OUR COUNTRY: First, Last and Forever.

It is now asserted that the \$1-dinner to be tendered Bryan is in fact to be a fifty-cent affair.

It may even be less than the appointed twenty days before Aguinaldo will enter Manila.

A REPUBLICAN party has been organized in Porto Rico. Which shows that the new citizens are becoming enlightened.

SHENANDOAH is not the only place that has its water troubles. The City of Brotherly Love knows how it is.

CONTROLLEER LLOYD, of Luzerne county, has made a very plain and emphatic statement concerning the costs to that county in so-called discharged cases.

The "fifty-two" must be added Representatives Hersh, Mackey and Yates, who joined them after Speaker Farr adjourned the House to shut out the Britery Committee resolution.

It is announced from Harrisburg that several startling moves are to be made in the Senatorial contest this week.

The anti-Quayites, however, are expected to concentrate on one candidate to-morrow's ballot in the joint Assembly.

WINDING AN OLD CLOCK.

"The human body," said Dr. Oliver Wendell Holmes, "is a seventy year clock. The Creator winds it up once, when we are born, and then delivers the key into the hands of the Angel of the Resurrection."

Yes, but they do not all run seventy years. It depends largely on how they are treated. Take the pendulum weight of the end of the wire, and your clock will rattle away at the rate of half a dozen hours at once.

There is an important difference, however, between your clock and your body. Even after the clock is completely run down, and at a standstill, you can wind it up and set it going again. Not so with the body. Once stopped it goes no more.

It follows that if Mr. Orrin W. Fiske had been "completely run down" at the time he refers to, he should not now be writing of him as a living man.

On a certain occasion a few years since he sat for five weeks continuously in a rocking chair, unable to lie down. At that time he was nearly crushed with a combination of complaints,—influenza, bronchitis and organic kidney disease.

TO TAX FRANCHISES.

New York's Governor Says the Tax Laws Are Inequitable.

HE URGES AN INVESTIGATION

By a Legislative Committee and a Report on Some Plan Which Will Relieve the Overburdened Small Taxpayers—Taxation of Corporations.

Albany, March 28.—Governor Roosevelt last night sent to the legislature a message recommending the appointment of a joint legislative committee to investigate the subject of taxing public franchises held by corporations, and to report to the next legislature. The governor says:

"The tax laws of this state are in an exceedingly unsatisfactory condition, and I do not see how they can be put upon a just and wise basis save after careful investigation by legislative action. At present the farmers, the market gardeners and the mechanics and tradesmen having small holdings are paying an improper and excessive proportion of the general taxes, while at the same time many of the efforts to remedy this state of affairs, notably in the direction of taxing securities, are not only unwise, but inefficient, and often serve merely to put a premium upon dishonesty. I would not like to franchise any class of our citizens free immunity from paying taxes, for this would almost certainly result in extravagant expenditures, both in the state and in the municipalities, against which the surest safeguard is the immediate pressure of the purse of the citizen. But though complete immunity from taxation by the people at large is not desirable, the fact remains that at present taxation is excessive and badly distributed.

"There is evident injustice in the light taxation of corporations. I have not the slightest sympathy with the outcry against corporations as such, or against prosperous men of business. Most of the great material works by which the entire country benefits have been due to the action of individual men or of aggregates of men who made money for themselves by doing that which was in the interest of the people as a whole. From an armor plant to a street railway no work which is really beneficial to the public can be performed to the best advantage of the public save by men of such business capacity that they will do the work unless they themselves receive ample reward for doing it. The effort to deprive them of an ample reward merely means that they will turn their energies in some other direction, and the public will be just as much the loser. Moreover, to tax corporations or men of means in such a way as to drive them out of the state works great damage to the state. To drive out of a community the men of means and the men who take the lead in business enterprises would probably entail as one of its first results the starvation of a considerable portion of the remainder of the population.

"But, while I fairly admit all this, it yet remains true that a corporation which derives its powers from the state should pay to the state a just percentage of its earnings as a return for the privileges it enjoys. This should be especially true for the franchises bestowed upon gas companies, street railroads and the like. The question of municipal ownership of these franchises cannot be raised with propriety until the governments of all municipalities show greater wisdom and virtue than has been recently shown, for instance, in New York city; the question of laying and assessing the tax for franchises of every kind throughout the state should in my opinion be determined by the state itself.

"I need not point out to you that in foreign communities a very large percentage of the taxes come from corporations, which use the public domain for pipes, tracks and the like. Whether these franchises should be taxed as really, or whether it would be wiser to provide that, after the gross earnings equal, say, 10 per cent of the actual gross, then 5 per cent of all the gross earnings over and above this shall be paid into the treasury, or whether some yet different plan should be tried, can only be settled after careful examination of the whole subject. One thing is certain, that the franchises should in some form yield a money return to the government."

Rescued Passenger Brings Suit. Baltimore, March 28.—Miss Catherine Belle Noble, who narrowly escaped death at the time of the loss of the steamship Mohagan, when upwards of 100 persons were lost, on Oct. 14 last, filed a suit in the city court here yesterday for \$30,000 against the Atlantic Transportation company, owners of the vessel. Miss Noble alleges that the employes negligently ran the vessel over the English channel without her lifeboats being in position, and that they did not take proper precautions for the safety of the passengers. She also claims that the vessel was out of her course. She alleges that she received permanent injuries in the disaster.

