THE CUBANS COLLECTING

Coming In For Their Share of Uncle Sam's Three Millions.

TROOPS RAPIDLY DISBANDING.

General Pedro Delgado Ordered His Soldiers to Shoot Any Man Who Took the Road to Havana to Get a Share of the Gratuity.

Havana, May 30.—Yesterday's events in connection with the payment of the Cuban troops entitled to apply here for a share in the American gratuity have effectually killed off the opposition to the receipt of the bounty by privates. In American military circles it is considered that a fine start has been made, and that the opposition is defeated.

Three hundred privates arrived during the day to apply for payment, but, though Lieutenant Colonel George Randall, of the Eighth United States Infantry, the commissioner superintending the distribution here, kept his office open from 10 a. m. to 5 p. m., only 112 could be paid during that interval, as each man took up several minutes. Many who brought arms were not on the rolls at all. Ninety-nine rifles were surrendered, most of the applicants declining to take any chances in turning the weapons over to the mayor of Havana, evidently believing it would be better to give them direct to the Americans.

All day it was virtually impossible to get through the front door of the office unless the sentry cleared the way. The Cuban officers who on the first day tried to discourage any who were disposed to apply, finding now that the tide of feeling has turned, are offering all the assistance possible to Colonel Randall.

At the conclusion of the day's work there were more than 200 who had not been paid. These will have to wait until after the return of the pay car on June 15, when there will probably be extra days assigned for Havana.

This morning the pay car left, carrying money, Colonel Randall, his escort, a physician, and the paymasters, for Pinar del Rio province.

General Pedro Delgado, commanding the Cuban forces around Guanajay, called his men together yesterday, told them they were disbanded and ordered them to take their arms and go home. Of the 200 some 30, who were mounted on ponies, said they would ride to Havana and get their money. Thereupon Delgado, who was formerly a notorious bandit, called upon the rest to draw up in line and to shoot any man who took the road to Havana. The 30 mounted men gloomily dispersed. They will have an opportunity to receive their shares later.

It is said that most of the Cubans who, though having arms, did not figure in the muster rolls when they applied for payment, were furnished with weapons by friends at Guanabacoa, where many arms had been stored with keepers of grocery shops by people who had purchased them from the Spanish guerrillas and volunteers. These were given out to enable the holders to secure shares in the American gratuity. Some Cubans, undoubtedly entitled to payment, have also obtained arms from the same source, and are thus able to retain the weapons that they used during the war.

The disbanding of the troops continues. Twelve hundred men, under the command of General Jacinto Hernandez, who were encamped at San Jose de las Lajas, about 21 miles from Havana, have been mustered out. They were given certificates of service redeemable under the first Cuban government. Some of these men were in the Cuban service three and a half years. One party of 80, living in Santa Clara, started immediately for their homes. The horses of many, however, have died of disease or been killed off, and consequently most of them go home by trains, which give them free passage.

THE WOMAN WHO COUGHED

A Wreck From Grippe, Catarrh and Asthma.

RESTORED WITH BRAZILIAN BALM

I was known as "The Woman who Coughs," for I coughed incessantly. I was a school teacher till my health failed. Catarrh had eaten away the partition in my nose. It had produced Bronchitis, Asthma, dreadful Stomach troubles and weak kidneys. In fact it had gone all through my system, making me an easy victim for the Grippe which left me a wreck in mind and body. This was the condition the doctors left me in, after dosing me with opium, quinine, etc. Then I bought cough cures without end but they only made me worse, I was in despair till I got hold of **Brazilian Balm** and **Toxicola Tablets.** They acted like magic from the first, and in a few weeks I was cured and better than I had been in years. Talk about wonderful remedies, **Brazilian Balm** and **Toxicola** saved my life.

Miss L. L. Clark, 917 Horton St.

You get more doses of **Brazilian Balm** for the money than any other remedy. 25, 50 cents and $1.00 a bottle at druggists. With every $1.00 bottle you get one month's treatment of **Toxicola Tablets** free; the best tonic, nerve and strength builder in the world.—B. F. Jackson & Co., Mfg. Chemists, Indpls, Ind.

VACILLATING CANADIANS

Reasons For Protest Against the Dominion Government.

OUR MERCHANTS VICTIMIZED.

After They Had Made Large Expenditures For Legitimate Business the Laws Were So Changed as to Shut Them Out, Involving Heavy Loss.

Washington, May 30.—Feeling it to be necessary at this stage in the exchanges between the United States and Great Britain respecting the Canadian boundary controversy that the exact attitude of the American commissioners should be defined, and that the people not only of the United States but of Great Britain might have an opportunity to judge for themselves of the comparative rectitude of the actions of the United States and Canada respectively, the following statement has been obtained from a prominent person:

Canada continues to be a land of surprises. The friendly protocol of Washington was signed on May 30, 1898, for the adjustment of all differences between the United States and Canada in a most amicable spirit. The ink of that protocol was only well dry when the province of Ontario discovered a chance to exhibit her idea of international equity. American lumbermen had been invited to take timber limits in that province with the privilege of cutting logs and exporting them to the United States. The provincial government, after giving them their leases and taking their money into the treasury, passed a decree prohibiting the export of such logs, with the result of causing some bankruptcies in Michigan.

