Lawrence colliery, Mahanoy Plane, was the scene of an accident early this morning by which a man was instantly killed and his body was found terribly mangled. The victim was a Tyrolean named Sighmondo Mafel, a single man 21 years of age employed as a rockman by a contractor named Heary

Mafei and his butty finished work at about one o'clock this morning and went to the bettom of the second lift. A party of com-pany men were at work at the lift below, timbering the slope. Mafei called to them and asked that they send up the truck, as he was in a hurry to got home. He was told to wait a few minutes and signal the hoisting engineer to stop the truck at the second lift. This Mafei did. His butty got on the truck first and Mafei took a position on the bumpers after signaling the engineer to hoist. At the second lift there is an overhead skid for branching cars from the slope. It is supposed that Mafei, unmindful of this projection, stood erect and was pushed from the truck. He was not missed until the bottom of the slope. It had fallen and rolled about 300 yards. His face was crushed to a pulp and wholly unrecognizable.

a Daugherty day as much as Wednes-day was a Nash day. The conferences continue, however, and the field may next turn on Daugherty. There is as yet no winning slate and there are those who believe that no winning combination can be formed until after the test of balloting.
While M. H. Daugherty apparently

had the best of the conferences in the morning, in the selection of committeemen in the afternoon, in the demonstrations at the convention and in the proceedings of the committee last night, yet he is having odds only as the leading candidate, and not yet as a winner. Nash will be a close second and Lieutenant Governor A. W. Jones a much closer third than has been anticipated. The field, R. M. Nevin, of Dayton, is looming up, while none of the others seem to be gaining outside of their respective districts.

While the forces of Cox, Daugherty

and Kurtz combined against Nash yes-terday as the Hanna candidate in all the preliminary work, yet this combine one man for governor. Cox wants a dark horse and is grooming Shattuck till he names his favorite. Foraker wants Jones. Kurtz does not want Jones or Daugherty if he can get some one he likes better. Meantime Daugherty insists that he has more votes than Jones, Cox and Kurtz can com-mand, and that they should come to him if they want to defeat Nash and sentations of merit that never fail, thereby indirectly defeat Hanna. It is in this complication that Nevin is likely to be brought out.

Daugherty is not only a leader in the prospective balloting, but he also has the best organization of any of the candidates.
