OUR COUNTRY: First, Last and Forever.
THERE are indications that the Hon. Thomas Platt doesn't own a Governor.

This is the time of year when a woman spends a lot of money on new furniture and carpets and imagines that she has been house-cleaning.

If the Bell Telephone Co. desires a monopoly in this town, they should give the borough some return—five per cent of their gross receipts, for instance.

ANALOGICAL as it may seem, some of the people who are loudest in condemning the bad condition of Coal street, are unwilling to abate the nuisance. Why is this thusly?

It is generally acknowledged that the condition of Coal street cannot be improved so long as the electric railway occupies the greater portion of it. Then why not remove the tracks?

EXPERIMENTS in wireless telegraphy prove that moving craft at sea can communicate with each other at a distance. Ships that pass in the night hereafter may at least exchange compliments.

It is not pertinent to the subject what the Schuylkill Traction Company wants, but the people of Shenandoah would welcome the removal of the railway tracks from Coal street. That thoroughfare is entirely too narrow.

INDICATIONS point to the defeat of the ordinance presented to the Borough Council by the Keystone Telephone Co. The ordinance is the subject of way in this town. The public, who are now compelled to pay exorbitant rates for telephone service, are anxiously awaiting the action of our Borough Fathers.

TRUSTS fear the Republican party far more than the Democratic. The incompetency of the latter to accomplish any reform is a matter of history. The Democrats held the presidency for eight years, and during all that time they did nothing against monopolies. The Democratic party is in favor of reform—when out of power.

THE advertisements in the daily newspapers form an interesting part of the paper as anything else in it. It has become part of the news of the day. People look for it, expect it, read it. To many it is really more important than any other department in the paper. Many an hour of time and worry it saves the good housewife. Only she can appreciate its importance.

THE great reform wave is felt in all portions of the globe. If anything in addition to the Ozar's call for a world's great peace convention were needed to convince us that Russia's monarch is touched with the genuine spirit of reform, his call for a meeting to discuss the question of abolishing the transportation of convicts to the Siberian mines should be sufficient evidence that he is sincere in his efforts to promote the welfare of his people and his race.

THE contest for state delegates to the Republican state convention, so far as Schuylkill county is concerned, will practically be one-sided. The friends of Senator Quay are likely to elect a full delegation. The "antis" will probably put up no opposition. They realize the conditions that confront them, and the further fact that the Quaysites will control the next state convention by a large majority. There may, however, be a contest in the Fourth district, should Messrs. Brumm and Whitehouse announce their candidacy for state delegate, as is now said to be their intention. This would have the same effect on the "antis" that a red flag has on a bull.

"Little Strokes
Fell Great Oaks."
The plants of the forest must yield at last to the continual blow of the woodman. When the human blood has become clogged and impure the little drops of Hood's Sarsaparilla, properly taken, will fell the oak of bad blood.

CONFEDERATE Naval Captain Dead. Montclair, N. J., May 27.—Captain Julian Myers, formerly of the Confederate navy, died here Thursday night, aged 74 years. He was born in Savannah, Ga., and at the age of 13 enlisted in the United States navy, where he served with honor and distinction. He was twice promoted by special act of Congress for bravery. When the civil war broke out Captain Myers resigned his commission and started at once for the south, where he joined the Confederate navy. He was at once placed in command of the Huntville, and took part in every naval engagement with Admiral Farragut's fleet below Mobile. Captain Myers, to escape being captured by the Union ships, was obliged to put his ship, the Huntville, on fire and to sink it. He was refused to take the oath of allegiance.

DEWEY'S SLOW JOURNEY HOME.
Does Not Expect to Reach New York Until October.
Washington, May 27.—Admiral Dewey telegraphs the navy department that he will stop at various places on his way to the United States, and will reach New York about Oct. 1. This indicates that, despite the statement of Surgeon Page, the admiral is in poor health.

Some of Dewey's friends in the navy department suspect that the admiral is purposely evading a statement of his itinerary, desiring to avoid as far as possible all demonstrations. Most of the time of Admiral Dewey before his return, it is expected, will be passed in Mediterranean ports.

