisfactory. Sold by P. D. Kirin and a guarantee.

Yacht and Nine Persons Lost.

Vancouver, B. C., March 27.—The little schooner "The Fish Hawk," a pleasure yacht by the Ford family, of Hornby Island and Qualicum, on the east coast of Vancouver Island, has been wrecked, apparently near Alert Bay. A party including William Ford, his mother and two sisters, Mrs. Harry Thames, her little daughter and three little children left on the boat a month ago, but nothing has been heard of them since, and wreckage and debris along the coast points to the all too certain probability of a wreck.

Death of Ex-Governor Fletcher.

Washington, March 27.—Ex-Governor Thomas C. Fletcher, of Missouri, died in this city Saturday afternoon. Four weeks ago last Monday Governor Fletcher was stricken with paralysis. He rallied and improved rapidly for about ten days. There was a recurrence of the attack, however, a fortnight ago, and he had been in bed ever since. From that time on hope of his recovery was held out. For the last 48 hours he had been unconscious.

SAMPSON VISITS SANTIAGO.

Believes the Skeleton Found on the Shore That of Admiral Villamil. Santiago de Cuba, March 27.—The United States armored cruiser New York and the gunboats Vicksburg and Annapolis arrived here Saturday morning. Rear Admiral Sampson, accompanied by Captain F. E. Chadwick, of the cruiser, called upon Major General Leonard Wood, the military governor, a salute being fired in honor of the admiral. In the afternoon the admiral returned to the visit, there were further complimentary salutes, and the warships left in the evening for Kingston, Jamaica. During the day Admiral Sampson visited Morro Castle, never having explored the interior before. With the regard to the discovery of the remains of a Spanish officer in an armchamber on the ship, the admiral expressed his opinion that they were certainly the remains of Admiral Villamil.

Five more bandits have been captured and two others killed. The citizens express satisfaction at the capture of Matamoros and Truon, well known brigands, and it is thought that, with their capture, the backbone of brigandage in this district is broken.

Colonel Juan Vian, the new chief of gendarmerie, is showing much more energy than was displayed by his predecessor, Colonel Francisco Valente. Indeed, the recent capture of a Spanish officer in an armchamber on the ship, and he believes that little if any further trouble will arise from brigands for a time at least.

SOLDIER BOYS' RETURN.

Lieutenant of the Twelfth New York Brought Home a Cuban Bride.

New York, March 27.—The home coming of the Twelfth New York regiment, which arrived yesterday from Matanzas, Cuba, on the transport Meade, was marked by great enthusiasm. The men looked well after their service in Cuba, and there was no little sickness among them when the vessel reached Quarantine. Colonel R. W. Leonard, who was in command, was able to report "all well."

The Meade had on board 43 officers and 944 men of the Twelfth regiment and a number of cabin passengers, among them Paymaster General Casey, who went to Cuba with the \$3,000,000 for the Cuban army; Lieutenant Howell, of the engineer corps, and the detail of 22 men who went to Cuba on the Meade to guard the money.

Lieutenant Clouston, of Company F, of the Twelfth regiment, brought his wife with him on the transport. The bride is a Cuban, and speaks only the Spanish language. It is said that the lieutenant met her in Cuba. They were married about a week ago. The bride was about the age of 18. The regiment landed at the White Star pier at the foot of West Eleventh street, and was met by a great crowd of people. They were followed by the band struck up "Should Acquaintance Be Forgotten." The colonel, dressed in the Washington Park and up Fifth avenue to the army, on Sixty-second street. The streets were crowded all along the route, and Mayor Van Wyck reviewed the regiment from a stand at Madison Square.

Boy Murderers in South Carolina.

