CONEY'S CONFLAGRATION

The Famous Summer Resort Devastated by Flames.

THE LOSS NEARLY A MILLION.

Deputy Pire Chief Declares That the Fire Was of Incendiary Origin-He Discovered Traces of Kerosene on the Board Walks and About Houses.

New York, May 27.-Coney Island property of the value of nearly a million dollars was destroyed by fire early yesterday morning, 20 acres in the heart of the summer resort section, the dis-trict known as "The Bowery," being reduced to ashes. The two hundred buildings burned were located between the Bowery and the ocean. Tilyou's walk on the west and the old fron pier on the east. These buildings ranged in size and importance from a wabbly bathing "pavilion" to the handsome five-story Hygeia hotel, including theatres, concert halls, dancing pavilions, stores of various kinds, restaurants and hotels of every grade. The fire made shelterless for a time a native and transient population of about \$,500 including 500 men and women, claud as comedians and southertes. cla med as comedians and soubretten, and silenced no less than a hundred planes which have for years assisted

in merry making at Coney Island. It was nearly 3 a. m. when a policeman discovered a blaze in a cottage near the iron pier. A prompt response of the fire department in answer to an alarm had this trouble disposed of before 3.30, and the engines were about going away when the same policeman discovered another fire in Scheffle's palm pavilion, at the Tilyou's walk end of the district. This was the start of the fire and it spread in a giggag line at a frightful rate. Additional alarms followed in quick succession until 20 engines, some from as far away as South Brooklyn, were called.

In 10 minutes after the second fire started the whole Bowery district was in wild alarm. The thousands immediately threatened rushed attired as they slept. They were quickly joined by the entire native and over night population of the island, some 10,000, and a pell mell rush for salvage or plunder took place. Scores of thieves broke through the fire lines or entered the district from the ocean side, and their work of looting was wholesale. A crowd carrying off a plano was one sight which taught the police what kind of crooks they had to deal with. So far as known only four persons were injured or burned, and all will re-Deputy Battalion Chief Kirkpatrick says he is convinced that the fire is of incendiary origin. He arrived at the conclusion owing to the act that the flames broke out in two lifferent parts of the island at about the same time, both places being diffi-cult of access so far as fire engines are oncerned, and from the fact that upon his arrival he found traces of kerosene

AMERICAN PROPOSALS

Will Receive Consideration at the World's Peace Conference.

ARBITRATION AND MEDIATION.

t. Bourgeois, President of the Arbigram Urging All Pacific Means to Prevent a Recourse to War.

The Hague, May 27 .- It can now be stated with some degree of confidence that the delegates to the peace con-States ambassador at Berlin and head of the American delegation here, fore-cast to the press correspondent in the Interview cabled to the United States last Monday.

So far as armaments are concerned, the utmost that it is expected to accomplish is some slight recommendations the governments participating.

The various committees have now settled to work, and the delegates have begun a formal exchange of views. It was decided yesterday to appoint committees to receive all sugges-tions, proposals and petitions emanating from outsiders, but, so far as is yet ascertainable, these will be pigeonholed without consideration unless they come within the purview of the questions enumerated in the circular of Count Muraviell, the Russian minister of foreign affairs, in outlining the subjects for consideration. The disarmament committeemetyes-

terday morning, and M. Beernaert, chief of the Belgian delegation, who presided, set forth the points submitted for consideration. The two seceeded to a discussion of the questions of firearms and explosives, which continued till the hour for adjournment. The arbitration committee met in the afternoon, under the presidency of the chief of the French delegation, Leon Bourgeois, who was flanked by the hon-orary presidents of the committee, Sir

Julian Pauncefote, chief of the British delegation, and Count Nigra, chief of the Italian delegation. M. presented the questions of mediation and arbitration, and suggested a program the committee might foflow, urging recourse to all pacific means to settle international questions before a re-course to war. He submitted a long list of possible subjects of disputes which might arise between nations and yet might find solution in arbitration, closing with the more difficult problems. He then presented a scheme already introduced to the full confer-ence by a Russian delegate, a scheme consisting of 40 articles. The state-ment of M. Bourgeois was clear and oncise, commanding the closest at-

Sir Julian Pauncefote proposed that the committee should immediately proceed, before all else, to consider the question of a permanent tribunal of arbitration. He did not, however, submit any plan, and eventually withdrew his motion, in view of the suggestions offered by Count Nigra and others who urged the wisdom of following the program of the president, in which the questions of a permanent tribunal follows the general subject of arbitration M. Bourgeois observed that the committee, by not opposing it, gave adhesion to the principle favoring a peaceful solution of international questions

before a recourse to arms.

Recognizing that the committee was too large to consider the Russian pro-posals, M. Bourgeois appointed the following sub-committee: Chevalier Descamps-David, of the Belgian delegation; Professor Asser, privy council-lor, of the Netherlands delegation; Baron Estournelles de Constant, of the French delegation; Frederick Holls, secretary of the United States dele-Hungarian delegation; Professor Maar-tens, of the Russian delegation; M. E. Odier, of the Swiss delegation, and Dr. Zorn, of the University of Konigsberg, representing the German delegation. Sir Julian Pauncefote and Count Nigra were appointed honorary presidents of the sub-committee, and M. Bourgeois and M. de Staal were empowered to attend its meetings. This arrangement gives representa-tion to all the great powers, as well a.

to Holland, Helgium and Switzerland, Chevalter Descamps-David was appointed chairman of the sub-commit-
