OUR COUNTRY: First, Last and Forever.

WITH a man dying in New York from the results of tea drinking, those afternoon affairs take on new dangers that the bored participant wots not of.

ASK any teamster in the town—and he will tell you to change the electric railway from Coal to Centre street. Still, there may possibly be one who will not.

THERE are men who delude themselves with the idea that they occupy a position that no one else can fill. But the history of the world shows that each man has his equal.

THE people are interested in the change of the electric railway from Coal to Centre street, and the agitation will continue. Those who oppose it might as well realize that fact now as later.

COUNTY TREASURER DAVIS' organ informs the public that he picked up quite a number of poor children and paid their admission to the circus. May we not suggest that "passes" were numerous about that time?

AN exchange says ex-Chairman Harrity wants to get back into Democratic politics this year. His friends in Schuylkill county are already back, and have control of the party here—to the evident discomfiture of the Bryanites.

NO ONE who has any interest in the cemeteries of town should neglect to make the usual repairs and beautify the graves of their deceased friends and relatives before Memorial Day. This is an obligation owed to the dead as well as the living.

BOSS GUFFEY says the leading issue in 1900, so far as the Democratic party is concerned, will be an anti-Trust plank. The rabid silverites here are evidently not in line with their "boss." They deplore the turning down of the Ulrich resolutions.

THE District Attorney is determined to compel litigants to pay court costs in cases that have been nol prossed. Quite a number from Shenandoah were arrested on capiases, a number of whom paid the costs, while eight of them went to jail. This should have the effect of reducing the number of petty law suits.

ADMIRAL DEWEY dealt the anti-expansionists a body blow, when he said: "We must never sell them. Such an action would bring on another great war. We will never part with the Phillipines, I am sure, and in future years the idea that anybody should have seriously suggested it will be one of the curiosities of history.

THE Mahanoy City Tribune attempts to justify those traveling men who seek a market here for their wares and then discriminate against Shenandoah hotels. There is no justification for such a course on the part of these drummers, and the merchants of this town will take a hand in the "discriminating" business. Shenandoah now has as well conducted hotels as any town in the region.

THE suggestion of Secretary Milligan, of the National Prison Congress, that Pennsylvania should have a prison devoted exclusively to women, seems to meet with much favor among those of our citizens who take an interest in penal legislation. Massachusetts, New York and Indiana already have such institutions, and the Keystone state should not lag behind the procession. The work of reforming the inmates is much less successful where the women are kept in a sort of annex to the men's prison than it is where the building and all its equipment are designed especially for women. There are about sixty women at present in the two state penitentiaries.

DEATH BY TORNADO.

Father and Six Children Killed in South Dakota.

Chamberlin, S. D., May 29.—Word has reached here of a disastrous and fatal tornado which passed over the country in the vicinity of Bijou Hills, 25 miles south of this city, Saturday afternoon, resulting in the death of seven persons and the serious injury of three others.

The killed are Charles Peterson and his six children, ranging in age from 3 to 15 years. The wife and two remaining children were so badly injured they may also die.

The tornado formed in plain view of hundreds of the people, and moved in a southerly course. The first place reached was that of Ara Coden, which was totally destroyed. The storm then destroyed a church and a school house, after which it reached the Peterson place. The dead and injured there were strewn all about the premises, all being bruised and mangled in a shocking manner, while the buildings were smashed to splinters.

The tornado next destroyed the Criegor premises, then passed into the range of hills skirting the Missouri river, where it appears to have been dissolved.

The path covered by the storm was only about twenty rods wide and about three miles in length, but everything within that section was completely annihilated.

The wind was accompanied by a heavy fall of rain and hail, the latter being as large as goose eggs.

ENDED IT BY SUICIDE.

Adventurous Career of Dr. Cornwall, Thrice Charged With Murder.

Kansas City, May 29.—Dr. Richmond Cornwall, a prominent local physician with a varied career, committed suicide in the home of his brother-in-law, Dr. J. C. Whittier, yesterday by shooting himself through the head. He left a note saying that despondency over financial affairs prompted the act.

