Quay Will Not Retire. Harrisburg, April 4.—Senator Penrose, who met Senator Quay in Washington Sunday, arrived here this night. His statement is that Senator Quay will probably arrive in Philadelphia this evening. He had expected to go there yesterday, but he received word that Mr. Shapley, one of his counsel, would not reach Philadelphia before tomorrow. The senator has arranged for a conference with his attorney on that day regarding the case which comes up in court next week. It is Senator Quay's intention to come here as soon as possible after getting through with the consultation with his counsel. Senator Quay agrees with his friends that, as the members of the Republican party for United States senator, he has but one duty to perform, and that is to remain in the field, and to the finish.

Almost Fatal Stabbing. A stabbing affray that almost resulted fatally occurred at Lost Creek No. 2 last night through an encounter between two factions of Lithuanians. The affray occurred at the place of George Thompson, the only licensed saloon in West Mahanoy township. One faction of four men was at Thompson's place when the other faction, comprising five men who had imbibed freely at speak parties, appeared and soon after a row started, during which John Bobala stabbed Frank Ketchinski in the right temple, severing two arteries. The victim almost bled to death. When Dr. Brady arrived he found the man in an exhausted condition. No arrests have been made and at the time the proprietor of the saloon was absent.

WHAT AILS MANY MEN. There is no need to describe the peculiar weakness with which men are afflicted—you all know what it is—it has been caused by over-work, indigestion or tuberculation. How to cure it is what interests you. You may have taken many kinds of medicine and found no relief—that proves nothing except that you have been working on a wrong line. A regular physician who has seen thousands of similar cases ought to understand yours. You can consult Dr. Greene without cost, personally or by letter at his office, 35 West 14th St., New York City. If it is not convenient for you to call, write Dr. Greene a letter—you will receive a prompt answer explaining your case. Remember that consultation and advice are free.

YEARS OF TORTURE.

Relief at Hand Had He Only Known Where to Look For It. Let us, my good friends, always suit our tools to the work to be done. We do not trim our nails with broadswords or carve statues with adzes. Now a word is a tool, just as a hoe is, or a razor. The figure of Liberty on a quarter of a dollar is impressed there by a machine made for the purpose. By the same token words were invented to imprint thoughts and ideas on the minds of others. And every word or expression has a currency meaning of its own so long as we refrain from using them in a slack or careless way.

Just as the Lord Mayor's coach, or one's own best clothes are not intended for every little trumpery occasion, so great words should be reserved till the time comes when nothing else will do. When a man sings his whistlers by the alively handling of a lighted match, we do not rouse up the fire department.

Now the word "excruciating" is one of the strongest words in the English language. It stings with sharp significance as a black cat's back snaps with electricity on a frosty night. Only shallow people will take liberties with this word. In our ordinary talk it does not come properly into play once a year; and rightly so. For it alludes to a kind of mental or physical suffering that we desire to avoid thinking or speaking of. If the root meaning of the word "excruciating" escapes you for a moment look it up in the dictionary. It is a word with a pedigree, and its ancestors have suffered with horrors since men began to make history.

The question then that you and I have to settle is, whether Mr. Geo. B. Simpson employed this dignified and exclusive word justifiably when he said, "I was troubled twelve years with much pain in the snail of my back. So continuous was it that I ceased to take pleasure in work. Indeed I ceased to take pleasure altogether. With me life got to be a thing to endure, not to enjoy. I am speaking within bounds when I say that at times those pains were excruciating."

"With the pains in my back I suffered from terrible periodic headaches and profound mental depression. I was a prey to anxiety and apprehension, the cause of which I was unable to locate or understand. Yet to look at me you would hardly have fancied my true condition. Sometimes when appearing at my best and receiving the congratulations of my friends on what they were pleased to call my obvious improvement, I still felt wretched and miserable. But no body sympathized with me. I suppose it was because I was not emaciated or run down as persons with dangerous diseases are commonly supposed to be."

"While on this point, I may perhaps be permitted to say that affections of the kidneys, even Bright's disease itself, often co-exist with a generally healthy external appearance on the part of the patient. The poor fellow may be within a few weeks of his death and yet to the uninitiated eye look well enough to pass for a sound man."

"The secretion from my kidneys was high colored and offensive, with a considerable brick dust deposit. I cannot set forth in

writing what I suffered and shall not try. The headaches alone I thought, a sufficient punishment for such unbecoming offenses in the matter of eating and drinking, as had brought this complaint upon me."

[The editor begs to interrupt Mr. Simpson to remind him, and others as well, that in inflicting penalties Nature never stops for a moment to consider whether the offenses were consciously committed or not. Justice and judges are continually moved either by sympathy to the prisoner or prejudice against him. Nature is cold as a toadstone, yet perfectly fair and impartial. Whether you take a dose of poison ignorantly or intentionally, or with the purpose to commit suicide, the result is precisely the same. Nature will not push you over the cliff, neither will she put out her hand to save you from being dashed to pieces. Think of this when you are tempted to meddle with her arrangements.]

"The doctors," continues Mr. Simpson, "gave me no relief, although I consulted many and followed their directions faithfully. I do not blame them, for they did their best; and I cannot praise them as their best was no advantage to me."

"It was my custom to buy my toilet articles at the Walker-Rintels Drug Co., 244 Boylston Street, and one day I told Mr. D. Wallace Rintels about my condition and the failure of the doctors to help me. He at once suggested the use of Warner's Safe Cure. As to the virtue of this medicine, although I had heard of it, I was very skeptical. I considered the advertised statements of its merits exaggerated, yet I bought a bottle on the bare chance of its doing me good. After having taken a few doses my headaches were certainly less frequent and less intense. Greatly delighted at this hopeful outcome I kept on taking the medicine regularly and improved steadily; and before long the symptoms I have named wholly disappeared."

"At the date of this writing I have been well long enough to make sure that my cure is radical and permanent. In spite of the pain and peril of those twelve fearful years I have to-day as good an appetite, as clear a head and as sound a body as any man in Boston. As an illustration of it I need only say that the very insurance company which had previously rejected me on account of an 'incurable disease of the kidneys' has since written a heavy policy on my life. I weigh more than I used to do, and my flesh is healthy and solid. I am rid of the puffiness which marks the chronic sufferer from kidney trouble. And for this transformation I hereby acknowledge indebtedness to Warner's Safe Cure and that only." George B. Simpson, 23 Church Street, Boston.

What is popularly called kidney trouble is shown by modern investigation to have several forms. It is always a dangerous and deceptive condition, sometimes slowly and sometimes rapidly progressive, and liable to terminate fatally even when the immediate symptoms seem to be least alarming. Thousands of cases are attributed to other causes are really due to diseased kidneys. The success for many years of Warner's Safe Cure in relieving and curing this subtle disease has won for it the world-wide reputation it now enjoys. When kidney symptoms declare themselves, do not hesitate to use Warner's Safe Cure. The risk is not in resorting to this remedy, but in neglecting it.
