OUR COUNTRY: First, Last and Forever.

In Shenandoah the best advertising proposition is the HERALD. It goes into the homes of the buyers.

POTTSVILLE has had its circus day, and thousands of dollars were to-day carried out of Schuylkill county as a result.

MORE than two years of President McKinley's term have passed and still the cover of civil service reform has not been lifted. A perusal of the Blue Book, with its long list of Democrats still in office, is enough to jar the average Schuylkill county patriot.

UNDER a recent act of the legislature the judge, sheriff and county commissioners constitute a board which has authority to put prisoners in the county jails at work on the streets and roads and use them at any work which can be done without the aid of machinery. All labor done by the prisoners is required to be manual labor.

JUDGE McCLURE, of Union county, has decided that Town Councils cannot discriminate in levying tax upon polls. The borough of Athens adopted an ordinance taxing telephone poles and exempted electric light and trolley poles, and when the borough attempted to collect the tax in court, the Judge directed a verdict for the defendant.

JUDGE BECHTEL, should he receive the Democratic nomination for Supreme Court, would receive a large complimentary vote in Schuylkill, notwithstanding a nomination at this time is equivalent to an election, as the minority party must be represented. Chairman Meyer would add another feather to his already brilliant plume should he succeed in landing the Schuylkill candidate.

DURING the day, says Edward B. Warner, in the June Ladies' Home Journal, every one should take a few minutes' sleep, preferably directly after the noon meal. The time given to it may seem too pretentious for one in business, but it will be more than compensated for by the mental and bodily condition that follows. Sit in an easy chair. Lying down directly after a meal crowds the digestive organs and makes one's sleep restless instead of restful.

Quay and the Senate. There are now rumors to the effect that former Senator Quay, who was named by Governor Stone to succeed himself in the United States Senate, may not formally request that body to recognize him as one of its members when Congress convenes in December next. The conditions leading up to this situation are somewhat peculiar, and the policy that will be pursued by Mr. Quay is dependent upon contemplated legislation that, if enacted, would entirely change the phase of present affairs.

Senator Lodge, of Massachusetts, has announced his intention of introducing an act providing that members of the United States Senate shall be elected by a plurality of votes of the state legislatures. The present method of conducting senatorial elections requires that a majority of the legislature is necessary to elect a member of the United States Senate. The passage of this act would entirely change the existing conditions, and had it been in force during the recent contest Mr. Quay would have been elected his own successor, as he was the leading candidate by a plurality of about twenty-five votes. The plan, as now outlined by Quay and his friends, is to await the action of the Senate and lower house of Congress upon Senator Lodge's bill. Should it meet with the approval of both houses and become a law, the next move is easy of conjecture. Quay having a plurality of the legislature, the latter would be reconvened by Governor Stone and the Beaver county man re-elected to succeed himself without any difficulty.

LETTER TO MRS. PINKHAM BY MRS. BARNARD.
"DEAR FRIEND—I feel it my duty to express my gratitude and thanks to you for what your medicine has done for me. I was very miserable and losing flesh very fast, had bladder trouble, fluttering pains about the heart and would get so dizzy and suffered with painful menstruation. I was reading in a paper about Lydia E. Pinkham's Vegetable Compound, so I wrote to you and after taking two bottles I felt like a new person. Your Vegetable Compound has entirely cured me and I cannot praise it enough."—MRS. J. O. BARNARD, MILLTOWN, WASHINGTON CO., MD.

An Iowa Woman's Convincing Statement.
"I tried three doctors, and the last one said nothing but an operation would help me. My trouble was profuse flowing; sometimes I would think I would flow to death. I was so weak that the least work would tire me. Reading of so many being cured by your medicine, I made up my mind to write to you for advice, and I am so glad that I did. I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and followed your directions, and an new well and strong. I shall recommend your medicine to all, for it saved my life."—Miss A. P., Box 21 Abbott, Iowa.

Griffin's Lawless "Labor Union Band" Griffin, Ga., May 25.—The Griffin Rifles, the military company ordered out Wednesday night by the governor, is still on duty. It is learned that the "labor union band" had armed men watching the sentinels all night from ambush, and a single shot would have been followed by a fusillade. The negro population of South Griffin is fast thinning out. More than a dozen families left yesterday in response to warnings. Many influential white men have also received notice that they will be "dealt with" if they continue to desert the negroes. The law abiding citizens promise to make it a fight to the finish if the whites do not quickly give way to law and order.

TRIPLE LYNCHING IN TEXAS. Father and Two Sons Hanged For Aiding a Fugitive Murderer. Houston, Tex., May 26.—Three white men, James Humphries and his two sons, were lynched Wednesday night near the village of Aley, in Henderson county, a remote neighborhood devoid of telephone, telephone or railway connections and about 75 miles southwest of Dallas. The Humphries were farmers. Several months ago Constable Melton, of the Aley precinct, was murdered by a man who had committed crime and whom he was attempting to arrest. The people searched the country thoroughly, but failed to apprehend the murderer. The Humphries were known to have been on friendly terms with the fugitive and were suspected of having aided him to escape. A few days ago the murderer of Melton was seen in the neighborhood and arrangements to effect his capture were made. The Humphries became aware of this and are accused of having harbored the murderer and of assisting him in making his final escape.

