for it. Catarrh of the stomach has long been o

sidered the next thing to incurable. The usual symptoms are a full or bloated scusation after enting, accompanied some times with sour or watery risings, a forms tion of gases, causing pressure on the lungs and heart and difficult breathing; headache, fickle appetite, nervousness and a general played out and lauguid feeling

There is often a foul taste in the mouth, coated tongue, and if the interior of atomach could be seen it would show a slimy, in fismed condition.

The cure for this common and obstinate disease is found in a treatment which causes the food to be readily and thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the

To secure a prompt and healthy digestio is the one necessary thing to do, and when normal direction is secured the catarrhal condition will have disappeared,

According to Dr. Harlanson the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsiu, a little Nux, Golden Seal and fruit acids.

These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and, not being a patent medicine, can be used with perfect safety and assurrance that healthy appetite and thorough digestion will follow their regular use after

Mr. N. J. Booher, of 2710 Dearborn St., Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom, passing back into the throat, reaches the stomach, thus producing striking the Delaneys, Grady and Beat. catarrh of the stomach. Medical authorities the stomach without cure, but to-day I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I can not find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use.

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indiges tion, catarrh of the stomach, biliousness sour stomach, heartburn and bloating after

WORKMEN'S FATAL FALL

Bridge Builders Killed by the Collapse of a Superstructure.

FOUR DEAD, SIX SERIOUSLY HURT

In Addition Twelve Others Received More or Less Serious Injuries-The Accident Revealed Another American Hero in the Person of a Scow Boy.

New York, April 12,-The temporary superstructure of the big Willis ave-nue bridge, now being built over the Harlem river, collapsed yesterday afernoon, killing four men and seriously injuring six, one of whom may die Twelve or more other workmen also received injuries of a more or less serious nature. The dead are: William Delaney, 65 years old; Walter Delaney, son of the above, 22 years old; Thomas Grady, mason's helper; Lewis Beattle, Charles Pursley, 31 years, had his skull fractured and will probably die.

The accident was caused by too great weight being put on the traveling derrick that crossed the superstructure The superstructure connected the north shore sustaining wall with a pler, and was a flimsy affair, stretching 300 feet across deep water, built in three sections, one above another, to a height of about 60 feet. Over this a massive traveling crane, or carrier, was operated. Twenty-five to thirty men were employed on the structure when the collapse occurred. A heavy load of steel beams was being sent out on the crane, when the timbers gave way and the entire structure went down with a crash. As it went down the upright crashed into the workmen, tle and killing them instantly. Many prescribed for me three years for catarrh of of the men were carried down in the wreck. Only a few succeeded in get-ting to the pier, the majority either falling into the water or into the tangle of fron and woodwork.

The work of rescue was not long in beginning. Several tugboats put over to the scene of the disaster, and a number of rowboats also did excellant service.

James Lewin, one of the workers, was caught in the wreck beneath the surface and was drowning when a fellow workman, Edward Brooks, him-self painfully injured, dived for him

sand brought him to the surface.

S. C. Wolf, a foreman, was caught in a similar way and would undoubtedly have been drowned but for the bravery of a boy employed on a scow, who went over the side into the water in a trice He saw Wolf's danger, and by heroic work got him out and to the surface where men in rowboats took care of him. The same boy also rescued Thomas Luckey, who was also caught in the debris and was in danger of drowning.

The contract for the erection of the bridge was originally awarded to the Leonard Foley Construction company and by them almost immediately assigned to John P. Rodgers & Son. The contract for the bridge proper was awarded by Rogers & Son to the Edgemore Bridge works, of Wilmington, Del. It is said, however, that the superstructure was built by Rogers & Son, and that the Wilmington firm had nothing to do with it, and are not responsible. The work was immediately under the superintendence of James Headrick, and he was placed under

PEACE PROCLAIMED,

And Bellamy Storer Will Represent Us at the Spanish Capital.

DISCHARGE OF THE VOLUNTEERS.

Those in the Philippines Who Desire to Return May Now Demand Their Muster Out-Those Who Re-cullst Will Be Liberally Rewarded.

Washington, April 12.-The condition of war which has existed between the United States and Spain since April 21, 1898, terminated yesterday when the last formalities in the restora tion of peace were performed by the exchange of ratifications of the peace treaty. Coincident with this President McKinley issued his proclamation declaring that the war was at an end, and the appointment of Bellamy Storer was determined upon as United States minister to Spain.

Mr. Storer is now United States minister to Belgium. His selection for the Madrid mission is a distinct promotion in the diplomatic line. The difference in compensation is not considerable, but the new minister to Madrid will have very important duties to perform, including the early negotiation of a general treaty of trade and commity.

