Shenandoah Took Up the Good Work and Her Citizens Did Their Share.

Push a good thing along. Let others know its goodness. The "Little Queer" is a good thing. Shenandoah people are finding it out. Many a thankful man, Many a happy woman, Can testify to this. Experience is the teacher. Our citizens are telling their experience. Here is a case of it—

Mr. George Cox, owner of Juneybree alley and Gilbert street, mkr. 257-1, suffered from pain in his back and kidneys. The lameness over my ribs and the sharp twinges over my hips caused me very acute distress while the bladder difficulty gave me both embarrassment and pain. I had no relief in the upper part of my shoulders as well as in my back. I heard about Dean's Kidney Pills, procured a box at Kirilin's Pharmacy on South Main street and they relieved the difficulty with the kidney secretions and the lameness in my back. I know of others who were cured by using Dean's Kidney Pills."

Dean's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. sole agents for the W. S. Comer, the name Dean's and take no other.

ALLEGED SWINDLERS

Arrested on a Warrant Charging Grand Larceny.

ASSETS OF A LOAN ASSOCIATION.

It is Charged, Were to Have Been Diverted to the Personal Use of the Men Who Had Themselves Placed in Control.

Buffalo, April 3.—The arrest of John L. White, whose address is given as the St. Paul building, New York, and Charles L. Eastwood, said to be Syracuse, and the issuing of warrants for the arrest of John White, who is said to have an office in the Galatin National bank building, New York, Samuel Piser and E. A. Alger, also of New York, all on the charge of grand larceny, has brought to light an alleged scheme to make away with the assets of the Globe Savings and Loan association, of this city.

The four men mentioned came to Buffalo a month ago, and, according to the story told by the officers and those interested, visited the offices of the loan company, saying that they were organizing a building association combine or trust, and wanted the globe company to join it. The story told to the officers and directors of the company was a plausible and inviting one, and it was agreed to join the combine.

On March 27 Eastwood, White, Piser and Alger came to Buffalo again, and immediately following their arrival the directors of the globe company resigned, and Eastwood and his friends were elected to their places. The new board at once proceeded to organize by electing White as president and Eastwood as secretary and treasurer. Accompanied by the former treasurer of the association Eastwood visited various banks in which money was deposited to the credit of the globe association and was introduced to the bank officials.

Later in the day Eastwood returned alone to the City National bank and drew \$10,500, saying that the association had bought a tract of land in Queens county and the money was to make a payment on it. Eastwood at the same time deposited with the City bank drafts on several other local banks for the amount of the loan association's balance, stating that he wished to bring the balance in the City bank up to respectable figures.

One of these checks, drawn on the Citizens' bank, attracted the attention of President Joseph Block, who suspected something wrong and consulted the attorney of the globe association regarding it. The other directors and officers were at once called together, and an injunction was secured restraining the different banks from paying out funds held by them to the credit of the globe association.

After the injunction had been secured a check for \$4,000, made payable to Samuel Piser and endorsed by Reynolds, drawn through a Rochester bank, reached the City National bank here, and another for \$4,500, drawn through the Chemical National bank, of New York, by White, arrived at another bank. Both checks were held up pending further investigation of the affairs of the association.

The original directors of the globe association have made good the \$10,500 drawn from the City National bank, and the assets of the globe concern are, therefore, unimpaired.

How to Look Good.

Good looks are really more than skin deep, depending entirely on the healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at A. Wasley's drug store. 50c per bottle.

Railroad Receivers Appointed.

Kansas City, Mo., April 3.—A receivership for the Kansas City, Pittsburg and Gulf railroad was asked Saturday by Judge Gibson, of the circuit court, by Charles Grannis and other stockholders and creditors. The application was granted and Judge Gibson appointed the following named officials of the road as receivers: E. L. Martin, manager, and J. M. Trimble, attorney, all of this city. Considerable mystery seems to surround the affair. The interest due amounted to \$375,000, and it could not be met. When this fact became known a movement was begun to secure the appointment of a receiver, who would be specially friendly to the eastern interests of the road. This move was checked by the preparation of the papers for the appointment of local receivers.

CORRUPTION IN CUBA.

Bribery and Fraud Direct the Administration of "Justice."

GEN. GOMEZ ON THE ASSEMBLY.

In a Letter to His Wife the Cuban Veteran Explains His Controversy With the Officers—Expresses a Desire to Go to His Santo Domingo Home.

Havana, April 3.—Today, as under the Spanish regime, bribery and fraud direct the Cuban courts. This is the firm conviction of the military administration, Governor General Brooke is taking the matter up and intends to clean out the corruption, to change the court personnel and to abolish the barbarous practice of incommunicado, by which a judge may imprison for life a person innocent of the accusation against him and of the names of his accusers.

It is true that the statutes allow only three days detention incommunicado, but a judge, under the practice that has grown up, may make a new commitment at the expiration of the three days, another at the expiration of the sixth and so on without limit.

More than this, the evidence in criminal cases is taken by scribes, or clerks, who for a consideration write in the testimony things never uttered, thus accused appear to condemn him. Apparently the whole criminal and civil systems have been arranged so as to make it easy to buy and sell justice.

General Maximo Gomez, in a long letter directed to his wife in Santo Domingo, reviews his differences with the military assembly. He begins by describing the situation as it was when Robert P. Porter, as the special representative of President McKinley, visited Cuba, after the assembly's representatives at Washington had obtained a promise of \$3,000,000 from the president.

"This action on the part of the assembly," Mr. Porter approved. It was then that Mr. Porter appeared and asked me as commander-in-chief to do what I could to bring about a settlement of the military assembly. I did not accept the terms of settlement offered to me by the assembly, my crime being that I was inclined to accept the \$3,000,000 which had been obtained by the representatives of the assembly. I saw to the adjustment of all the questions that led up to a termination of the military assembly and began to entertain hopes of an early return to Santo Domingo.

