**OUR COUNTRY: First, Last and Forever.**  
We are in receipt of a copy of the twenty-first annual report of the Presbyterian Eye, Ear and Throat Charity Hospital, of Baltimore, Md. A former resident of this town, Charles R. Shoemaker, son of Councilman M. L. Shoemaker, is one of the assistant surgeons at the institution.

It will be a somewhat difficult undertaking for the free trade press to show that a "trust" is any more of a Republican co-operation than a trust is a Democratic union. Twist the shares of stock which you will; hold them up to the light of the sun or candle, and in vain will you look for a party label or finger mark.

**ALTHOUGH** Wallace C. Andrews the New York millionaire, by a will, dated in 1894, left all his fortune, without restriction, to his wife if she survived him, his millions will now go to his blood heirs. It cannot be determined which perished first in the fire last Friday morning, but the presumption in law is that when a husband and wife are menaced with death at the same time the woman, being the weaker, succumbs first. All right, title and interest in the property, therefore, remains in the husband's family.

**Facts Against Bryan.**  
The "late Mr. Bryan" is still harping on the silver issue. In his letter to Perry Belmont he says:  
"I never favored the double standard as against the single gold standard and during his administration our nation had the free and unlimited coinage of gold and silver at the legal ratio of 15 to 1. The ratio was changed to 16 to 1 during Jackson's administration."

The man who helped to write the Declaration of Independence, who started the movement that swept away the restrictions upon suffrage who put the ballot and the right to hold office at the disposal of the plain people, and who on the occasion of his first inauguration hitched his horse to a post and then proceeded to take the oath of office, was one of the first men of his time.

On the money question he believed in the double standard, as Mr. Bryan states, but with this proviso—he insisted that the ratio between the two metals should be based upon their value in the markets of the chief commercial nations. He was born in 1748 and during his life (he died in 1826) the fluctuation of the value of the two metals was very slight. About 14, 15 or 16 ounces of silver were always worth an ounce of gold. Bi-metallism of this substantial character might well be characterized as solid as the gold standard. But since his death there have been times when but 35 ounces of silver would not buy an ounce of gold. Now, does Mr. B. pretend to say that Jefferson would have been a silver man, a 16 to 1 disciple, if he had lived to see the white metal dug out of the ground like coal? If so, he presumes upon the people's ignorance.

Mr. Bryan has said, too, that Jefferson was opposed to expansion. This assertion is also susceptible of argument. If he had lived to see his country destroy mediaeval tyranny in Cuba and the Philippines, would he have advised it to quit, right away afterwards, and thus permit savage anarchy to take the place of Spanish impotence? Well, hardly. Being a wise man and a good man, he would have said to those fond of sitting in the gray twilight: "Have done with your cant, raise yourselves, and do your duty, that the echoes of glory heard on the Pacific and Caribbean waters shall not have been awakened in vain."

He would not have advised his country to cut and run after the victory in Manila Bay. He would have said, like every other patriot, "We are in for it and let us see the thing through."

**GERMANY NOT BELLIGERENT.**  
Government Discourages Radical Talk Against America and England.  
Berlin, April 13.—An official dispatch from Apla, dated April 5, says: "The British have been bombarding a Samoan village daily and the adherents of both Tann and Mataafa are plundering foreign property. On April 1 an Anglo-American landing party of 70 men fell into an ambush near Apla. Three officers were killed and two light guns were captured. The warships afterwards renewed the bombardment."

The officials here point out that the engagement appears to have occurred at the same place that a landing party from the German warships Olga, Eber and Adler had an encounter with the natives in 1858.  
Sir Frank Lascelles, the British ambassador, conferred with Baron Von

**BARRELS OF SAMPLES.**  
Over Two Hundred Thousand Trial Bottles Sent Free by Mail.  
By special arrangement with the manufacturers of that justly famous Kidney Remedy, Dr. David Kennedy's Favorite Remedy, the readers of the paper are enabled to obtain a trial bottle and pamphlet of valuable medical advice absolutely free, by simply sending their full name and post office address to the DR. DAVID KENNEDY CORPORATION, Rondout, N. Y., and mentioning this paper.

Of course this involves enormous expense to the manufacturers, but they have received so many grateful letters from those who have been benefited and cured of the various diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dropsy, Gravel, Constipation, and all weaknesses peculiar to women, that they willingly send trial bottles to all sufferers.

Upon investigation it was found that 91 per cent of those who had used the trial bottle had received such benefit from it that they purchased large sized bottles of their druggist.

It matters not how sick you are or how many physicians have failed to help you, send for a trial bottle of this great medicine, it costs you but a postal card, and benefit and cure will most certainly be the result.