Death of Bishop Dugan. St. Louis, March 28.—Bishop James Dugan died yesterday at St. Vincent's insane asylum, where he had been a patient for 23 years. He was 74 years of age. The bishop's intellect became clouded in 1870, and it was found necessary to provide for him at the asylum. One of his delusions was that he was the pope. At intervals he appeared to be entirely rational. At such times he would pore over ecclesiastical volumes and recount incidents of his life. Fifty years ago Bishop Dugan was the confessor and friend of Archbishop Kenrick. Up to the time of his death he was always permitted to retain the garb of a bishop.

The Molineux Case Transferred. New York, March 28.—Justice Williams, of the supreme court, at the request of District Attorney Gardner, yesterday transferred the case of Roland B. Molineux to the criminal branch of the supreme court, thus taking it out of the jurisdiction of the court of general sessions. This makes it necessary for counsel for Molineux to make a new motion of 24 hours' notice to Colonel Gardner that they will move for the quashing of the indictment. The motion was to have been made today before Judge Blanchard, in general sessions.

Yellow Jaundice Cured. Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from Yellow Jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky."

Death of a Princeton Professor. Princeton, N. J., March 28.—Dr. James O. Murray, dean of the university, died yesterday after an illness of several weeks. Dr. Murray was born in Camden, S. C., Nov. 7, 1827. His father was a grandson of Philip Syng, of Philadelphia, the well known associate and friend of Benjamin Franklin. Professor Murray was graduated from Brown university in 1850 and from Andover Theological seminary in 1854. He was pastor of the Brick church, in New York city, in 1856, from which in 1875 he came to Princeton as professor of English literature. He has been dean of the university since 1883.

McCoy-Sharkey Fight Off. New York, March 28.—William A. Brady, manager of Kid McCoy, yesterday notified Tom O'Rourke, manager of Tom Sharkey, that the Sharkey-McCoy match would have to be declared off temporarily, as McCoy hurt his shoulder in his recent fight with Choyzinsky. McCoy does not feel physically prepared to meet Sharkey, Brady says. He wishes to take on more weight before meeting the sailor.

"Coin" Harvey Restless. Chicago, March 28.—Mr. W. H. ("Coin") Harvey has resigned as general manager of the ways and means committee of the Democratic national committee and Mr. Sam B. Cook, of Missouri, has been appointed in his place. Mr. Cook has been in practical charge of the office for some time, while Mr. Harvey has been in the field. Mr. Harvey gives as the cause of his resignation that he could not get the committee to agree on what he thought was a practical, business like and aggressive policy.

Backache

Wearing, ceaseless backache. Dull, exhausting and constant pain. No comfort by day. No rest at night. Aches in the small of the back, pain low down in the side. No spirit for any task, no hope for relief. Great numbers of women are not free from backache from one year's end to another.

Among Mrs. Pinkham's victories there is none more complete than that over backache, and the evidence of thousands of women prove that she is its conqueror.

Mrs. C. Klensk, of Wells, Minn. (Box 151), writes: "DEAR MRS. PINKHAM—I suffered for years with a long list of troubles, and I want to thank you for my complete recovery. Lydia E. Pinkham's Vegetable Compound is a wonderful medicine for women."

"I had severe female complaints, causing terrible backache and nervous prostration; was dizzy most of the time, had headache and such a tired feeling. I now have taken seven bottles of your Compound and have also used the Sanative Wash and feel like a new woman. I must say I never had anything help me so much. I have better health than I ever had in my life. I sleep well at night, and can work all day without feeling tired. I give Lydia E. Pinkham's Vegetable Compound all the credit, for I know it has cured me of all my troubles. I would not do without your remedies for anything."

When a woman has severe backache she has some serious trouble that will sooner or later declare itself.

Mrs. E. Furton, of Meade, Mich., found that her backache was caused by a tumor, which three bottles of Lydia E. Pinkham's Vegetable Compound expelled. This is Mrs. Furton's letter:

"DEAR MRS. PINKHAM—Two years ago I was troubled with constant backache and headache, and was very nervous. I resolved to try your medicine and took two bottles of Lydia E. Pinkham's Vegetable Compound and on taking the third a tumor was expelled. I was a little frightened and sent for the doctor; and he said that it was fortunate for me that it came away. I got quite well after that and have your Compound alone to thank for my recovery."

The safe way to guard against trouble is to get Mrs. Pinkham's advice when the backache first appears. A letter to her at Lynn, Mass., describing your case fully will receive a prompt reply without charge.

"Your Medicine is a Friend to Women."

"DEAR MRS. PINKHAM—I wish to tell you the great good your medicine has done me. I do not feel like the same woman. I have suffered terribly. Had womb and kidney trouble, leucorrhoea, very severe pains in hips and sides of abdomen, headache, was nervous, menses were irregular. I have now taken four bottles of your Vegetable Compound, and the backache has left me, menses are regular, can sleep well, and awake in the morning feeling much rested. Your medicine is indeed a friend to women. I wish that I could tell every woman what a wonderful medicine it is. I cannot praise it enough."—Mrs. Anna J. Fenstermaker Pine Summit, Pa.