"The assembly then called upon me to visit its president, saying that the object was an official exchange of ideas. They desired me to give strength to the assembly itself, through its representatives, had induced President McKinley to promise a matter as to which I had not been consulted. It appeared that I had broken my word of negotiations for \$13,000,000. To all this I replied that I had acted in the best faith, but that nothing had been lost, as I would withdraw the acceptance I had given. They then requested me to array myself on their side in order to give strength to their resolutions. I answered that I had always done so and would continue to do so except in cases where the course of the assembly was opposed to my conscience to my sense of justice and to my idea of the best interests of Cuba.

"Regarding the matters under consideration I said I had no hope of obtaining more than the \$3,000,000 from the United States and disapproved asking for charity, contending that the only method left was to lack adequate authorization. Furthermore, I pointed out that the soldiers could not wait, that already they were too great a burden on the people of Cuba, and that longer delay appeared to me to be cruel.

"The conference ended without accomplishing anything. I saw I could not make myself understood by the assembly, and decided not to be mixed up in its doings, but to await developments. A few days later three men whom I did not know visited me and said that several millionaires had been ready to facilitate a loan of many millions, but that the matter was possible only with my co-operation. I answered that I could not consider any proposition of the kind, and regarded it as strange that any one would be ready to lend money without a guarantee. My visitors replied that the city council could arrange a guarantee. They then asked me to sign a statement that a committee of the assembly approached me, asking me to support the assembly's efforts to obtain a loan. To this I replied that Cuba could not make a loan, as she lacked the necessary authority. The next day, however, they deposited me. I consider that I have acted honorably, and my strongest desire is to return home."

THE FILIPINOS TRACTABLE.

Left to Themselves They Would Never Prove Troublesome.

Wheeler, W. Va., April 1.—

Lieutenant William Brainerd Smith, executive officer of the Charleston, who has spent the winter on the Philippine Islands, writes in the press dispatches, writes an interesting letter from Manila to Hon. Augustus Pollack, of this city. He is now captain of the port at Manila and has under him some 500 native Filipinos whom he finds it easy to control. Speaking of the natives he says:

"The native himself, left to his own intentions, will never prove troublesome. They would be only too willing to earn a meager living and get a few dollars. They are not hard to handle at all. I employ several hundred in my department and find no trouble whatever, though I have often to work them at night in docking and undocking vessels. During all the fighting hundreds in my employ remained loyal and faithful. I lost only five or six in all, and those I believe were feigning out for fear of subsequent molestation should the rebels as they contended they could do worse all the Americans off the face of the earth."

"Heretofore, when fighting with the Spaniards, the rebels have been badly organized and much worse armed. Notwithstanding this condition they had in a general way a success out of every engagement with their natural enemies. Since that time they have been much better drilled, better armed and better organized, and they naturally associated could easily succeed in exterminating the Americans. They tried it two weeks ago yesterday at 9 p. m. Oh, what a surprise. Thousands of them are dead, cremated and buried, and the hospitals are filled with the wounded, many of whom will never recover. They have lost in all about here over 10,000 men. Our loss has been 68 officers and men killed and 275 wounded. Our wounded people have a much better chance of recovery than theirs, as the manner has been a cleaner and smaller wound than in our Remington and Springfield rifles."

A New Railroad for Colorado.

Denver, Colo., April 3.—A railway between Cripple Creek and Canon City is to be built during the coming summer. The construction is under the personal charge of George H. Proctor, of New York city, who says that \$1,000,000 have been subscribed for bonds of the company, which has been incorporated in Arizona with a capital of \$2,000,000.

Shipwrecked Sailors Bunch Shrove.

Hatfield, N. S., April 3.—The schooner Gleason, from Parrsboro, N. S., for St. John, N. B., laden with coal, was last week given up as lost with all hands. Yesterday the crew reached Parrsboro with the news that the vessel foundered in the Bay of Fundy during the hurricane of Wednesday last, the men being largely able to take to the boats and abandon the schooner before she was sunk by the high running sea. They were then taken aboard the steamer the Hart, which they reached after eight hours of hard rowing in the storm.

NEWS OF VICTORY.

When an excited messenger comes dashing in with glorious news of victory from a great field of battle nobody wonders at his enthusiasm. It is contagious. Every man who hears the grand tidings is ready to swing his hat and cheer and pass along the splendid story to his nearest neighbor. When a man has been through a terrible battle with sickness and at last has gained a glorious victory his first impulse is to tell the good news to others. He wants every man and woman of his acquaintance to know about the splendid remedy that brought him back from sickness and discouragement to sound and perfect health.

"I had rheumatism for three months," says Mr. James K. Crampton, of Shrewsbury, Washington, N. C., in a recent letter to Dr. R. Pierce, of Buffalo, N. Y. "I couldn't walk at all. I was in business in Baltimore. I tried the best doctors I could get but they did me no good. I took three bottles of Dr. Pierce's Golden Medical Discovery and was cured."

"I came home to Shrewsbury and there were three cases of different diseases. I advised the patients to take Dr. Pierce's Golden Medical Discovery, and all were cured. I have sold one hundred dollars' worth of your medicine by telling people how I cured me."

"You will find enclosed my recent testimonial for one of your medical remedies."

This grand "Discovery" is the most perfect formula ever devised for the complete and thorough renovation of the blood from all unhealthy germs and lurking taints of every name and nature. By making pure and healthy blood free from bilious poisons it builds up strong and active manhood and blooming attractive womanhood.

If out of health, write to Dr. Pierce. He will send you good, fatherly, professional advice without charge. See his address above.
