OUR COUNTRY: First, Last and Forever.

IT CAN'T BE DONE.

No One Can Remain Well, No Chronic Disease Can be Cured Unless the Stomach is First Made Strong and Vigorous.

This is plain because every organ in the body depends on the stomach for its nourishment. Nerve, bone, sinew, blood are made from the food which the stomach converts to our use.

How useless to treat disease with this, that and the other remedy and neglect the most important of all, the stomach.

The earliest symptoms of indigestion are sour risings, bad taste in the mouth, gas in stomach and bowels, palpitation, all kinds of feeling, faintness, headaches, constipation; later comes loss of flesh, consumption, liver and heart troubles, kidney diseases, nervous prostration, all of which are the indirect result of poor nutrition.

Any person suffering from indigestion should make it a practice to take after each meal one of Sturt's Dyspepsia Tablets, allowing it to dissolve in the mouth and thus mingle with the saliva and enter the stomach in the most natural way. These Tablets are highly recommended by Dr. Jeannin because they are composed of the natural digestive acids and fruit essences which assist the stomach in digesting all wholesome food before it has time to ferment and sour.

A WAIL FROM SPAIN.

Spanish Troops in the Philippines Ordered to Return Home.

Madrid, May 15.—Senator Don Francisco Silvela, the Spanish premier, in an interview regarding the attack by the Filipinos upon the Spanish garrison at Zamboanga, Island of Mindanao, in which two Spanish officers and three men were wounded and one man was killed, said:

"It is very painful to us to have suffered these losses in a territory that does not belong to us. We left these troops in the Philippines in the hope that they might aid in securing the release of the Spanish prisoners in the hands of the Filipinos. Our efforts in this direction have been fruitless. Aguinado refuses to treat with us, and a Frenchman (M. Dumarat), who had offered on our behalf to treat with the enemy, was killed by them.

"America has not yet succeeded, as she has no more authority than we have. We cannot leave troops any longer in a territory that we are not obliged to defend, and I have telegraphed General Rios to use three steamers for the immediate transportation of our troops from Zamboanga and Yolo, and to acquaint Major General Otis with those instructions, so that the American commander may possess the territories we are abandoning."

The Filipino committee has issued a manifesto to the press declaring that the "Filipino government" will reject all negotiations for peace on the part of the Americans based upon any scheme of autonomy, and will demand that the United States fulfill the engagement made before the declaration of war with Spain. The manifesto denies that General Antonio Luna has surrendered, and asserts that Major General Lawton is routed and that the hospitals are "filled with Americans," hundreds of whom are insubordinate.

What Shall We Do.

A serious and dangerous disease prevails in this country, dangerous because so deceptive. It comes on so slowly yet surely that it is often firmly seated before we are aware of it. The name of this disease which may be divided into three distinct stages is, First, Kidney trouble, indicated by pain in the back, rheumatism, lumbago, frequent desire to urinate often with a burning sensation, the flow of urine being copious or scant with strong odor.

If allowed to advance, this reaches the second stage, or bladder trouble, with heavy pain in the abdomen low down between the navel and the water passage, increasing desire to urinate, with scalding sensation in passing, small quantities being passed with difficulty, sometimes necessary to draw it with instruments. If uric acid or gravel has formed, it will prove dangerous if neglected.

The third stage is Bright's Disease. There is comfort in knowing that Dr. Kilmer, the great kidney and bladder specialist, has discovered a Remedy famous for its marvelous cures of the most distressing cases and known as Dr. Kilmer's Swamp-Root. It is sold by all druggists.

As a proof of the wonderful virtues of this great discovery, Swamp-Root, a sample bottle and book of valuable information will be sent absolutely free by mail on application to Dr. Kilmer & Co., Binghamton, N. Y. When writing kindly mention that you read this liberal offer in the Shenandoah HERALD.

Mrs. Pinkham's Medicine Made a New Woman of Mrs. Kuhn.

(LETTER TO MRS. PINKHAM NO. 5409)

"DEAR MRS. PINKHAM—I think it is my duty to write to you expressing my sincere gratitude for the wonderful relief I have experienced by the use of Lydia E. Pinkham's Vegetable Compound. I tried different doctors, also different kinds of medicine. I would feel better at times, then would be as bad as ever.

"For eight years I was a great sufferer. I had falling of the womb and was in such misery at my monthly periods I could not work but a little before I would have to lie down. Your medicine has made a new woman of me. I can now work all day and not get tired. I thank you for what you have done for me. I shall always praise your medicine to all suffering women."

—Mrs. E. E. KUHNS, GERMANS, OHIO.

"I have taken eight bottles of Lydia E. Pinkham's Vegetable Compound and used two packages of your Sensitive Wash, also some of the Liver Pills, and I can say that your remedies will do all that you claim for them. Before taking your remedies I was very bad with womb trouble, was nervous, had no ambition, could not sleep, and my food seemed to do me no good. Now I am well, and your medicine has cured me. I will gladly recommend your medicine to every one wherever I go."

