THE ASSEMBLY HAS ARMY ROLLS

But Refuse to Give Them Up Until the Assembly Is "Recognized" by Our Officials-General Gomez Calls Them

Havana, March 31,-Governor Gen eral Brooke has almost made up his mind to send the \$3,000,000 back to the United States if the Cuban military assembly does not give up the army rolls. "You may as well do so and not triffe much longer," said Secretary Alger, when dis cussing the natter two days ago in con ference with General Brooke and General Gomez. The latter said that such a course would serve the assembly right

Any way, the impression is spreading that the governor general may return the money to Washington, and it is stirring up fresh feeling against the assembly, General Ernst called upon the Cubau General Rafael Portuondo, chairman of the executive committee of the assembly three days ago and asked for the rolls "Do you come from General Brooke," asked Portnondo, "Yes," replied General Ernst, "Officially or unofficially?" I come unofficially," answered the American ican officer. "Then I cannot give them up." retorted Portuondo. "I can only d.)

so on official recognition."

A file of the United States troops would probably be sent to take the rolls if the military administration knew exactly where they were, but there is a feeling that a mistake might be made and the administration be placed in the light of over anxiety and possibly be

laughed at. In the course of a conversation with an old friend from San Domingo yes-terday General Gomez said: "I am ready to go home. I am tired of this jangle with the assembly. I have learned something about this people which I lid not know before. They are an ungrateful people. They do not appreciate what the United States government is doing for them a service in which I am assisting. These assembly commissioners have run off again to the United States to beg for money, while I, who have a wife in San Domingo, have not money enough to bring her here. But there I have a house and might be sure of enough to live on. I am old and tired, and I feel like going back."

In view of the fact that the fighting was widespread and long continued, and that the foreign offices at London and Berlin have been officially advised of the affair, it was regarded as somewhat strange that the state and navy departments should be entirely without infor-mation on a bombardment by an Ameri-can admiral. Up to the close of of-fice hours it was stated that nothing had come from any of our representatives in Samoa dealing with the out-brenk of hostilities. The calls of Sir Julian and Baron Sternberg were mainly for information, for at petiter of the embassies had there been a report of the occurrence or instructions up to the time of the calls.

### THE EFFECT IN BERLIN.

There is considerable curiosity in this city as to the effect the outbreak will have upon the attitude of the United States and Great Britain, but the view remains that the final settlement will be in no way changed by the outbreak of hostilities. The Bombardment of Samoa Has Not Aroused the Germans. Berlin, March 31.—The German gov-eriument was taken wholly by surprise with the news from Samoa. The imperial chancellor, Prince Hohenlohe, is spending his birthday, which occurs to-day, at Baden Baden and the minister of foreign affairs, Baron Von Buelow, is enjoying a fortnight's vacation in Holstein. But a well informed individual says the government here is skeptical as to Admiral Kautz's instructions. He adds that the instructions for a bom-bardment were based on the British and American claims that Mataafa was ontravening the Samoan act. But, the correspondent's informant points out, the contravention was not specified, and the government presumes that if the act was really infringed Herr Rose, the German consul, would also have protested, as his government had instructed him to strict-

The assertion that Herr Rose protested against the deposition of the pro-visional government is doubted, as it is claimed Herr Rose was instructed not to identify himself with Mataufa more closely than the representatives of the