Dr. Cornwall was 33 years old, and had a wife and child. He had passed through several thrilling experiences. Early in his life he was accused of taking the life of a young St. Louis girl by means of poisonous flowers. Nine months later he eloped with a prominent St. Louis girl. She died suddenly, and allegations of poisoning were made. Her body was about to be cremated when her relatives demanded that the coffin be opened. The matter was dropped. He was also connected with the disappearance of Miss Maude Belle Bonsteelo, daughter of a Kansas City physician, in 1894, and who has never been found. In St. Louis on July 7, 1897, Dr. Cornwall was accused of killing a brother, Herbert Cornwall, whom he claimed to have found in the act of beating their father. He was tried for this latter crime and found not guilty. There were no witnesses. Four years ago Dr. Cornwall married a second time.

Consumption Cured.

BROUGHT BACK FROM THE GRAVE.

Last November Mr. Joseph James, painter, of 325 W. Pearl St., Indianapolis, Ind., was at death's door with quick consumption. Wasted to a skeleton; his lungs a mass of ulceration; his death was hourly awaited by his doctor and family. He was kept in a constant stupor with opium. A friend, thinking to relieve his terrible cough, gave him a bottle of Brazilian Balm. Seeing its wonderful effect, the doctor advised its continued use. Mr. James soon after dismissed his doctor, and depended on the Balm alone. His recovery was rapid and complete, and in February he returned to work. His lungs are sound, and his weight greater than at any time in his life. His recovery is regarded as almost a miracle.

COMMA BACILLUS.

In consumption beware of cough mixtures and prescriptions that contain opium. Opium paralizes the nerves, and gives the comma bacillus a good chance to destroy the lungs. It is always fatal. Brazilian Balm does not contain a trace of any opiate, but stimulates the nerves with new life and power, destroys the microbe, and restores all that is left of the diseased lungs to a sound and healthy state which no other remedy has ever been known to accomplish.

Severe Hail Storm in Nebraska.

Beatrice, Neb., May 29.—A severe hail storm visited Beatrice last evening, doing immense property damage, injuring several persons, killing birds and breaking glass by wholesale. The storm came up suddenly and hundreds of people were caught while driving. Several runaways occurred, in which several people were injured. Dead birds lie in the streets by hundreds, trees are stripped of their leaves and fruit and crops destroyed.

Tornado Does $100,000 Damage.

Central City, Neb., May 29.—A tornado passed through the northern part of Hamilton county Saturday night, destroying from $75,000 to $100,000 worth of property, including 15 dwellings, a church, a schoolhouse and two iron bridges across the Blue river. Orchards, groves and fences were leveled and much stock killed. Cedar trees 16 inches in diameter were broken off or uprooted as easily as corn hills. In the cemetery adjoining the church every monument was overturned, broken or destroyed.

The Corrigan-Rockefeller Suit.

Cleveland, May 27.—John D. Rockefeller, through his attorneys, Messrs. Kline & Moore, yesterday made a motion before Judge Stone, of the common pleas court, to dismiss the $1,900,000 suit of James Corrigan against him. It was claimed that Corrigan had agreed to abide by the decision of arbitrators, who had decided in favor of Rockefeller. Corrigan's attorneys repudiated the agreement. Judge Stone took the case under advisement. Corrigan claims that he transferred nearly $1,000,000 worth of Standard Oil stock to Rockefeller at a low price, whereas the stock was worth more than Rockefeller said it was.

A Letter to Mrs. Pinkham Brought Health to Mrs. Archambo.

[LETTER TO MRS. PINKHAM NO. 47,931]

"DEAR MRS. PINKHAM—For two years I felt tired and so weak and dizzy that some days I could hardly go around the house. Backache and headache all the time and my food would not digest and had such pains in the womb and troubled with leucorrhœa and kidneys were affected.

"After birth of each child I grew weaker, and hearing so much of the good you had done, I wrote to you and have taken six bottles of Lydia E. Pinkham's Vegetable Compound, one box of Lozenges, one box of Liver Pills, one package of Sanative Wash, and today I am feeling as well as I ever did. When I get up in the morning I feel as fresh as I did when a girl and eat and sleep well and do all of my work. If ever I feel weak again shall know where to get my strength. I know your medicine cured me."—MRS. SALINA ARCHAMBO, CHARLEMONT, MASS.

The present Mrs. Pinkham's experience in treating female ills is unparalleled; for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women a year. All women who suffer are invited to write to Mrs. Pinkham at Lynn, Mass., for advice, which will be promptly given without charge.

Demolished by a Tornado.

Montezuma, Ia., May 29.—Last evening a tornado struck the farm house of a man named McCoy, a half mile out of Keswick. The building was demolished and five persons were injured, Mrs. McCoy fatally. Rain and hail followed the whirlwind and much damage to growing crops resulted.