—Mrs. M. L. SHEARS, GUN MARCH, MICH.

Schooner and Nine Lives Lost. Sault Ste. Marie, Mich., May 15.—The schooner Nelson, deeply laden with a cargo of coal, foundered in Lake Superior, on Monday, Saturday evening and carried down all hands. So far as known here no one escaped from this, the first disaster of the season, except the captain. The crew consisted of the following: Captain Andrew Hagarty of Toledo, the captain's wife and three old children; Fred Haas, sailor, residence unknown; six sailors, names unknown. The Nelson was in tow of the steamer A. Folson, which also had the schooner Mary B. Mitchell as a consort. The towline broke and the Nelson sunk in 300 feet of water.

Girls Object to Overwork. Trenton, May 15.—Twenty girls employed in the Roebeling Wire works have been discharged for refusing to work overtime in the evenings. The girls appealed to Mr. Charles G. Roebeling from the action of the foreman, Lewis Snow, who discharged them. Mr. Roebeling declined to interfere. The girls threaten to bring the matter to the attention of the state factory inspectors, claiming that working overtime is contrary to law. Mr. Roebeling claims that the overtime was an emergency and was unavoidable.

SOME INNS IN ASIA. A Description of the Queer Institutions Found in China.

The Inns are the Inns of the east—the Inns that prevail everywhere in Asia, though the average tourist does not see them. They are the queerest and most curious of all. Turning sharp off the main street of the town and passing through a gateway in a mud wall you find yourself in a courtyard. One side is occupied by several rooms, each with a bed, and at each end of each room a table and a stool. The tables are a matted dais raised about two feet high. But under the dais is a two-place of brick. On the dais is a small table standing about six inches high.

At every Chinese Inn we stopped at boiling water was brought as soon as we were seated, in order that we might refresh ourselves with tea, which we were supposed to have with us, and if we had no tea we were supplied with it. The water was promptly supplied, and afterward paid for by our servant when he settled the bill. For that purpose the payments were all in copper cash, each being of the value of a half penny.

All the rooms and buildings were built between Peking and Kalgin were built of beaten mud. The stables and the managers were of the same material. Wood, which is dear, was only in use for doorways and window frames. The latter were latticed, and the lattices were in part blank and in part papered over. As the weather got colder more and more of the lattices would be papered up, until in winter fresh air would be practically excluded. My custom was to examine the window frames, and if I thought there was not enough air space I made as much noise as I thought fit by poking holes in the paper with my walking stick. No objection was made, for paper is cheap—Arms held in Chicago Record.

FOREIGN CLAIMS IN CUBA

Will be Presented to Our Government by England, France and Germany, Washington, May 15.—The state department has been informally advised that claims aggregating a considerable amount have been made by British, French and German residents in Cuba during the recent insurrection, and that these ultimately will be presented against the United States government. The French claims aggregate between 12,000,000 and 15,000,000 francs. The German claims are understood to be slightly under those of the French, while the British claims are said to be considerably more than either the French or German.

These foreign claims are quite distinct from those of citizens of the United States, originally against Spain, for damages sustained in Cuba during the insurrection. The peace treaty specially provided for these American claimants, releasing Spain and stating that the United States would make such settlement as was proper. Under this clause claims aggregating several millions have been filed. No provision, however, was made by the treaty for foreign claimants, and there appears to be much doubt as to who is liable, since the sovereignty over Cuba has passed out of the hands of Spain. The United States having undertaken to look after the American claimants, the foreigners are desirous of being treated in the same manner. It is appreciated in the foreign establishments here that payments will be largely a matter of discretion with the United States.

He was found unconscious by two policemen, and died in a few minutes without making a statement. Reitz was the father of the well known baseballist.

BUFFALO'S GRAIN STRIKE ENDED.

But the Tie Up at the Coal and Ore Docks Threatens Trouble. Buffalo, May 15.—The grain shovellers returned to work this morning under the agreement reached at 1 o'clock yesterday morning at the conference between the lake carriers, elevator men and grain shovellers. The terms of the agreement were reduced to writing and properly signed last night at the residence of Bishop Quigley.

The agreement provides that the grain shovellers shall receive \$1.55 per 1,000 bushels; that the contractor shall not receive high man's pay; that a superintendent shall be appointed by the bishop to guard the interests of the men; that a local board of arbitrators shall be appointed to pass upon all grievances which may arise in the future, and that 14 of Contractor Conners' boss scoopers shall be suspended pending an investigation into the charges made by the grain shovellers that they are identical with salient interests or otherwise objectionable.

Some little trouble is anticipated as a result of the refusal of Mr. Conners to discharge the men who took the places of the strikers. President McMahon, of the grain shovellers' union, said that a good many of the new men would be received into the union, but that some would be rejected. It is believed on all sides, however, that no serious trouble will result.

There are about 3,000 bushels of grain piled here now. By the middle of the week it is expected, every bushel in the harbor will be cleared and future shipments of grain will be handled expeditiously.
