GEN. GOMEZ is said to be writing a plea for an American protectorate of Cuba until a stable government can be formed. There are many who be-Heve that a government of that kind necessarily implies annexation.

MR. WHARTON BARKER declares that the campaign of 1900 will not be fought on the financial issue. This is an adroit move on the part of the Populist candidate, and will bring many supporters to his standard-no matter what it may be:

THE trade papers are all outhusiastic over the business situation. They say, what every intelligent person knows to be true, that trade was never more active in the United and to get up many times during the night. Ins. Co. States than it is at this moment. The The mild and the extraordinary effect of ontlook, too, is that this activity will Increase instead of diminish.

A DEMOCRATIC paper in New England says: "We must expand our markets abroad, and that is why we want the Philippines as a distributing centre of the vast markets in the East that are developing." On expansion, as on other questions, the Democratic party is completely torn up.

Things Are Different Here.

Governor Blone is naturally the object of abuse by Democratic newspapers. That is in accordance with the eternal fitness of things. A Republican Governor cannot be expected to please the organs of a party, which did all that was possible to prevent his election.—Altoona Tribune. Our contemporary may be correct

in its conclusion, in so far as its references are confined to the Democratic press of the western part of the state, but not in this section. Schnylkill county, for instance, presents an entirely different brand of party regularity. Here we have alleged Democratic editors using their columns to defeat the regular caucus nominee, Geo. A. Jenks. While Col. Guffey and other Democratic leaders were exerting every effort and with success, to keep their lines unbroken, the Schuylkill brand of Jeffersonian Democracy, enunciated through the editorial quill in question, was sowing seeds of dissension. Fortunately for the honor of the Democratic legislators, they repudiated these interlopers, and stood loyally by their colors.

This fact has even | \$28 Chestnut street, Philadelphia. been admitted by the Wanamaker people. If the latter could have connected the Quay leaders with the bribery charges, they would have grasped the opportunity, for political effect, if for no other reason. The men who occupied expensive and luxurious rooms at the leading hotels at Harrisburg, during the entire session, were provided with the "where with" from unknown sources, and the Quay leaders themselves say they did not know who was paying the freight; that they furnished not one penny for that purpose. While the men charged may have worked in their own peculiar way for the election of Quay, with the hope of future recognition, our contemporary is wrong in charging that they were employed by the Quay leaders. Let us be just even in political matters.

Colored Bishop Declares Negroes' Mission is to Civilize Africa. Athens, Ga., May 1.—Bishop H. M. Turner, of the African M. E. church, reached at the court house here yes terday to white people. During his sermon he said he would prefer to see his people, the black race, again in slavery, since slavery afforded them more protection than in their present condition. He sees little future in this country for the negro in competition with the white race. He does not believe it possible to bring about as-similation or equality, lacking which there must continue to be race preju-dices. The negro was brought to America, he said, by divine will and taught by example the basis of a higher civilization. Now it is manifestly the will of God that the negro should go back to Africa and civilize the savage races there. The race question, he concluded, would never be settled until the black man returned to his native

Twenty-five Miles Burned Over, Carrying Death and Destruction. Coleridge, Neb., May 1.—A prarie fire burning in the hay flats along the northern tier of counties of Nebraska, ten miles from this place, passed into the track of a tornado-and was swept with the speed of the wind diagonally

across this county for 25 miles, destroying everything in its path. The only lives lost as far as known were those of Mrs. Rolla Livingston and her 5-year-old boy. The woman saw the fire coming and ran to a pasture to release the family stock. The boy fol-lowed her. Both were knocked down by the terrified animals. The fire passed over them before they could get out of the way. The body of the boy was almost consumed and Mrs. Livingston lived but a few hours.

A great many cattle were overtaken and burned. A large number of farm houses were destroyed, and the families escaped by seeking refuge beyond the track of the storm. The path of the fire was nearly one mile wide. The losses thus far known aggregate \$125,-

This Fearful Disease.

No Torture Equal to the Not much attention is often paid to the first symptoms of Eczema, but it is not long before the little redness begins to itch and burn. This is but the beginning, and will lead to suffering and torture almost unen-durable. It is a common mistake to regard a roughness and redness of the skin as

merely a local irritation; it is but an indication of a humor in the blood—of terrible Eczema—which is more than skin-deep, and can not be reached by local applications of ointments, salves, etc., applied to the surface. The disease itself, the real cause of the trouble, is in the blood, although all suffering is produced through the skin; the only way to reach the disease, therefore, is the blood.

Mr. Phil T. Jones, of Mixersville, Ind., writes:

"I had Eczema thirty years, and after a great deal of treatment my leg was so raw and sore that it gave me constant pain. It finally broke into a running sore, and began to spread and grow worse. For the past five or six years I have suffered untold agony and had given up all hope of ever being free from the disease, as I have been treated by some of the best physicians and have taken many blood medicines, all in vain. With little faith left I began to take S. S. S., and it apparently made the Eczema worse, but I knew that this was the way the remedy got rid of the poison. Continuing S. S. S., the sore healed up entirely, the skin became clear and smooth, and I was cured perfectly."
