OUR COUNTRY: First, Last and Forever. SCHUYLKILL county has several superannuated politicians who imagine they still have a following.

SCHUYLKILL county will be represented at the Bryan one-dollar dinner, in the person of William Wilhelm, the personal representative of the silver oracle in this county.

THE "insurgents" at Harrisonburg, if we are to believe their press agents, have had Senator Quay defeated daily, but the "old man's" faithful supporters in the legislature continue to line up in solid phalanx.

THE county seat, we are told, is to have another Republican daily paper, making three in all. There are so many factions in the party in that town that they all feel like having a personal organ.

It is said speakases continue to flourish in West Mahanoy township, while the men who obey the law and contribute to the support of the township are deprived of all rights.

THE law now stands there is no provision for costs when a defendant absconds, unless the bondsman is proceeded against.

A DECISION that will have a widespread effect has just been handed down by the McKean county court.

Plant a Tree. Superintendent Brooks, of the public schools, has selected April 7, the first of the two Arbor Days named by Governor Stone.

And not only may trees be planted, but vines, shrubs and plants of all kinds; for by these means the children will be brought close to nature.

No opportunity ought to be lost by the teachers in the schools to lead the children into these nature studies.

Special for This Week Only. A choice box of chocolates and bonbons for 25 cents a pound at Kemmerer's.

What Shall We Do. A serious and dangerous disease prevails in this country, dangerous because so deceptive. It comes on so slowly yet surely that it is often firmly seated before we are aware of it.

The name of this disease which may be divided into three distinct stages is, First, Kidney trouble, indicated by pain in the back, rheumatism, lumbago, frequent desire to urinate often with a burning sensation, the flow of urine being copious or scant with strong odor.

If allowed to advance, this reaches the Second stage, or Bladder trouble, with heavy pain in the abdomen low down between the navel and the water passage, increasing desire to urinate, with scalding sensation in passing, small quantities being passed with difficulty, sometimes necessary to draw it with instruments. If uric acid or gravel has formed, it will prove dangerous if neglected.

The Third stage is Bright's Disease. There is comfort in knowing that Dr. Kilmer, the great kidney and bladder specialist, has discovered a Remedy famous for its marvelous cures of the most distressing cases and known as Dr. Kilmer's Swamp-Root.

It is sold by all druggists. As a proof of the wonderful virtues of this great discovery, Swamp-Root, a sample bottle and book of valuable information will be sent absolutely free by mail on application to Dr. Kilmer & Co., Binghamton, N. Y. When writing kindly mention that you read this liberal offer in the Shenandoah Herald.