One result of the postponement of the Olympia's arrival in this country will be the impossibility of the admiral's presence at the G. A. R. encampment in Philadelphia. His friends here say that after a while it was the only occasion which the admiral had positively promised to attend, and they intimate that, having been obliged by his health to decline to attend the dinner at Hong Kong, in honor of the queen's birthday, the very unusual declaration, Admiral Dewey will find it impossible to depart from the rule here established and attend any banquets or popular demonstrations in this country.

FINANCE AND TRADE.
The Mercantile Agencies Continue Their Encouraging Reports.
New York, May 27.—R. G. Dun & Co.'s weekly review of trade says: There is some fear that there is no other source than the habit of fear. Every year there is worry about short crops, and yet the crops grow larger, and the spectre of monetary trouble haunts men who know that the country is strong beyond any need. Forecasting methods alarm men who are really quite aware that it is only needful to put promoted stocks in a class by themselves. But all the time the volume of business is rising, and the weekly payment through the chief clearing houses are \$2.1 per cent larger last year, and \$8.04 larger than in 1897. For the month thus far the daily average is \$7.9 per cent larger than last year, and \$6.4 per cent larger than in 1897. Moreover, this week and every other brings larger wages to many, and increased purchasing power, and the demand for products is consequently expanding in all branches of consumption.

Bradstreet's review says: Favorable features of current trade still, as for a long time past, largely outnumber those of an opposite character. Wholesale distribution is naturally less active as the season advances, but comparisons with last year are still very satisfactory. Much is hoped for from better weather conditions stimulating retail trade, hitherto held in check by the backward spring season. Industrial activity is widespread, and the prices of most staples are either very firm or tending upward, except in the cases of products affected by weather conditions. Indications are that the season's business is being done or offered in far in advance of all previous records. Export trade is feeling the check, due not entirely to advancing prices, however, but to actual inability to take new business at any price.

Failures for the week have been 142 in the United States, against 115 for the corresponding week of last year, and 18 in Canada, against 21 last year.

Row in the Italian Chamber. Rome, May 27.—Former Premier Crispi, in the chamber of deputies yesterday asked permission to explain the circumstances which led to the Italian rout at Brythra. His remarks led to an immense uproar, during which anathemas were hurled indiscriminately and the din became so great that the session was suspended. After its resumption Crispi was again permitted to speak. He was again interrupted by Signor Ferris, socialist, accused General Baratterio, who commanded the Italian forces in Erythra, of fleeing and leaving his troops in the lurch. Ferris demanded that Crispi should be allowed to withdraw his accusation and, in the confusion which ensued, the house adjourned.

SPAIN EVACUATES ZAMBOANGA.
Rico Says Americans Will Have Hard Work to Capture It.
Madrid, May 27.—The minister of war, General Polavieja, has received a dispatch announcing the evacuation of Zamboanga, island of Mindanao, by the Spanish garrison. The dispatch further said that as the Spaniards had declined to assent to the Filipino demands that the arms and munitions of war should be surrendered with the city fighting ensued, the Spaniards suffering some loss. The dispatch adds that the natives continue bitterly opposed to the idea of American annexation, and that the conquest of Mindanao will prove to be a tough task.

Following is the full text of the dispatch, which was sent by General Rico, Spain's military representative in the Philippines, from Manila:

"I arrived here on board the Leon XIII. The occupation of the island of Jolo by the Americans was effected without special incident. The American warships saluted our flag with 21 guns when it was hoisted. The Filipino batteries at Zamboanga, island of Mindanao, continued to shell the town and the port, causing losses in our garrison, but finally, after a lively attack by the Spaniards, the insurgents fled. They suffered numerous losses. Our losses were two officers and three soldiers killed and 18 soldiers wounded.

"One company of our troops attacked a battery, which the enemy abandoned, and two other batteries were dismantled by our artillery. After this reverse the insurgents declared their adherence to Spain and suspended hostilities. "The evacuation of Zamboanga was accomplished in the most orderly way. In spite of a violent storm, which caused the loss of several boats and the straggling of the steamer Forto Rico on the enemy's coast, every one was safely embarked. "Two American warships were placed at my disposal by the admiral, but we did not need them."