During the sessions of the commission the same peculiar idea of international justice was exhibited in another province—that of British Columbia. This time it was the mining interests that were involved. The authorities of that province took the money of the American miners who had made the discoveries of gold, allowed them to spend thousands of dollars in constructing a roadway to the scene of their interests and then proceeded to change their laws to confine all such mining privileges to British subjects and British corporations.

Another such instance of this kind of practice worked out to American nurserymen. They had taken contracts to supply certain stocks to the Canadians, when, under the pretense of fear of San Jose scale, the Canadian authorities prohibited any further importation of nursery stock. At the same time the Canadian courts held the Americans liable for violation of the contract which their own laws had caused to be vacated.

The Dominion government also seems to share these peculiar principles of international intercourse in respect to the boundary of Alaska. They protested indignantly against any conditions saving the existing right of Americans to the country to be arbitrated. Years before the commission met United States citizens, without any question or protest against their right to do so, had occupied the head waters of the Lynn canal and established towns and settlements there. Canada had never asserted a claim to the region. The Americans had built paths over the passes from the Lynn canal beyond the mountains and established communication with the Yukon by intervening lakes and streams. This, too, was done without protest or question of their right to pass over the mountain summits.

Under these circumstances the United States commissioners thought it right to withhold such tidewater settlements from the arbitrators' jurisdiction, and it was against this limitation that the Canadian commissioners so vehemently protested. Now it seems that Canada is protesting with equal vehemence against arbitration, unless the United States shall agree to give them in any case the Pyramid harbor region, to which they never before the meeting of the commission asserted any right, which they had never occupied with a flag, or constable or a Canadian subject, or even a canoe.

How they reconcile this claim with their position in the commission in respect to referring the boundary question to arbitration remains to be explained to the British government. There seems little prospect of adjustment of the boundary question if it is left to the control of the Canadians. If they are to control the action of the imperial government it is important to that government that Canada should bring her ideas to conformity with those which have hitherto guided Great Britain and the United States into the paths of peace and friendship.

The officials familiar with what has been done so far in the Canadian negotiations dismiss very quietly the published statements that the present hitch grew out of the failure of the two countries to agree upon the nationality of an umpire for the proposed arbitration, with the simple remark that this referred to a phase of the negotiations existing many months back, when the commission was in session, and does not cut any figure now.

PITTSBURG'S HEAVY STORM.

A Ten-Year-Old School Girl Narrowly Escaped Electrocution.

Pittsburg, May 30.—A terrific wind and rain storm passed over this section yesterday, doing considerable money damage, but no fatalities resulted. The most serious effect of the storm was the almost electrocution of Annie Sullivan, a 10-year-old girl who was on her way home from school. She was struck by a live telephone wire heavily charged by a cross with electric light wires. The wire caught her across the throat and burned into the flesh from ear to ear. The physicians say she has a chance of recovery.

The Miller street school house, in Minersville, was unroofed and several children were supposed to be pinned under the debris. This fortunately proved untrue, and no one was seriously injured. The roof of A. Warmcastle's livery stable, in the east end, was blown off and the entire system of telephone, telegraph and trolley circuits were prostrated, delaying the street car traffic for three hours. The East End electric light plant was practically wrecked, resulting in the machinery being stopped for the night, leaving the entire east end in almost total darkness.

The damage throughout the city to trees, fences, roofs, etc., is heavy. Reports from surrounding towns give the damage as considerable, but no fatalities resulted.

Charged With Killing a Sailor.

San Francisco, May 30.—The Bulletin prints a story from Hong Kong that Captain Sewell, nephew of the well known shipbuilder and politician, was arrested at the settlement for alleged complicity in the killing of a negro sailor of the American ship Benjamin Sewell, which is commanded by Sewell. The first officer of the vessel was also taken into custody. The accused were released on bail.

"BURNING MONEY."

The most precious possession on earth is perfect health. It is the ground-work of all prosperity in life; and few people grudge any reasonable expenditure which will be the means of restoring it; but one of the most disheartening things in the world is for any one who works hard for his money to keep paying it out for doctors and medicines that do no earthly good. It is like throwing it into the fire.

"We had spent lots of money for doctor bills and I had almost given up in despair," says Mrs. Ella Schall, of Mooseheard, Luzerne Co., Pa., in a sincere letter to Dr. R. V. Pierce, of Buffalo, N. Y. "Then I told my husband I was going to write to you. I am very glad I did so. You remember my case was abscess of the breast. Dr. Pierce's Golden Medical Discovery cured me in one month, sound and well."

"Your kindness to me I can never forget," writes Mrs. Josie E. Clark, of Enterprise, Shelby Co., Mo. "I cannot express half my feelings of gratefulness to you. I had despaired of ever getting well. I had been in bad health for twelve years. Had aches all through me, numb hands, cold feet, and everything I ate distressed me; my bowels were constipated. I was very nervous, depressed and despondent. When I first wrote to you I thought I could never be cured. I have taken six bottles of Dr. Pierce's Golden Medical Discovery, and my health is now good. You have my honest recommendation to all sufferers. I think there is no medicine in the world as good as Dr. Pierce's."

It's an insult to your intelligence for a dealer to attempt to palm off upon you a *substitute* for this world-famed medicine. You *know* what you want. It's his business to *meet that want.* When he urges some *substitute* he's thinking of the larger profit he'll make—not of your welfare. Shun all such dishonest dealers.

Every sick person in this land should possess Dr. Pierce's grand thousand-page illustrated Common Sense Medical Adviser, which will be sent free for the bare cost of mailing, 21 one-cent stamps.
