**A Final Settlement at Pann.**  
Pann, Ill., May 20.—As a result of a meeting of coal mine operators with the state board of arbitration and the United Mine Workers' officials an agreement was signed last evening formally settling the long drawn out strike here between union miners and operators. The agreement gives the union recognition and declares that all negroes shall leave the city, and only union men be employed. National President John Mitchell said today that all was arranged satisfactorily to both factions, and this was affirmed by W. Secretary-Treasurer W. D. Ryan, of the State United Mine Workers' union, and Banker H. M. Schuyler, who is the controlling power with the operators.

**Threatened Strike Did Not Materialize**  
Hazleton, Pa., May 20.—No attempt was made yesterday by the United Mine Workers to enforce the order recently given out by President Duffy that the union would not work with non-union men at the Audenried and Honeybrook collieries of the Lehigh and Wilkesbarre Coal company on an 11 after May 19. The order of President Duffy, issued about two weeks ago, was followed by a notice served by the company that a permanent suspension of work in the mines would be ordered if the men struck.

**Atlantic City, N. J., May 20.**—Captain Charles Foster, of the sloop yacht J. Willard Morgan, reports having passed through a lot of wreckage off the coast of South Atlantic yesterday. He also saw considerable wreckage near the same point on Thursday, but not in as large quantities as yesterday. By the character of the wreckage it is thought it came from a steamer. A flat bottom yawl boat was picked up by one of the inlet captains a few days ago. The wreckage is believed to indicate a collision in this vicinity.

**The Steamer Barbarossa Fire.**  
New York, May 20.—What the passengers and crew on the North German Lloyd steamer Barbarossa escaped on Thursday, when the ship was on fire, was fully revealed yesterday, when her hold was opened. The interior was seen to be smoked and charred and water-soaked. Hundreds of trunks and pieces of baggage, belonging principally to second class passengers and those in the steerage, had been thoroughly drenched. A glance showed plainly the good work that had been done by the fire hose and the great danger the passengers had escaped. It is probable the advertisement of the Barbarossa on Thursday will cost the North German Lloyd company fully \$175,000, if not more.

**COAL MARKET QUIET.**

Enough Coal and to Spare Even Under Restrictive Methods.  
Anthracite coal trade may be set down as quiet; there is no great demand at this time of year and the conditions this season are not such as to make trade any different from any other year, says this week's Coal Trade Journal. There is coal enough and to spare, even under the restrictive methods, and no one is complaining of inability to get what is needed, and the talk of higher prices later on does not inspire the movement of coal beyond present needs. There is some stocking up of coal by the producer for future needs, but this is not a feature which leads to the market being possessed of activity in any commercial sense. We need not remind the reader that there is likely to be a good fall demand for coal, as against last season's conditions, when there was an indifference thereto because of supplies having been laid in earlier. At the same time no one expects that prices will be crushed up to anything like high prices, for that is a condition no longer possible to the anthracite trade. If the producer realizes the averages of two years ago, and can market 45,000,000 tons thereof, it will be doing well.  
Soft coal is in demand in all parts of the country, for the reason that the industries are in more active work than they were, and the transportation lines are very busy. It seems difficult to get prices up, however, for there is such an immense quantity available in all directions that competition is keen and the producer is down to a basis of a few cents above the actual cost of mining.

**Not Swift Enough.**  
William Swift, of Mt. Carmel, failed to appear at the last term of the Sanbury court to answer a charge of robbing his sister's home at Shamokin. On Thursday he was arrested on a bench warrant. While being taken to Sanbury and when on the outskirts of Mt. Carmel he jumped from the train, which was running at good speed. Swift regained his feet and ran off. The officers, who had also jumped from the train, gave chase into Mt. Carmel. Swift was found exhausted under a porch. He refused to come out and one of the constables secured a rope and crawled in after the man. He placed a rope about the fellow's body and gave the long end to his companion who soon dragged the fellow out of his hiding place. He was then taken to the county jail handcuffed.

**Paine's Celery Compound  
Makes Weak Women Strong.**

What Mrs. Lucy A. Heiser, a trained nurse of eight years' experience and a graduate of the Homeopathic Hospital of Minneapolis, Minn., here says of Paine's celery compound vitally concerns every suffering woman:

"I am glad to testify to the merits of Paine's celery compound especially as a tonic in cases of convalescence. I have noticed very satisfactory results with patients under my care when Paine's celery compound was prescribed."

The above endorsement is corroborated by the experience of Mrs. Haselton:

"We have been using your Paine's celery compound in the Nazarene Home for some months, and it is with great pleasure that I can say that our aged people have invariably been benefited by its use. I have been using it myself, as has also my niece, and there has been a marked improvement in our health. I was very much run-down after the winter's hard work, but am feeling very much better. I have recommended it to a number of friends outside of the Home, and they, too, have been greatly pleased with the results. We shall never be without it in the Home." Mrs. M. A. Haselton, Manager Nazarene Home, 3038-2034 Columbia Ave., Philadelphia, Pa.

Mrs. Chandler, President of the Society for the Promotion of Health, Chicago, Ill., says: "Too constant application to work has at times caused sick and nervous headaches, very persistent and painful. At such times Paine's celery compound has afforded me quick relief, and I know of nothing that will take its place." Lucinda B. Chandler.
