

Miss Sadie Wertheim, age 14, of Toledo, O., was the winner of the first prize for execution on the violin at the Brussels Conservatory of music.

German critics say she is a wonderful player. It is the greatest distinction to be first in anything. For this in statement of literary, athletic, science and art, men and women put forth the greatest efforts.

Washington was the first to be first in war, first in peace and first in the arts of his countrymen. It is a great thing to be first. Nothing is of more value to mankind and brings greater happiness than a good remedy. Many things will cure but the one that will be best. Brazilian Balm is such a remedy. It is the only thing that would cure Catarrh of the Lungs. For 15 years, it has never failed to cure Asthma, and its record has been as wonderful in Catarrh. Cases that had to all appearances, run into Consumption, or where the nostrils were entirely stopped up, where the poisonous pus had eaten holes into the throat, an inch deep, or where the stomach had become ulcerated and raw from swallowing the green laden matter, were all permanently cured. Such a remedy, unknown to any other remedy, justly entitled the Brazilian Balm to the first place in the regard of the American people. There are 20,000,000 Catarrh victims and countless Asthma sufferers in this country, all of whom can be cured with Brazilian Balm. A \$1.00 bottle of Brazilian Balm contains a month's treatment for Catarrh or Asthma, and for 6 months we will wrap with each \$1.00 bottle a month's treatment of Toxicola Tablets, free. Toxicola is the best tonic and nerve and strength builder known to science. This is the greatest tonic ever made. Ask your druggist and take no substitute. B. F. JACKSON & Co., Mfg. Chemists, Indianapolis, Ind.

OUR BOYS' NEXT TASK.

They Will Clear the Filipinos Out of Bacolor.

SIX THOUSAND REBELS THERE.

They Are Well Supplied With Arms and Ammunition. But Have Never Yet Met the American Soldiers—These Troops Do No Work But Fighting.

Manila, May 8.—General Lawton's column advanced to a position two and a half miles north of Baling on Saturday. The advance met with but slight opposition. Outside of Manisa 3,000 rebels who occupied an entrenched position were routed in short order. Many corpses of rebels have been discovered in the river at San Tomas. Scores of rifles and other arms have been recovered from the river, into which they were thrown by the retreating rebels.

To clear the Filipinos out of Bacolor, about five miles southwest of San Fernando, will be the next task of the Americans. The rebel General Mascardo has a force of 6,000 men there, well armed and possessed of plenty of ammunition. His troops have never met American soldiers, and they think, according to reports carried to San Fernando, that they can "whip the whole lot."

Bacolor is well entrenched, and thousands of natives are working like beavers digging trenches and carrying the dirt in baskets. The enemy uses his riflemen for fighting only, but compels the Bolomen and Chinese, and even the women, to labor incessantly.

The rebels have an outpost about a mile beyond San Fernando, with a trench that holds between 200 and 300 men. From that point several volleys were fired Saturday night upon the camp of the Twentieth Kansas regiment.

Neither General MacArthur nor General Lawton moved yesterday, although each reconnoitered the country in his own vicinity for some miles from headquarters, developing the presence of small forces of the enemy.

In the vicinity of Laguna de Bay the rebels are extremely active, but the lines of General O'Connell and Colonel Wholley, who is commanding General King's brigade during the latter's illness, have been materially strengthened, and there is no danger in that direction.

The American steamers Laguna de Bay and Cavendish, under Captain Gray, have gone to Guagua, about five miles southwest of Bacolor, presumably to establish a base of supply for the troops engaged in the northern campaign.

It is rumored that Mabini, president of the cabinet and minister of foreign affairs in the so-called Filipino government, who is a Radical, is to be succeeded by Paterno, the framer of the Spanish treaty of 1896. This change is regarded as significant at the present juncture.

The entrance of the Americans into San Fernando was virtually unopposed. The Filipinos, who expected the invaders to approach from the sea, had that side of the town strongly guarded, but there was only one line of trenches beyond San Tomas. The divisions of the Fifty-first Iowa regiment, which swam the river north of the city, were smartly peppered while in the water, but the rebels disappeared as soon as the Americans reached the shore. In the meantime the hospital squad had properly buried the bodies of the city, supposing the Americans were there. They encountered no natives.

The few Spaniards and Filipinos who were left welcomed the Americans and opened their houses to them. General MacArthur accepting enthusiastic homage from the hands of Senor Hizon, a sugar magnate.

If the inhabitants of the San Fernando region are to be believed there is little sympathy with the insurrection in that quarter. Before evacuating the city the rebels burned the churches and the public buildings and looted the Chinese quarter. They drove many rich Filipinos, with their families, out of the city before them, as well as hundreds of Chinese, to prevent them helping the Americans. They cut the throats of some. Many Chinese, who were left behind in cellars, and some on the roof tops, are still thriving, but were saved by cutting off their queues. There are 50 fresh graves in the church yard.