THE PARIS SEEMS DOOMED.

Another Fruitless Attempt to Float the Atlantic Liner.

Coverack, Cornwall, May 29.—The ninth attempt to float the American line steamer Paris was made last evening, and proved an utter failure. Her bow is absolutely impaled by the rocks. Five tugs were used in the endeavor to tow her off, three others standing by for an emergency. Her boilers, excepting those used for the pumps, were emptied to lighten the ship.

The effect of the strain of last week's attempt is tpparent in the increase of water in the engine room. Efforts to pull her off will now be discontinued, and it is proposed to concoct some new plan for lightening the vessel.

The pertinacity of the attempts to tow the liner has caused considerable surprise among experts here, owing to the impalement of the bow, as her removal by towing must mean, in the opinion of the experts, the tearing off of the bow.

Nebraska Honors Stotzenberg.

Lincoln, Neb., May 29.—The remains of Colonel John M. Stotzenberg, late commander of the First Nebraska regiment, killed in the Philippines April 23, lay in state at the capitol building for two hours yesterday. Thousands passed the casket to view the dead hero. Memorial services were held over the body at Holy Trinity Episcopal church. The remains, accompanied by a guard, were taken to Washington yesterday afternooon, where burial will be made in the national cemetery. Mrs. Stotzenberg and Lieutenant Cavanaugh accompanied the remains.

The Glass Factories' Shutdown.

Pittsburg, May 29.—The Window Glass fire will practically end today, and all the factories in the country with the exception of the co-operative concerns will be closed. The co-operative factories represent about 9 or 10 per cent. of the output in this country. They will be permitted to operate until June 22. The shutdown throws 7,000 skilled glass workers out of employment, and about 10,000 more who are dependent upon the operation of the factories for employment.

Three Killed at a Crossing.

Buffalo, May 29.—Joseph Keller and Ray Sherman, of Alden, N. Y., and Louis Carey, of Auburn Four Corners, Pa., were killed at Wendes Station at 2 o'clock in the morning while driving across the New York Central tracks. The carriage was struck by an eastbound express train. The bodies of Carey and Keller were thrown on the west bound track, and a freight train which passed a moment later, mangled them beyond recognition.

THE GREENSBURG SHOOTING.

The Dead Man the Victim of a Quarrel Among Crooks.

Greensburg, Pa., May 29.—John Craig, of Allegheny, who was shot by a companion on Centennial day here, died at the Westmoreland hospital yesterday. While to Coroner Owens and Officer Bomer, who received the antemortem statement of the dying man, Craig refused to state that "Hal" Hannan, of Johnstown, did the shooting, one of the physicians at the hospital was told by the dying man last night that the man who shot him was a tall, slim man with light clothes, and had a crooked eye. Coroner Owens yesterday afternoon empanelled a jury and several witnesses to the shooting were examined. They all agreed that the man who did the shooting was tall and slim and wore a light suit of clothes, but none could say positively that he has a crooked eye.

The cause of the shooting, kept a secret by Craig and Glenchauff, came out yesterday. The report is that while operating their "bunco" games at Altoona on Wednesday three of the Craig gang were arrested and held prisoners. Hannan and Glenchauff, who it appears, carried the bulk of the money secured in the games, ran away from Altoona, leaving the prisoners to get out of the trouble as best they could. Craig charged Hannan and Glenchauff with "unprofessional conduct," and the angry words and the striking of the two companions by Craig led directly to the killing. Glenchauff, whom Craig in his dying statement positively exonerated, is held now by the Altoona officers.

Perhaps It Is Marion Clark.

Buffalo, May 29.—A week ago a man giving the name of Robert Hale, residence No. 1220 South Broadway, St. Louis, lodged at the house of Mrs. King, in this city. He had with him two children, a 3-year-old boy and a girl apparently 17 months old. Monday morning Hale disappeared, taking with him the boy, but leaving the girl behind. The child, now in the county hospital, is believed to be Marion Clark, recently kidnaped in New York, and the father of the child is coming here.

A SOLDIER'S VIEWS.

One Volunteer Who Opposes Annexing the Philippines.

Middlesport, N. Y., May 29.—Mrs Hattie Thorne, of this place, has just received a letter from her son Charles, who is now with the First South Dakota volunteers in the Philippines, dated at Malolos, April 13, in which he graphically describes a battle before that city on March 25. He says that it was estimated that the natives were 7,000 strong, and that his regiment, unaided, had to face the heavy odds, as the adjutant was killed before he could get orders to the colonel. The capture of the station at Marilao was accomplished with terrible cost. Two officers were killed, two wounded and 29 non-commissioned officers and privates killed or wounded.