Bellamy Storer, who is a Catholic, is 52 years of age, having been born in Cincinnati in 1847. He was graduated from Harvard in 1867 and two years later from the law school of Cincinnati college. He entered public life as a member of the Flfty-first congress from the First Ohio district, was re-elected to the Fifty-third congress and was a member of the foreign affairs committee. He is a man of large private means.
It is assumed here that the Duc

d'Arcos, late Spanish minister to

ington, and the officials sincerely hope that this will be done, as a very fa-vorable opinion of him is held here. The effect of yesterday's action is to completely renew the peaceful relations, trade, official, diplomatic, con-sular, and in all other ways, between this country and Spain. Following the appointment of a United States minister to Madrid and a Spanish min-ister to Washington, it is expected that consuls will be sent to Barcelona and the other large places in Spain where our consular representatives were suspended by the war. At the same time Spanish consuls will be ap-pointed throughout this country.

Law officers of the government are liscussing, in the light of the president's proclamation, the question of mustering out the volunteer army. It is agreed that the law will be construed to mean that the muster out of the troops shall be upon orders of the executive, and that necessarily there must be a delay of a month or so in the discharge of the volunteers. Meantime they will receive their pay and

In accordance with precedent, established at the close of the civil war, a few of the volunteer organizations may be retained in the service for some time, although those who desire to return home will be permitted to do so. The law authorities hold that, in order that the volunteers in the Phil-

ippines may remain in the service in accordance with the provisions of the army law passed by the last congress they must re-enlist, not as organizations, but as individuals. The or-ganizations and the individuals who choose to go with them must be mus-tered out of this country. Those individual volunteers who re-enlist in the Philippines will receive not only the two months' extra pay provided for on their discharge from the army, but also travel pay from this country to the Philippines and return, amounting to about \$500. The war officials have decided that it would be more desirable to take a trained soldier in the Philippines than to send that sol-dier home and return a raw recruit.

It is evident that many volunteers in the Philippines are not anxious to remain, and will take advantage of the law to demand their muster out. The effect of the proclamation declaring peace will be felt by the enlisted men in the regular army to the extent of a reduction of 20 per cent in

Fortunately, a friend sidvised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a weil man. TANNER REBUKES DOWNEY.

Illinois' Governor Charges the Sheriff With Incompetency,

With Incompetency.

Springfield, Ills., April 12—A conference was held restorday between Governor Tanner and Sheriff Downey, of Christian county, and other prominent officials and citizens of Pans, including Chief of Police Kelly, City Attorney J. H. Morgan, S. E. Smith, of the Pans Gazetie, and Jacob Swallow, of the Pans Palladium, in regard to the Situation in that city. Heated conthe situation in that city. Heated con troversy arose between the governor and Mr. Smith over the question of removing the troops from Pans, the result of which was that Mr. Smith was ordered to leave the room. Governor Tanner asked Sheriff Downs why he left Pana when he did to tak prisoner to Taylorville, when he l 200 armed deputies in Pana. The sheriff acknowledged that many of his special deputies were as anxious as anybody to kill the prisoner. To this the governor said:
"You fell down when you left the

scene of battie and left your deputies without a commander. I do not think you are capable of maintaining order, and I think if you had been left in charge there would have been a terrible massacra. It was very eviden you had misrepresented the situation to me. I took the responsibility upon myself to send troops, and I have instructed that all persons shall be dis-

Sheriff Downey soon after practically dmitted it was his purpose, with the aid of the special deputies, to assist the union miners in getting the colored men from coming in. The gov-ernor said he would withdraw the troops when order was restored

"DEATH IN THE POT."

"Death in the pot." That sentence condenses the story of a tragedy. A little family gathering. A fine dinner cooked in the large copper kettle long disused, and the entire family poisoned by the accumulated verdigris. The story was told by the received. was told by the newspapers from one end of the land to the other. But it was soon forgotten. The moral of it is, that the purest of food, put into a foul vessel, instead of ministering to life may be come a minister of death. If the stomach is diseased it is like the

isonous kettle, which taints everything that goes into it. The symptoms are irregular appetite, undue fullness after eating, distressed feeling in the stomach, of fluttering and sinking sensations, pal or intering and sinking sensitions, pal-pitation, dizriness, ringing in ears, sour or bitter risings and constipation. Not all these symptoms may be present at the same time, but any of them shows dis-ease in the digestive or alimentary tract. The intimate relation of the stomach to the blood, heart, liver and lungs makes it a medical maxim in exploring the causes of obscure diseases to "start

the causes of obscure diseases to with the stomach." It is upon this principle that Dr. Pierce's Golden Medi-cal Discovery effects so many and such remarkable cures. It cleanses the stom-ach and the system is cleansed. It inach and the system is cleansed. It increases the action of the blood making glands, and the body is enriched by the purified blood. It strengthens the digestive or nutritive organs and these strengthen the whole body by increasing the quantity and quality of its nourishment. It carries off the poisonous, effete matter. In this way it re-establishes health, banishing the bodily aches, which are but symptoms of the storms have are but symptoms of the stomach's