The country beyond Calumpit is full of all sorts of ingenious trenches and pitfalls in the roads, with sharpened bamboo. Fortunately the Americans escaped the latter.

In the swamps near San Tomas, where General Wheaton's troops did their hardest fighting, the men sinking to their waists in mud, are many bodies of Filipinos, smelling horribly. The army is resting enjoying life at San Fernando, which is the most picturesque and wealthy town the Americans have entered since the occupation of Manila. It is largely built of stone, the river is close at hand, and high hills almost surround it. Many sugar factories indicate a thriving industry in that respect, and there are numerous fine residences. General MacArthur's permanent headquarters is established in the best house in the town, which is richly decorated with frescoes and carved woods.

After Bacolor has been cleared water communication with Manila may be established.

Catarrh Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surface. Hall's Catarrh Cure is not a quick medicine. It is a specifically prepared medicine, acting directly on the mucous surface. The perfect combination of the two ingredients is what produces the wonderful results in curing Catarrh. THE WOMAN WHO COUGHED

A Wreck From Grippe, Catarrh and Asthma.

RESTORED WITH BRAZILIAN BALM

I was known as "The Woman who Coughs," for I coughed incessantly. I was a school teacher till my health failed. Catarrh had eaten away the partition in my nose. It had produced Bronchitis, Asthma, dreadful Stomach troubles and weak kidneys. In fact it had gone all through my system, making me an easy victim for the Grippe which left me a wreck in mind and body. This was the condition the doctors left me in, after dosing me with opium, quinine, etc. Then I bought cough cures without end but they only made me worse. I was in despair till I got hold of Brazilian Balm and Toxicola Tablets. They acted like magic from the first, and in a few weeks I was cured and better than I had been in years. Talk about wonderful remedies, Brazilian Balm and Toxicola saved my life.

THE DEADLY GASOLINE STOVE.

Harrisburg, May 8.—Joseph Knoll, aged 60 years, a restaurant keeper, residing on Fourth street, was seriously and probably fatally burned yesterday by the explosion of a gasoline stove.

Does This Strike You?

Muddy complexion, nauseating breath, come from chronic constipation. Karl's Clover Root Tea is an absolute cure and has been used for fifty years on an absolute guarantee. Price 25c and 50c. Sold by P. D. Kirlin and a guarantee.

A Remarkable Cure.

Mr. Alexander Moore, a reliable business man, of 1230 S. 13th St., Philadelphia, Pa., says: "I contracted a violent pain in my chest and side was excruciating. The doctor gave me medicine and blistered my side, but I only grew worse. Then you gave me a bottle of Brazilian Balm. I had little or no faith in it, but decided to try it. I took 3 or 4 good doses before bed time, and rubbed it well over my blistered side. That night I slept like a top—my first good rest for over a week—and awoke in the morning cured. Brazilian Balm is simply invaluable."

THE BUFFALO STRIKERS.

Urging a Bishop to Assist in Ending the Contest.

CONTRACTOR IMPORTING MEN.

The First Lot Engaged in New York. However, Deserted Its Route and After Arrival—Claimed That They Were Deceived.

Buffalo, May 8.—President Johnson, of the state board of mediation and arbitration; H. D. Goulder, of Cleveland, attorney for the Lake Carriers' association, and Mr. Douglas, representing the Western Elevating association, called on Bishop Quigley, of the Catholic diocese of Buffalo, yesterday and asked him to endeavor to induce the grain shovellers to accept the proposition made by Contractor Conners.

The result of the conference could not be ascertained. It is understood, however, that Bishop Quigley requested time for consideration and consultation with the priests in whose parishes the trouble is centered. The fact that Mr. Goulder intends to remain over in Buffalo until tonight is believed to indicate that Bishop Quigley will make known his answer some time today. Nearly all of the grain shovellers are Irishmen, and attend the Catholic church. It is thought, therefore, that a suggestion coming from the bishop would carry with it great weight.

The monthly men at the elevators held a big meeting yesterday afternoon. Resolutions were adopted expressing sympathy with the cause of the grain shovellers, and it was unanimously voted that whenever there are signs of growing strength on the part of Contractor Conners a strike will be declared. The monthly men thought it would be best to stick to their elevators so long as Mr. Conners is unable to obtain a sufficient number of shovellers to unload the grain.

A delegation from the grain shovellers union was present at the meeting.

Contractor Conners is beginning to import men from other cities to take the place of the striking grain shovellers. One of his boss shovellers, Peter Dalton, has opened headquarters in a room at 46 Bowery, New York, and is hiring men to work on the docks here. Dalton started 150 men for Buffalo at midnight Saturday. One hundred and seven deserted at the ferry landing in New York. The rest were put aboard a Delaware, Lackawanna and Western train. On the way to Buffalo a stop was made and the men were given 25 cents each for breakfast. Only 29 of the 42 came back to the train. When the train reached Buffalo a delegation of strikers, who had received notice of the coming of the New Yorkers, appeared at the depot and enticed all but 15 of the newcomers away. The 15 who stuck were taken to the Marine elevator in a bus guarded by two patrol wagons full of police. No attempt was made to molest them.