In conclusion the writer says: "You asked me what the soldiers thought of the United States taking the Philippines. Well, we don't think much about it. We cannot see where they are going to be benefited by it. It has cost a great deal of blood, and one American life is worth 10,000 natives. They sneaked in on our outposts night before last and killed five of our men, smashing their heads to a jelly. They get drunk before they dare to come up. They tried it last night, and by the looks of the ground were met with a warm reception."

The Kruger-Milner Conference.

Pretoria, May 29.—The volksraad, in secret session, discussed the forthcoming conference at Bloomfontein, capital of the Orange Free State, between the British high commissioner for South Africa and governor of Cape Colony, Sir Alfred Milner, and President Kruger, and authorized the president to cross the frontier for this purpose.

Murder in the First Degree.

Somerset, Pa., May 29.—After remaining locked up from 8 o'clock Saturday evening until 7 o'clock yesterday morning the jury in the Peter Meyers case came into court with a verdict of guilty of murder in the first degree. The case against Meyers for the murder of Constable John Lenhart is proceeding this morning.

A DISTINCT AMERICAN SUCCESS.

Russians Still Oppose Our Delegates' Proposals at the Peace Conference.

London, May 29.—The correspondent of the Morning Post at The Hague says: The discussion of the proposed modification of the Geneva convention provision regarding sick and wounded neutrals constitutes a distinct success for the American delegates. When it was first broached the Russians declined to take any part in the discussion, on the ground that the subject was not mentioned in the circular of Count Muravieff.

The Americans urged that the Dutch invitation included all subjects bearing on the circular, a view which the conference upheld. As yet the Russians have not abandoned their position, and they will make another effort to have the American proposals rejected on technical grounds. Interesting developments are expected.

The Times, in an editorial, declares that the result of the peace conference will be a permanent arbitration tribunal.

The Increase in Coal Production.

Washington, May 29.—The statistics of the production of coal in the United States during 1898 show that the total production of all kinds of coal in 1898 reached the enormous figure of 219,835,993 short tons, an increase of nearly 10 per cent. over the output in 1897, which amounted in round figures to 200,220,000 tons, and was up to that time the largest tonnage ever obtained in the United States. Great Britain's product in 1898 was 226,287,312 short tons, a slight decrease from 1897. Practically all of the increase in production in the United States was in bituminous coal.

"It was almost a miracle. Burdock Blood Bitters cured me of a terrible breaking out all over the body. I am very grateful." Miss Julia Filbridge, West Cornwell, Conn.

Injunction Against Mine Operators.

Weir City, Mo., May 29.—The trouble at the coal mines took an unexpected turn Saturday evening, when, upon the application of County Attorney Stevens, a temporary injunction was issued by Judge A. H. Skidmore, of the state district court, restraining the Kansas and Texas Coal company and W. H. Barrett, lessee of one of the company mines, from importing foreign labor to take the place of the strikers. The petition upon which the injunction was issued alleges that the company is about to bring in large numbers of negroes, criminals and ex-convicts.

Child Badly Bitten by a Mastiff.

Trenton, May 29.—The 2-year-old child of Harry E. Stahl, a bicycle manufacturer, was badly bitten in the face yesterday by a mastiff dog belonging to a neighbor. The child attempted to play with the dog, when the animal turned on the little one and made about a dozen gashes in the face. The dog was frightened off by the child's screams. A physician cauterized the wounds and the child is not believed to be in any danger. The dog was shot.

Turley to Retire From the Senate.

Chattanooga, May 29.—Senator Thomas B. Turley, in answer to inquiries as to whether he would be a candidate for re-election, gave out the statement that he would not be. He gives as his reason that he is unwilling to devote the balance of his life to a struggle to maintain a political position. He says: "Beside this, the life and duties of a private citizen are more congenial to me than the responsibilities of so exalted a position."

A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE APPEARED AT FIRST AS MERE PIMPLES.

The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is; they naturally turn themselves over to the doctors, and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm. Walpole, of Walshtown, S. D., says: "A little blotch about the size of a pea came under my left eye, gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm. the Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then discontinued altogether, leaving a small scab which soon dropped off, and now only a healthy little scar remains where what threatened to destroy my life once held full sway." Positively the only cure for Cancer is Swift's Specific—

S. S. S. FOR THE BLOOD

—because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood—the real seat of the disease—because *the blood can not be cut away.* Insist upon S. S. S.; nothing can take its place.