Put some urine in a glass tumbler and let it stand 24 hours; if it has a sediment or if it is pale or discolored, milky or cloudy, stringy orropy, your Kidneys or Bladder are in a bad condition. Dr. David Kennedy's Favorite Remedy speedily cures such dangerous symptoms as pain in the back, inability to hold urine, a burning scalding pain in passing it, frequent desire to urinate, especially at night, the staining of linen by your urine and all the unpleasant and dangerous effects on the system produced by the use of whiskey, wine or beer. **THE BRITISH BLAME ROSE.**  
Two More Warships Ordered to Samoa From New South Wales.  
London, April 13.—The outbreak in Samoa just when the powers had agreed upon the appointment of a commission to settle the difficulties there has caused great annoyance and disappointment at the foreign office here, where it is regarded as making the already serious complications still graver. While they have difficulty in expressing a definite opinion upon the fresh developments, it is acknowledged that the foreign office officials think it has been manifested that there has been hasty and aggressive action upon the part of Herr Rose, the German consul, although he may have many technical reasons for the part he has played in behalf of German interests. It is asserted that he has been the prime cause of the fresh outbreak, which, it is added, will necessarily greatly embarrass the endeavors which

**THE BEEF INQUIRY.**  
Investigators Expect to Conclude Taking Testimony Next Week.  
Washington, April 13.—General Adna R. Chaffee and A. R. Arnold, Dr. Haidelkopf and Captain Williams, of the commissary department, were before the Waide court of inquiry yesterday. General Chaffee said that while he considered the refrigerated beef supplied to the army at Santiago wholesome, officers and men of his command refused generally to eat it. He attributed this largely to the fact that most of them were sick, and Haidelkopf said the canned beef was generally of poor quality. Captain Williams told of the condemnation of the beef on board the transport Panama. General Arnold's testimony dealt with the beef supplied at Jacksonville, which was, he said, generally wholesome.

Members of the court express confidence of being able to conclude the taking of testimony by the early part of next week. There will not be much delay after that in the presentation of the report.

**Regardless of Age.**  
The kidneys are responsible for more sickness, suffering, and deaths than any other organs of the body.  
A majority of the ill-afflicting people today is traceable to kidney trouble. It prevades all classes of society, in all climates, regardless of age, sex or condition.  
The symptoms of kidney trouble are unmistakable, such as rheumatism, neuralgia, sleeplessness, pain or dull ache in the back, a desire to urinate often day or night, profuse or scanty supply.  
Uric acid, or brick-dust deposit in urine are signs of clogged kidneys, causing poisoned and germ-filled blood. Sometimes the heart acts badly, and tube casts (wasting of the kidneys) are found in the urine, which if neglected will result in Bright's Disease, the most dangerous form of kidney trouble.

All these symptoms and conditions are promptly removed under the influence of Dr. Kilmor's Swamp-Root. It has a world wide reputation for its wonderful cures of the most distressing cases.  
No one need be long without it as it is so easy to get at any drug store at fifty cents or one dollar. You can have a sample bottle of this wonderful discovery, Swamp-Root, and a book telling all about it, both sent to you absolutely free by mail. Send your address to Dr. Kilmor & Co., Binghamton, N. Y., and kindly mention that you read this liberal offer in the Shenandoah Herald.

**THE LAKE CITY LYNCHING.**  
Self-Confessed Participants Give Their Story of the Tragedy.  
Charleston, S. C., April 13.—Two of the government's witnesses testified in the Lake City lynching case yesterday. They were J. P. Newham, one of the men who turned state's evidence, and M. W. Springs, who was the son of one of the defendants and had him to join the mob that killed Postmaster Baker. Newham is a white man of ordinary intelligence, but says he cannot read or write. He used to live in Lake City, but since he turned state's evidence he has been provided for in Washington.  
Newham swore that he met Stokes, Epps, Webster, Alonzo and Rodgers, defendants, and others at Stokes' store. Stokes planned the lynching, proposing to set fire to the postoffice and kill Baker when he came out. It was agreed to do this Monday night. At that time the men named, with McKnight, Ward and others, went to the place. He and Early P. Lee set fire to the house while the others hid in the bushes and fired into the place. Springs said Stokes tried to get him to kill Baker, but he refused to do so.

**The West Spring-Time Tonic-A Seashore Trip.**  
When spring-time comes, after the dull heavy winter-weather, we all feel the need of something to tone up the system. For nearly this was done by the use of bitter decoctions, but now-a-days the knowing ones have found that the best tonic is a trip to the ocean beach, and the practice of spending a few days on the Shore is finding more and more devotees every year, so much so, that the Seaside Hotels make extra arrangements to accommodate the early Spring visitors.  
Atlantic City, with its numerous open-air hotels, sun parlors and magnificent boardwalk, with a southern exposure giving while inhaling the warm invigorating salt air wafted up from the gulf stream, is especially suited for the purpose, and through the good train service of the Philadelphia & Reading route (Atlantic City R. R.) has quick railroad connection with all points. Fast trains leave Chestnut St. and South St. at convenient hours and through tickets are sold and baggage checked through from or to all points on the Philadelphia & Reading Railway and its connections.  
We would also call the attention of the traveling public to the fact that Philadelphia & Reading engines burn hard coal, thus avoiding smoke.
