THE telephone monopoly which has been enjoyed exclusively by the Bell Company has, in "independent telephone interests," a rival which is daily becoming more potent and formidable. The independent movement in this section includes the Shenoykill Valley Company, which covers the Shenoykill region; the North Branch, along the Susquehanna and Juniata; the Anthracite Telephone Co., covering the Hazleton district; the Lehigh Valley Co., taking in the Bethlehem, Allentown, Easton and north to Mauch Chunk, and the People's Telephone Co., which will cover the Wyoming and Lackawanna valleys. The primary purpose of these companies is to give the people the benefit of lower telephone rates and the best service possible, and for this reason should be encouraged.

ALL Americans who have visited Cuba since the evacuation of the Spanish come back annexationists. After personally inspecting conditions on the island they return convinced that there is but one way to save Cuba from a fresh chapter of misrule and misery. Among those who have looked over the island recently is Henry M. Field, the well-known religious editor. He spent two months in Havana, Cienfuegos and Santiago. When asked what the attitude of this country toward Cuba should be, Mr. Field replied: "I can answer that very briefly. It's our holy duty to hold Cuba with a strong, firm hand. The idea of throwing the reins to those people is monstrous. It would mean anarchy." Mr. Field added that the policy should be to hold the island with a gloved hand of iron.

The Coal Trade.

The anthracite market during the past month has shown a slight improvement, in prices, though more in the nature of firmness than of any advance. The tonnage taken by the market has been light at all points, and stocks have, therefore, increased. With the beginning of April the feeling of uncertainty among buyers, as regards the future movement of values, has been accentuated by the stronger prices and determined efforts of the companies to maintain the production within the market's requirements. Purchasers are still undecided whether the companies will maintain their position throughout the year or, as in the past, permit a break to occur in the early summer months. They recognize that if prices are to continue moving upward, it will be profitable to contract for, and lay in, a fair supply of coal during the spring and carry it over for the advance, but in the absence of any knowledge as to even what course is proposed, and especially in view of the element of uncertainty which lies in the failure of the transporters to arrange definitely for the tonnage of the individual operators, the market is, generally speaking, at sea as to which course to follow.

It is exceedingly desirable that some decided step should be taken early in April in order that the spring trade may not be injured. Indeed, the property of the industry for the entire year is at stake, for unwise or dilatory action during this and the next two months would have an injurious effect upon prices for fall and winter business.

### OFFICERS CONDEMN THE BEER.

General Eagan May Undergo Still Another Court-Martial.

Washington, April 8.—Having decided at his forenoon court-martial yesterday to accept an evidence against the official reports of officers of the army, the beef inquiry court devoted the afternoon to listening to the reading of those reports. They were read by Major Lee as the representative of General Miles, who had read only about 30 of the 147 of them when the court adjourned for the day. The reports were generally brief statements of the personal experiences of the officers or summaries of opinions of the men under them.

The reports bore almost exclusively on the canned beef, but there were occasional references to refrigerated beef. The officers generally condemned the meat as a component part of the soldiers' ration. The complaints were that it was stringy and tough, and in many instances it was stated that it made the men sick, and in others that, though hungry, they generally threw it away rather than eat it. In some cases, however, the officers reported that they had heard no complaint of the meat.

The opinion is being expressed that the letter of July 13 from the agent of Armour & Co. to the commissary general, which was read before the beef court of inquiry, will result in another court-martial for General Eagan. The implication of the letter that General Eagan was cognizant of experiments with the Powell process to preserve fresh meat 72 hours is believed to put the case in such a light that General Eagan will want a court martial or might be compelled to face one, whether he wants one or not.

Bellfegent Priest Got to Jail. Tecumseh, Neb., April 8.—The factional fight between members of St. Andrew's Catholic church reached the point yesterday where Rev. Sperlin, the priest in charge, was sent to jail. A month ago Father Sperlin attempted to gain possession of property held by the faction opposed to him. In the collision which followed property was damaged and the priest defeated. Father Sperlin had his trial yesterday and was fined \$75. He appealed to the district court, and on refusing to give bond of \$500 was sent to jail.

Alleged Tyrants Indicted. Charleston, S. C., April 8.—In the United States circuit court here yesterday a true bill was found by the grand jury against 13 of the men accused of lynching Frazer B. Baker at Lake City, S. C., Feb. 22, 1888. Fifteen men are under arrest, but no explanation of the dropping of two names from the indictment was given. Before bringing the case out Judge Browley delivered an impressive charge, denouncing the crime as one of the blackest ever perpetrated in South Carolina.

The New Warships Named. Washington, April 8.—The president yesterday named the 15 new warships recently provided by congress as follows: Battleships Pennsylvania, New Jersey and Georgia; armored cruisers West Virginia, Nebraska and California; cruisers Denver, Des Moines, Chattanooga, Galveston, Tacoma and Cleveland. Petitions by the hundred have been flowing into the White House and navy department ever since the new ships were provided for urging the merits of various names. The president and Secretary Long enjoyed the good natural rivalry, and in making the final determination consideration was given not only the urgency of the influence brought to bear, but also to the several sections of the country.

Soldiers To Avert Madness. Pittsburg, April 8.—Fearful lest he should go insane from pain and apprehensive of being imprisoned in a madhouse, James E. Davis yesterday sent a bullet crashing into his brain, ending his life instantly. Davis was alone in his room at the St. James hotel. When a bell boy attempted to awaken him he discovered him lying dead on the floor of the room. Upon a table near the body was found a note containing the following message: "Forgive me. I cannot stand this constant pain and misery. My brain is on fire, and I don't want to go to a madhouse. Give me a plain and private burial. Mr. Davis was about 42 years old, single, and lived at East Brady.

Destruction of Impure Food at Havana. Havana, April 8.—There have been 4,100 cans of beef destroyed at the Regia warehouse during the last three months without action on the part of boards of survey, under the direction of Chief Commissary A. L. Smith and in accordance with the regulations allowing such action when the public health is menaced. Some additional thousands of the cans have been destroyed after official survey, besides the 10,800 cans that were condemned by the board of survey. The destruction was here. About 2 per cent of all the meat handled has been spoiled, and about 10 per cent of the canned tomatoes. There is but little decayed meat in stock now, but there are probably 25,000 cans of tomatoes unfit for consumption.

Alger Wilfully Welcomed in Cuba. San Juan de Porto Rico, April 8.—Secretary Alger's trip over the military road from Ponce has produced great enthusiasm among the people.
