OUR COUNTRY; First, Last and Forever.

THE exodus of many young men from the coal region towns is causing much comment, and is to be deplored,

EDITOR JAMES, of the Ashland Local, hasn't changed his mind. He is still determined to fight for harmony in this county.

THE Philadelphia Inquirer no longer has any love for Senator Losch. It was only a short while ago when the same paper was lauding the good qualities of the Schuylkill Haven statesman.

Portsville contains many queer people, and that gives the town an unenviable reputation. Some of the residents consider the street sprinklers a nuisance and have made complaint to the Board of Health.

SENATOR HANNA has announced his preferences for President and Vice President next year. McKinley and Hobart are the men, and he adds that nothing short of an earthquake can prevent their nomination.

## The Quay Appointment.

The question of Senator Quay's admission to the United States Senate will be an open one from now until December. As the United States Senate is a law unto itself there is nothing to prevent that august body reversing itself on the question of admitting a Senator by appointment of the Governor, during the interregnum between one legislature and another.

It is quite probable that Senator Quay will obtain his seat to which he was nominated by Governor Stone, although the provision of the state constitution, that the Governor is ings of the ninth triennial internationobliged to assemble the legislature al Sunday school convention yesterday within sixty days after a vacancy were enlivened by a heated discussion occurs to elect a successor, may cause some trouble. There have been precedents both ways, and as previously stated, each Senate is the judge of its own organization and rules.

In the meantime the prospects are that a great factional fight will take place for the control of the Republican organization in Pennsylvania. and that the fight will be carried to leaving that portion of the house set the polls. Pennsylvania has a large Republican majority, but a house divided against itself cannot stand, and it is a possible thing that the fight of the factions may throw the Columbia," said Delegats Neil, "and State Treasury in the hands of the when I left home I thought I would Democratic party. There is gossip, however, that on a recent ballot eight stood for acquittal and three for first degree and one for manslaughter. There is also said to be more votes for first degree and more for acquittal than in earlier ballots. Meanwhile Mrs. George is in her cell in the jail ready to come into the court room and her her fate. Relatives and friends remain with her, and her appearance and manner indicate hope.

The naming of the nominating com-mittee precipitated the race trouble. Delegate Nell, of Washington, D. C. who had caused considerable commen apart and placarded for the negro delegates and sitting with the white people of his delegation, was introduced by a white delegate.

MURDERED FROM AMBUSH. & Peaceful Negro Who Had Alded in

Discovering Criminals.

Leesburg, Ga., April 28.—Alf Thurman, a well known negro, was shot and killed from ambush on the public road from here yesterday morning. His body was completely riddled with bullets. The cause of the tragedy is believed to have been revenge. When George Bivins, George Holt and Bill Holt, three negroes, outraged Mrs. Maroney in the presence of her hus-band in this county a few months ago. they were run down by Thurman, and it was through his efforts that they were brought to justice and later lynched. His life was threatened by friends of the dead negroes. The lynched negroes' friends had arranged to kill three prominent white men of the county who had made threats against Bivins, Holt and Fort, and were about to carry it out when Thurman heard of it and began to hunt out the scheme to prevent the murder. He scheme to prevent the murder. He had almost succeeded in completely trapping the nine conspirators, when they turned the tables and shot him to death in the road. The parties are nearly all known, and a number of arrests will be made within the next few days. This part of the county has been terrorized by a band of outlaw negroes for several years, the three who were lynched in January being the leaders. Beats the Klondike.

# FOR BLOOD POI

Beware of the Doctors'

There is not the slightest doubt that the doctors do more harm than good in treating Contagious Blood Poison; many victims of Patchwork; You Can this loathsome disease would be much better off to-day if they had never allowed themselves to be dosed on mercury and potash, the only remedies which the doctors ever give for blood poison.

Cure Yoursalf at home. only remedies which the doctors ever give for blood poison.

The doctors are wholly unable to get rid of this vile poison, and only attempt to heal up the outward appearance of the disease—the sores and eruptions. This they do by driving the poison into the system, and endeavor to keep it shut in with their constant doses of potash and mercury. The mouth and throat and other delicate parts then break out into sores, and the fight is continued indefinitely, the drugs doing the system more damage than the disease itself.

Mr. H. L. Myers, 100 Mulberry St., Newark, N. J., says: "I had spent a hundred dellars with the doctors, when I realized that they could do me no good. I had large spots all over my body, and these soon broke out into running sores, and I endured all the suffering which this vile disease produces. I decided to try S. S. S. as a last resort, and was soon greatly improved. I followed closely your 'Directions for Self-Treatment,' and the large splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I was soon cured perfectly and my skin has been as clear as glass ever since. I cured myself at home, after the doctors had failed completely."

It is valuable time thrown away to expect the doctors to cure Contagious Blood Poison, for the disease is beyond their skill. Swifts Specific—
