Page to be Chief of the Fire Department, and Frank Stryker to Chief of During the day I would have attacks in my spine which involved my head and seemed to extend to all the leading nerves in my body. These attacks were often so audden they made me dizzy. I lost my appetite and was disqualified for mental effort. I felt so dull

body. These attacks were often so audden they made me dizzy. I lost my appetite and was disqualified for mental effort. I felt so dull and heavy in both mind and body that I lost all interest in everything. I was moody, disheartened and discouraged. To me the future appeared as unwholesome and discouraged warner's Safe Cure to me and I made up my mind to try it. The result was beyond my expectations or bopes. Up to that time I had been in such misery that I would alternately stand on one root, and them on the other to ease the pain, but before I had finished the first bottle of the Safe Cure I felt a change for the better. After having taken five bottles in all—s time covering perhaps as many weeks, the pain was entirely gone and I enjoyed the unspectable blessing of good health. From these facts, when people ask me my opinion of Warner's Safe Cure, you can imagine what my answer is. Elimind Stevens Jacques, Wayne Ave., Germatown, Pa."
Now if the reader will lend me his ears for a minute I will say a few plain words suggested by the abore letter. The complaint which gave Mr. Jacques such an unhappy experience was that form of haumatism common y called scintics. Few disancent in indictors, who sought to correct hereasy by means of bodily pain, could have impond at will the agonies of acute rheumatism they might have spared themselves the use of the rack, the thumberew, the boot, and others of their amiable devices. For few men but would change their ered quicker than a wink to get rid of this variety of torture.
Now here is the point in a nutshell : All forms of rheumatism and gout are caused by the poison known as uric acid; and urie acid is glance, as yon are not likely to get hold of any more important information this year.
In other words, cure liver and kidney complaint and you cure rheumatism, gout, sciatica and most other kinds of nerve pain. And the agent to do it with is Warner's Safe Cure. This shows why, as I said at the outset, Liverhand is a bigger country than In

LUNCH TIME TOO SHORT.

A home-keeping friend of mine and I took a lunch together the other day. He had never been out of the State of Ohio, while 1 was just back from three years' residence and trayel in India "Now," said my innocent companion as he sipped his coffee, "we have half an hour yet before us; suppose you tell me all about India. You talk and I'll listen."

An attack of lockiaw could not have shut on my speech more completely. At last I managed to articulate: Excuse me; it's too big a subject. Come to me some time when we can both spare an entire month, and I'll invest the whole of it in telling you a part of what little I know about India."

And yet I am confronted this blessed moment with a task even more puzzling and complicated-to tell all about the human liver. Nothing could be better, if it were possible. But it lan't; not at our sitting. So I will turn this man's letter over to you exactly as he wrote it, and perhaps venture a word or two at the end.

"Several years ago I found myself in such a condition that I could neither ait, stand or lie without great pain My nights were full of suffering. I would roll from side to side in vain efforts to sceure an easy position, so I could go to sleep. But every turn of my body seemed to cause me more pain than the last. The experforce was so continuous that I used to dread to have the night come.