S. S. S. cures also any case of Scrofula, Eczema, Rheumatism, Contagious Blood Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.

GENERAL OTIS' REPORT

Of the Evacuation of Zamboango by the Spanish Troops.

Washington, May 29.—The war department yesterday made public the following dispatch from General Otis, commanding at Manila:

"Two battalions of the Twenty-third infantry in quiet possession of Jolo.

"Spanish troops withdrawn from Zamboanga after battle with insurgents, with severe loss to latter. Spanish loss nine killed, 27 wounded, among whom Commanding General Montero; died from wounds; buried here yesterday. Insurgents used rifles, artillery and ammunition captured from gunboats, expending major part of ammunition. Conference followed between General Rios, who went from Manila to withdraw troops, and insurgents. Latter stated to him would not oppose landing Americans, but would accept conditions in Luzon. Spanish troops withdrawn now here depart for Spain tomorrow.

"Feeble attack by insurgents on the inhabitants of the southeast portion of Negros necessitated sending a battalion of troops from Manila there. Will soon restore order.

"Insurgent falsehoods circulated in southern islands of overwhelming insurgent victories in Luzon keep up excitement in that section among the more ignorant classes, although intelligent people know American arms have never met a reverse and they call for United States protection.

"Have turned over to navy for use on the coast of the southern islands a number of purchased Spanish gunboats, from which excellent results are expected."

THE SIGNAL CORPS ATTACKED.

Captain Tilley Missing and the Worst Is Feared.

Washington, May 29.—General Greely yesterday received a cablegram from Major Thompson, at Manila, reporting that a party landing for the repair of the cable at Escalante, Island of Negros, had been treacherously attacked by natives, that Captain George H. Tilley, signal corps, is missing, and that the worst is feared. Tilley's services in the Philippines have been marked by such ability, courage and zeal that his superior placed him in the foremost rank of subordinate officers. The cable operations referred to are not those of the signal corps, but of the Eastern Extension Cable company, that has been permitted to repair and replace certain cables in the Visayan islands. Tilley doubtless accompanied the expedition as the representative of the United States, the supervision of all telegraph lines and cables being a part of his duties. No other casualties in the signal corps have been as yet reported in this expedition. Tilley was appointed from California.

No Right to Ugliness.

The woman who is lovely in face form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at A. Wasley's drug store.

WRIGHT'S INDIAN VEGETABLE PILLS

For all BILIOUS and NERVOUS DISEASES. They purify the BLOOD and give HEALTHY action to the entire system. Cure DYSPEPSIA, HEADACHE, CONSTIPATION and PIMPLES

Miss Sadie Wertheim, age 14, of Toledo, O, was the winner of the *first* prize for execution on the violin at the Brussels Conservatory of music. German critics say she is a wonderful player. It is the greatest distinction to be *first* in anything. For this in statemenship literature, athletics, science and art, men and women put forth their greatest efforts. Washington was said to be "first in war, first in peace and first in the hearts of his countrymen." It is a great thing to be first. Nothing is of more value to mankind and brings greater happiness than a good remedy. Many things will *relieve* but the one that will *cure* is best. Brazilian Balm is such a remedy. Tens of thousands have found that it is the *only* thing that would cure Catarrh and Asthma. For 15 yrs. it has never failed in a single case to cure Asthma, and its record has been as wonderful in Catarrh. Cases that had, to all appearances, run into Consumption, or where the nostrils were entirely stopped up or where the poisonous pus had eaten holes into the throat an inch deep, or where the stomach had become ulcerated and raw from swallowing the germ-laden matter, were all permanently cured. Such a record, unknown to any other remedy, justly entitles the Brazilian Balm to the first place in the regard of the American people. There are 20,000,000 Catarrh victims and countless Asthma sufferers in this country, all of whom can be cured with Brazilian Balm. A $1.00 bottle of Brazilian Balm contains a month's treatment for catarrh or asthma, and for 6 months we will wrap with each $1.00 bottle a month's treatment of Toxicola Tablets, *free.* Toxicola is the best tonic and nerve and strength builder known to science. This is the greatest offer ever made. Ask your druggist and take no substitute. B. F. JACKSON & Co., Mfg. Chemists, Indianapolis, Ind.