Charleston, S. C., March 27.—Saturday night, in Edgefield, John Webb and Will Toney, two negro boys about 18 years of age, were killed and two other companions were seriously wounded by four white employees of the Edgefield cotton factory. Two of the employees were mere boys, probably not over 15 years of age. About 13 shots were fired. The coroner's jury was unable to fix the motive for the shooting. At Darlington Jim Johnson, colored, was beating his wife, and Chief of Police Dargan with a saw, cutting him severely, and Dargan then shot him dead.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following. This is to certify that I was a terrible sufferer from Yellow Jaundice for over six months, and was treated by some of the best physicians in our city and to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering with this terrible malady. I am grateful to you, M. A. Hogarty, Lexington, Ky.

A Determined Suicider.

Cincinnati, March 27.—Abram Moses, of Cincinnati, Miss., died last night of self-inflicted pistol wounds. He came here several weeks ago, suffering from mental derangement, and was taken to the Jewish hospital. From there he escaped by night and jumped from the suspension bridge into the river, but was rescued. A second time he escaped from the hospital, and on the suspension bridge shot himself in the head, from the effects of which he died last night. He was a large cotton broker and banker, president of a Memphis street railway company and the electric light company.

Wholesale Wages Increase.

Wheeling, W. Va., March 27.—The steel workers of the Wheeling Iron and Steel company met Saturday night and rejected the new scale offered by the management. Yesterday the management met with the men and offered some concessions, and the men will meet tonight to take action. The last scale offered makes increases from 10 to 15 per cent.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. The genuine has L. B. Q. on each tablet.

Death of a Noted Forger.

Butte, Mont., March 27.—George Bidwell, the elder of the Bidwell brothers, who, with several confederates, gained fame by defrauding the bank of England out of \$5,000,000 through forged securities, died yesterday after two weeks' illness from pneumonia. The death of his brother Austin three weeks ago was a great blow, and he took to his bed a few days after the younger brother died. Both bodies are at an undertaking room awaiting burial, and it is probable they will be interred by the county.

The Philadelphia Strikers.

Philadelphia, March 27.—The striking pantmakers of this city, who stopped work at noon Saturday, held a meeting yesterday and fixed upon the scale of wages they ask the contractors to pay. A general increase of 25 per cent is demanded. In addition they demand the enforcement of the ten hour law, recognition of the union and abolition of sub-contracting. It is estimated that fully 800 pantmakers are in the strikers' ranks, and about 2,000 others dependent upon them for work in other branches are also forced to stop as a consequence.

A SMALL SPOT
MAY BE
CANCER.

MOST VIOLENT CASES HAVE
APPEARED AT FIRST AS
MERE PIMPLES.

The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is; and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm. Walpole, of Walsworth, S. D., says: "A little blotch about the size of a pin's head on my left eye, gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm. The Cancer becoming at first irritated, and then discharging freely. This gradually grew less and then disappeared altogether, leaving a small scar which soon dropped off, and now only a healthy little scar remains where what threatened to destroy my life once held full sway." Positively the only cure for Cancer is Swift's Specific.

S. S. S. FOR THE BLOOD

—because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood—the real seat of the disease—because the blood can not be cut away. Inside upon S. S. S.; nothing can take its place. S. S. S. cures all any Rheumatism, Eczema, Rheumatism, Contagious Blood Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Diseases will be mailed free by address by Swift Specific Company, Atlanta, Georgia.

Japan Will Need the Farm Products, Washington, March 27.—Dr. S. A. Knapp, who was sent by the department of agriculture to Japan, China and the Philippines, as an agricultural explorer, has returned to Washington and reported to Secretary Wilson the results of his labors. He says: "All form of competition from Japan along agricultural lines may be dismissed. On the contrary, it must be a large consumer of farm products from the United States. The diffusion of knowledge and the introduction of new industries in Japan have had the effect of more than doubling the cost of labor in the last ten years, and in proportion, of stimulating consumption by the common people."

Secretary Alger at Havana.

Havana, March 27.—Secretary of War Alger and his party arrived here yesterday afternoon on the United States transport Ingalls, after having lost their way at sea for several hours. Meanwhile, General Brooke, Ludlow, Lee, Bates, Wilson and Hasbrouck, with their staffs, had risen early, boarded a tug and began cruising outside the harbor, waiting for the Ingalls. At 5 o'clock the Ingalls sailed into the harbor, and the generals went on board and had a brief conference with the secretary, who arranged to meet them again at 10 o'clock this morning at the Hotel Trocha, Governor General Brooke's headquarters at El Vedado. General Alger expects to stay here two days at least, and he may go to Pinar del Rio.