Last night a delegation of grain shovellers waited on the superintendent of police, the mayor and the superintendent of the poor for the purpose of having the New Yorkers sent home at the expense of the city. Last night they were lodged in the grain shovellers' hall. They claim that the situation here was misrepresented to them, and they have sent a telegram to their friends on the Bowery warning them to keep away from Buffalo.

The situation along the water front remains unchanged. Only seven elevators were working yesterday. It is estimated that when the big Duluth fleet, which began to arrive this morning, is in it will take several weeks, with a full force of shovellers, to clear the harbor and catch up on the work.

Late last night it was given out that the grain shovellers will present an ultimatum to the Lake Carriers' association today. The substance of the ultimatum will be that if the strike is not ended this week the "longshoremen all along the chain of lakes will be ordered out, and that the entire lake traffic will be held up, and that for every week hereafter that Mr. Conners holds the contract the grain shovellers' union will add 50 cents to the contract price. The union is willing now to take the contract for \$2 flat per thousand bushels.

President Keefe, secretary of the International Longshoremen's association, came here yesterday. The impression that the association would not support the striking grain shovellers' union was dispelled by President Keefe. Mr. Keefe said:

"The only way by which the trouble can be ended is by the abrogation of the contract which Mr. Conners holds. The Lake Carriers' association cannot hope to bring about a compromise. The old union, whose officers are now working for Mr. Conners, has ceased to be recognized by the longshoremen's association. The new union has taken its place."

A Clever Trick

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to the liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters, and you will be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c. a bottle at A. Waesley's drug store.

PORTO RICO'S ADVANTAGES.

Opportunities For Those Who Would Engage in Agriculture.

Washington, May 8.—Owing to the large number of inquiries that have been received by the members of the Insular commission since their recent return from Porto Rico General Robert P. Kennedy has prepared a statement as to resources and conditions in Porto Rico, in which he says:

"There can scarcely be found upon the globe a more hospitable and warm hearted people than those of Porto Rico. They are in sympathy with American institutions. There is a great deal of poverty in the island, as it is understood in the United States. That is, the people live in flimsily constructed huts, have a few clothes and still less of ready money, but owing to the beauty of nature around them they can live with little work and few worldly goods and still not suffer from either cold or hunger. The stories of starvation upon the island are baseless fabrications.

"Not one-fourth of the lands in the island are now under cultivation, and thousands of acres remain to be given over to husbandry. Lands are held at good prices, owing to the promise of an influx of people from the United States. Still there is opportunity for many thousands of persons who really wish to engage in agriculture on the island. That there are great opportunities in Porto Rico is unquestionable. But I would discourage the simple adventurer who expects to reap a quick and unearned reward.

"The opportunities for stock raising, it appears to me, are superior to those in almost any part of the United States, and this without disparagement of our own cattle country.

"The climate of the island, in my experience and from what I can gather of it from records, official and otherwise, is all that could be desired for the densely populated city of San Juan is a remarkably healthy place."

OUR BEARDED LADY.

Designing men, through alluring and cunningly contrived advertisements, constantly endeavor to work upon the feelings of sick and ailing women by inviting them "to write to a woman" and secure a woman's sympathy. It is very easy to do this, and the best sympathy is to be had at home and not from strangers, perhaps hundreds of miles distant. The object of the sick is to get well, and however good the sympathy may be, it never cures a seriously afflicted woman. While the sympathy of your milliner or dressmaker might be appreciated and be just as beneficial, if not more so, than sympathy from a stranger, yet it can not effect your cure if you are an ailing woman.

It is long-provailing through the press that "a woman can best understand a woman's ailments," and on this ground sick women are invited to "write to a woman" and get the benefit of a woman's advice. The sort of "understanding of her ailments" wanted by a sick woman is a trained medical understanding. If a woman has this trained medical understanding, she is a physician, and she is not a doctor she cannot treat them successfully, because she lacks the necessary training.

As far as known, there is no regularly qualified woman physician connected with any proprietary medicine especially designed for women—no one, therefore, qualified by learning and experience, to advise on questions of disease and its cure.

It is certain that there is no one, man or woman, connected with any "put-up" medicine, for women, excepting only Dr. Pierce's Favorite Prescription, who is Dr. Pierce, a regular graduated and qualified physician, and who has, like him, devoted his life to the study of the study and treatment of diseases of women.

For more than thirty years Dr. R. V. Pierce, a regularly graduated doctor, has been the consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. On his staff are nearly a dozen well known and successful men, each of whom is a specialist in his chosen class of diseases. Every letter addressed to Dr. Pierce as above, promptly, conscientious attention is regarded as sacredly confidential and is answered in a plain envelope so your private affairs are kept safe from prying eyes.
