The Best Spring-Time Tonic-- A Seashore Trip.

When spring-time comes, after the dull, heavy winter weather, we all feel the need of something to tone up the system. For-merly this was done by the use of bitter decoctions, but now-a-days the knowing ones have found that the best tonic is a trip to the ocean beach, and the practice of spending a few days on the Shore is finding more and more devotees every year, so much so that the Seaside Hotels make extra arrangements to accommodate the early Spring visitors.

Atlantic City, with its numerous open the-year hotels, sun parlors and maguificent boardwalk with a southern exposure, giving promenaders a splendid view of the ocean vhile inbaling the warm invigorating salt air wafted up from the gulf stream, is especially sulted for the purpose, and through the good train service of the Philadelphia & Reading route (Atlantic City R. R.) has quick railroad connection with all points. Fast trains leave Chestnut St. and South St. Ferries at convenient bours and through tickets are sold and baggage checked through from or to all points on the Philadelphia &

Reading Railway and its connections.

We would also call the attention of the traveling public to the fact that Philadelphia & Reading engines burn hard coal, thus avoiding smoke. The Atlantic City Railroad is double track all the way, and is ballasted with anthracite cinders, thus eliminating the wery disagreeable feature of dust, and that this route has the record of inaugurating the 60 minute train service between Philadelphia and Atlantic City, running and maintaining for 60 days without a break the fastest train in the world. Witnesses Refuse to Answer Questions in Gotham's Investigation.

Close Personal Friend and Business Associate of Mr. Croker Lays Himself Liable For Prosecution For

ANDREW FREEDMAN DEFIANT.

New York, April 22,-Two exciting sessions of the Mazet investigating committee were held yesterday. A feature was the refusal of witnesses to give testimony. Another feature was the defiant attitude of Andrew Freedman on the stand, and still another feature the ejection from the commit tee room of Abraham Himmelwright, of the Roebling company, when he insisted upon making a statement after he had refused to answer a great majority of the questions put to him by Mr. Moss, counsel for the committee.

The chief interest centered in Andrew Freedman, who within recent years has been known as a warm personal friend of Mr. Croker and assoclated with him in a business way. Mr. Freedman was more than ordinarily forcible in his answers some of the questions, and many of the questions he refused to answer at At other times he was rebuked both Mr. Moss and Chairman Mazet for what they termed "impertinence."

After Mr. Freedman's examination had progressed to a certain point, and the witness had refused several times to answer a question which he deemed "a personal matter," Mr. Moss excused him for the day.

Mr. Freedman then got down from the stand, and, turning to the news-paper representatives, he handed them a paper, saying: "Gentlemen of the press, here is a statement of the entire business of the Platt companies and all of the companies, for publica-

This was a paper relating to the business done by the United States Fidelity and Guarantee company, in which Mr. Freedman and Mr. Croker are interested, and contained information which Mr. Moss had desired to get at during the course of the examination. Mr. Moss, therefore, was very indignant at Mr. Freedman's acvehemently and recalled him to the stand. The questions which he put with regard to the paper to Mr. Fredman were not answered, the witness refusing absolutely to state by whom the paper had been prepared.

At this juncture Mr. Moss took oc casion to say that those witnesses who were in contempt would be dealt with later, in a regular, logical and legal

When Mr. Croker was on the stand a few days ago he testified that he had received dividends from the surety company, while yesterday it developed that the company had not paid dividends. Mr. Freedman explained on the stand, in reply to a series of ques-tions, that Mr. Croker is a stockholder in the company and is interested in the business success of the Metropolitan district, that he (the witness) received a salary of \$15,000 a year as manager for this territory, and commissions, and that he divided this money with Mr. Croker. Mr. Freedman, however, refused to name the sum that he paid to Mr. Croker, and said further that he thought Mr. Croker might be under the impression that the money paid him was in the way of a dividend.

Nearly the entire examination of the witness centered about his and Mr. Croker's connection with this surety company, which has dealings with a large number of city officials. witness could not remember exactly how this connection originated, but he did remember that there was no actual contract between Mr. Croker and himself for the payment of money, Mr. Croker relying on Mr. Freedman's

word as he himself put it. Abraham Himmelwright, of the Roebling Construction company, re-fused at the very outset of his examination to answer questions, and en-tered into a discussion at the slightest opportunity. After several long wrangles the witness insisted upon making an explanation. He was or-dered down from the witness stand by Chairman Mazet, but refused to leave the stand. Then Mr. Moss called for sergeant-at-arms, and Himmelwright was escorted from the room.