Mohammedan Rebellion in China.

London, March 27.—According to a dispatch from Shanghai to The Daily Mail it is reported there that a Mohammedan rebellion has broken out in the province of Kan-Su, the most northwestern province of China, between the provinces of Shen Se and Se Chun on one side and Mongolia and the Desert of Gobi on the other.

Fatally Shot Wife, Killed Himself.

McKeesport, Pa., March 27.—Fredrick T. Clark yesterday shot and fatally wounded his wife at the home of his mother-in-law, Mrs. Richard Moynie, and then killed himself. The man died shortly after the shooting and the wife can hardly survive. The shooting was the result of jealousy. The couple had not been living together for some time and Mrs. Clark had applied for divorce because of Clark's alleged neglect and drunkenness. Before he died Clark said: "I wish I had shot that — Thomas, before I died." Thomas is a clerk in Mrs. Clark's father's store, whom Clark accused, without any apparent reason, of ruining his life.

Rheumatism Cured in a Day.

Mrs. Bradish, of Detroit, Wrote Mrs. Pinkham and Tells the Result.

(LETTER TO MRS. PINKHAM NO. 28,310)

"About two years ago I began to run down and soon became almost a wreck. I lost my appetite and began to lose flesh; my blood was impoverished and I had to leave my store.

"The doctors gave me a little tonic, but it did not do me any good, and I consulted another doctor. He helped me in some ways, but my headaches continued, and I began to have night sweats and my rest was so disturbed that I would have hysterics and would cry and worry over business matters and my poor health.

"Finally, husband took me South, but with no benefit. This was a year ago; no one can ever know what a winter of misery I spent. Would boast after eating and was troubled with palpitation of heart and whites. Having read by happy chance of your medicine, I bought it and wrote for your advice, and before having finished the first bottle of Lydia E. Pinkham's Vegetable Compound, the hysterics nearly stopped and I slept soundly.

"I used seven or eight bottles with such benefit that I am as healthy as I can ever remember of being. I shall never cease to sound your praises."

Two Killed in Freight Wreck.

Pittsburgh, March 27.—A freight wreck yesterday on the Fort Wayne and Chicago railroad at Jack's Run, just below the city, resulted in the death of two men, the probable fatal injury of another, and the complete destruction of an engine and ten freight cars. The loss to the company is about \$25,000. The dead are James A. Bracken, engineer, and James R. Lowe, fireman, both of Pittsburgh. C. F. Bradenbaugh, a brakeman, was hurt internally and will probably die. The Fort Wayne train was standing still, when an extra freight on the Pennsylvania railroad crashed into it. The telegraph operator and signalman both claim to have signalled the extra to stop.

MACARTHUR'S ADVANCE

Now Only Fifteen Miles From the Filipino Capital.

MORE TROOPS FOR GENERAL OTIS

The Nineteen Hundred Men on the Transport Sheridan, Hourly Expected at Manila, Will Probably Be Put to Fighting at Once.

Washington, March 27.—A dispatch received from General Otis at 10 o'clock last night, recording MacArthur's advance to Newbayan, marked a distinct and important step by the American troops, in the opinion of Acting Secretary Melkolehn and Adjutant General Corbin. Both expressed their satisfaction at what had been accomplished. The former dispatches regarding this branch of the operations had not been so promising inasmuch as they had stated that General MacArthur, although he had driven the enemy, could not gain a point near Polo on account of the roughness of the country. With easy

railroad communication to the advanced point, the difficulty in forwarding commissary supplies will be considerably lessened. Every step forward is regarded as so much ground gained and an approach nearer to the insurgent headquarters at Malolos, now stated to be but 15 miles from the vanguard from the American army.