Wednesday night a mob of about 15 masked men appeared at the Humphries' home and called the father and two sons out. They permitted them to see the women of the family, whom they informed in a spirit of civility that the men were to be taken to Malakoff, a few miles distant, before a justice of the peace and perhaps to the county jail at Athens. When morning arrived the woman sent a courier to Malakoff to learn what had been done with the men. The messengers were told that the Humphries had not been through there. The women then gave the alarm and a searching party was quickly organized, the timber in the vicinity being searched. About noon a party of searchers came upon the bodies of the three men hanging from a limb of a large oak tree, about three miles from the Humphries' farm.

Distracting Fire at St. John. St. John, N. B., May 26.—John that broke out in a building adjoining the general warehouse of the St. John, Main street, North End, yesterday afternoon, did enormous damage. A leading underwriter estimates the loss at \$500,000 and the insurance at \$300,000. For several hours the fire's progress was unchecked. Insufficient water supply, a long term of dry weather and a brisk gale contributed to cause a conflagration which for a time threatened annihilation to the wooden district where it originated. Late last night, however, the fire died out. The district ravaged by the fire was composed largely of tenement houses, and probably 1,000 persons are homeless, a majority of them laboring people. Two deaths are to be set down to the fire. A Miss Cunard, an aged lady, residing on Holly street, was burned in her house, and Mrs. Mowery, who resided a short distance from the scene, died from shock.

A Card. We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Deane's Warranted Syrup of Tar if it fails to cure your cough or cold. TERRIBLE MISSOURI TRAGEDY.

J. E. Moss Murdered His Wife, Three Children and Himself. Joplin, Mo., May 26.—In and near a tent in the southeastern part of town yesterday were found the partly decomposed bodies of J. E. Moss, his wife, an infant child, and the body of a boy 9. The heads of all save Moss had been smashed with a hammer. He had a bullet hole in his head, and still clasped a revolver. He had apparently killed his family, then committed suicide. The motive is a mystery.

The tragedy is believed to have occurred on Tuesday night, while the family were asleep. The woman was in a night dress and had evidently been killed before she could make resistance. The girl lay on a cot near her mother, the boy was stretched across two chairs and the body of the father and husband, partly undressed, sprawled on the ground. The infant, his head severed from the body, was found outside the tent, where the dogs had dragged it.

Moss had made his living scraping over the abandoned bodies of the tent, furniture and clothes of the family indicated that he had prospered. The family came here two months ago and had formerly lived at Butler and Nevada, Mo.

Washington's Jubilee Ended. Historical Parade Reviewed by the President and His Cabinet. Washington, May 26.—A grand historical parade, followed by patriotic addresses, was the chief feature of the last day of the national peace jubilee in this city. The pageant was allegorical and historical, and typified the great historic epochs in our country, from Columbus at the court of Spain and the discovery of America down to the victory which crowned the arms in the war with Spain. Beside the floats, which were on an elaborate scale, there were companies of soldiers uniformed according to the periods, costumed cavaliers and old cannon used in the revolutionary war, the war of 1812 and the Mexican and Civil wars. Perry's victory on Lake Erie and Washington crossing the Delaware were represented on floats. A float representing the reunion of the blue and the gray, upon which were Union and Confederate officers fraternizing, created great enthusiasm. President McKinley and his cabinet reviewed the parade.

WASHINGTON'S JUBILEE ENDED.

The addresses from the reviewing stand in the court of honor followed. Senator Thurston, of Nebraska, presided and speeches were made by Senator Cullom, of Illinois, ex-Secretary of the Navy Herbert, of Alabama, and Hon. Webster Davis, of Missouri. The jubilee closed last night with masked revelries at Convention hall and a display of fireworks.

McGiffert Tense Referred to New York. Minneapolis, Minn., May 26.—In the hands of the Presbytery of New York is the fate of Rev. Arthur C. McGiffert, professor of Church History in Union Theological seminary, New York. At the general assembly of the Presbyterian church steered clear, as it hopes, of the rocks of another heresy trial when it voted yesterday afternoon, after a tumultuous and sometimes personal debate, to refer the whole matter to the presbytery of New York for such action as in its judgment, the peace of the church and the purity of the doctrine may require.

Denver's Welcome to Schley. Denver, Colo., May 26.—Probably 20,000 people greeted Admiral Schley at the public reception given at the state house last evening. For an hour and a half the admiral shook the hands of his admirers, although former experiences at Omaha and elsewhere had almost crippled his right hand. Admiral Schley briefly addressed the crowd, thanking them for the compliment of their presence, and the hearty welcome he had received. While the reception at the state house was in progress Mrs. Charles S. Thomas entertained Mrs. Schley at a select reception at her home.

The cruiser Philadelphia will leave Apia so as to reach San Francisco about June 25.