A Wreck From Grippe, Catarrh and Asthma.

### RESTORED WITH BRAZILIAN BALM

I was known as "The Woman who Coughs," for I coughed inessantly. I was a school teacher till my health failed. Catarrh had eaten away the partition in my nose. It had produced Bronchitis, Asthma, dreadful Stomach troubles and weak kidneys. In fact it had gone all through my system, making me an easy victim for the Grippe which left me a wreck in mind and body. This was the condition the flag and that a whole Spanish fleet doctors left me in, after dosing me with opium, quinine, etc. Then I bought cough cures without end but they only made me worse, I was in despair till I got hold of Brazilian Balm and Toxicola Tablets.

The lags and that a whole spain in left might come upon him with German brought cough cures without end but they only made me worse, I was in despair till I got hold of Brazilian Balm and Toxicola Tablets. They acted like magic from the first, and in a few weeks I was cured and better than I had been in years. Talk about wonderful remedies Brazilian Balm and Toxicola saved my life.

MANILA HERO'S DETERMINATION.

His Plain Talk to a German Officer: "If Your People Are Ready For War-With the United States They Can Have It at Any Time,"

New York, April 22.-Captain J. B. Coghlan and his officers, of the United States cruiser Raleigh, were royally entertained last night at the Union League club. The dining room was handsomely decorated with American and British flags and ten large tables were weighted with good things for the returned heroes of Manila. Formalities were largely dispensed with as much as the occasion permitted and every officer of the crack little cruiser was thrice welcomed.

President Elihu Root presided, and after an eloquent speech of welcome called for three cheers for Admiral Dewey. They were given so that the building seemed to throb in sympathy. Three mighty cheers followed for Captain Coghlan. Almost greater than either were the shouts of approval when President Root called for "three cheers for the men behind the guns." There was a perfect furore of excitement and enthusiasm, and as it mbsided in part some one began "The Star Spangled Banner."

Captain Coghlan was then called upon to speak. He was given an ova-tion as he rose. He accepted, and said all the good things that have been said about him and his men as being

meant for Admiral Dewey. "Every day we were with him," he added, "we learned more and more to love him and more and more to know how the country's interests were safe in his hands, and how he could do nothing but that which would redound to the country's credit. Through all those long weary months of waiting and the most outrageous nagging that anybody could suffer, wearing him to the very bone, he held himself up and he held us up with him."

Then Captain Coghlan told the following story of his admiral:

"An officer of our friend, Admiral Von Diederichs, came down one day to make a complaint. It was my pleasure to step out on the quarter deck just as he came aboard. It was partly by accident and partly by design. heard him tell the admiral about his complaint, and I heard the admiral reply:
"Tell your admiral those ships of

his must stop when I say so. I wish to make the blockade of this harbor complete. "The German officer replied: 'But we fly the flag."

"Tell your admiral I am blockading here. Now note carefully what I say, and tell your admiral that I say it. I have been making this blockade as easy for everybody as I could, but I am getting tired of the puerile work here. It has been of such a character that a man wouldn't notice it, although children might fight over it, but the time has come when it must stop. Tell your admiral that the slightest infraction of any rule will mean but one thing. That will be war. It will be so accepted and resented immediately. If your people are ready for war with the United States they can have

German said to me: 'I think your admiral does not exactly understand."

'Not only does he understand,' I told him, 'but he means what he says, and you had better look out.' "After that they did not breathe more than four times successively without asking permission."

Diseases that attack women are worse then pirates. They torture long before they kill. But women can beat them off and cut them down with Dr. Pierce's Favorite Prescription. This is a woman's remedy that has no alcohol, opium or other narcotic in it. It is the prescription of Dr. R. V. Pierce, of Buffalo, N. Y., who has devoted a long and successful life to the study and treatment of diseases peculiar to women. It overcomes irregularities, stops disagreeable drains, bearing-down pains and backache; cures female weakness and headache. It helps the girl over the difficulties encountered when she enters womanhood; makes the period preceding maternity a time of comfort; and the newborn enters the world without unnecessary pain to the mother. At the "turn of life" it is priceless to womankind. Medicine dealers sell it, and you should never permit them to substitute other medicine which they may urge upon you as "just as good."
