OUR COUNTRY: First, Last and Forever.

The Democrats will hold their state convention next Wednesday. What will the harvest be—silver or gold?

The Miners' Journal is opposed to an early convention. Still, that cuts very little figure with the rank and file of the party.

WASHINGTON gossip has it that Senator Penrose is interesting in behalf of former Congressman Brumm to secure the latter a federal appointment. May we ask, doesn't the junior Senator know his friends?

The Hon. James B. Reilly is keeping his enemies guessing in the present mix-up in Democratic politics. The Hon. James' friends say he will be heard from later on, and to the discomfort of those seeking his political retirement.

GOVERNOR SPOKE has named Judge Little, of Columbia county, as a member of the Lyon-Dunn contest court. Now that the court has its full quota of members, it is expected that the opinion will be filed at Pottsville at an early date.

OUR friends the enemy are fighting the battle of 1900 in this county at this time. There is as much interest taken in the selection of committees, who in turn will select the national delegates next year, as there is in the personnel of the county ticket. The factions are already engaged in calling each other names. Both claim to be "regular" and "true" Democrats.

National Divorce Law.

A few days ago in New York a woman began divorce proceedings against her husband on the grounds that he snored and grinded his teeth in his sleep. When they were married in February last she loved him devotedly, but now she was afflicted with insomnia owing to his loud snoring, and her health was affected that she was compelled to institute divorce proceedings.

This is a sample of the slight grounds upon which applications for divorce are now made. The ease with which people nowadays procure divorces, and the slight grounds upon which they make application for them, is evidence of a lack of realization of the solemnity and responsibilities of the marital relation.

Too often men and women enter this state of life without a sufficient knowledge of the temperaments and tastes of those with whom they wed, and the words of the marriage ceremony, for better or worse, are not sufficiently considered. In the court days everything is apt to be of a rosy hue. Only the best side of the man and the woman are revealed to each other. There is not that mutual confidence which should exist before marriage, and after the honeymoon there is very often a rude awakening.

That this is true in too many instances is proven by a look at the decrees issued by the Divorce Courts. A few days ago there were decreed in the Common Pleas Courts of Philadelphia in one day divorces which separated one hundred and twenty-eight people—sixty-four couples. The reasons for these separations were not announced, but they probably ran the whole gamut from snoring to the more serious violations of the marital vows. One of the hardest things to procure should be a divorce, and it should be granted only upon the most urgent grounds.

The ease with which divorces can be secured, by a change of residence from one state to another, or for slight grounds of complaints, encourages young people to rush into marriage with a feeling that if everything does not turn out just right they can get a divorce. There should be a national divorce law, alike in all states, and the causes for which di-

ADMIRAL KAUTZ OPTIMISTIC.

Says Things Will Come Out All Right in Samoa.

San Francisco, June 10.—The steamer Doris, from the Orient via Honolulu, brings the following advices from Honolulu: The United States steamship Philadelphia arrived from Samoa on June 1 on her way to Mare Island. "All parties have agreed to abide by what the commission decides," said Rear Admiral Kautz, in an interview, speaking of the Samoan affair. "Whether they will keep their agreement or not remains to be seen. I think things will come out all right. My orders from the navy department were to remain in the islands as long as I thought it necessary. The Philadelphia is very full and has needed to go into drydock for a long time. Then, we have a large number of men aboard whose term of service has expired. Matters are quiet and order prevails. The situation is in the hands of the commission. Under these circumstances I thought it best to start for San Francisco. "The reports about our ammunition being defective are true, or perhaps it would be more accurate to say some of it was very old.

M'KINLEY AS MEDIATOR.

Our Government May Be Invited to Settle the Transvaal Dispute.

Washington, June 10.—A rumor is current in London, according to the Westminster Gazette, from a well informed source that it has been proposed to the commission between Great Britain and the Transvaal. It is added that the suggestion is being considered and "it is even not improbable that such mediation may be undertaken." The president, it is said here, under no circumstances would consent to extend an offer of mediation between Great Britain and the Transvaal save upon the request of both parties to the pending dispute. It is believed that President Kruger would not willingly seek our good offices, owing to the well recognized fact that in many points concerning the welfare of the Transvaal the interests of the United States are identical with those of Great Britain. Americans took part in the ill-starred Jambou raid, and are interested in maintaining a large measure of freedom in the entrance of mining machinery, dynamite and such imports into the Transvaal.

To Protest Loubet From Insult.

Paris, June 10.—At a cabinet meeting held yesterday the premier, M. Dupuy, and the minister of war, M. Krantz, announced that General Zurlinden, the military governor of Paris, and the prefect of police, M. Blanc, had adopted rigorous measures to preserve order at Long Champ tomorrow upon the occasion of President Loubet's visit to that place in order to witness the race for the grand prix de Paris.

NICARAGUA COMMISSION NAMED.

Will Report on the Most Feasible Route for a Canal.

Washington, June 10.—The president yesterday appointed the following commission to determine the most feasible and practical route for a canal across the Isthmus of Panama: Rear Admiral John G. Walker, U. S. N.; Lion, Samuel Pasco, of Florida; Alfred Noble, C. E., of Illinois; George S. Morrison, C. E., of New York; Colonel Paul C. Hart, U. S. A.; Prof. William H. Burr, of Connecticut; Lieutenant Colonel Oswald B. Ernst, U. S. A.; Lewis M. Haupt, C. E., of Pennsylvania; Prof. Emory R. Johnson, of Pennsylvania.

Admiral Walker, who is at the head of the commission, says that he will call the members together at the earliest practicable moment. The rainy season is now on in Panama and Nicaragua, but nevertheless it is extremely likely that the commission will proceed forthwith to a personal inspection of the routes, so as to make an early report to congress as possible.

Rear Admiral Walker, Colonel Haines and Mr. Haupt are members of the present Nicaragua canal commission. Senator Pasco is qualified in many ways for duty on the commission. George S. Morrison has been president of the Society of Civil Engineers. Alfred Noble was formerly a member of one of the canal commissions, and has been engaged in many large engineering and architectural projects. Be Fooled the Surgeons.

Recruiting in Chicago.

Chicago, June 10.—Captain P. H. Bonus, of the army recruiting station in this city, has received instructions from the war department to enlist an unlimited number for service in the Philippines. The order calls for "as many able-bodied recruits as possible for infantry, cavalry, light and heavy artillery." Over 60 recruits have been enlisted and sent west since Monday.

Miss Sadie Wertheim, age 14, of Toledo, Mo., was the winner of the first prize for execution on the violin at the Brussels Conservatory of music.

German critics say she is a wonderful player. It is the greatest distinction to be first in anything. For this in state championship literature, athletics, science and art, men and women put forth their greatest efforts. Washington was said to be "first in war, first in peace and first in the hearts of his countrymen." It is a great thing to be first. Nothing is of more value to mankind and brings greater happiness than a good remedy. Many things will relieve but the one that will cure is best. Brazilian Balm is such a remedy. Tens of thousands have found that it is the only thing that would cure Catarrh and Asthma. For 15 yrs. it has never failed in single case to cure Asthma, and its record has been as wonderful in Catarrh. Cases that had, to all appearances, run into Consumption, or where the nostrils were entirely stopped up where the poisonous pus had eaten holes into the throat and lungs, were cured where the stomach had become ulcerated and raw from swallowing the germ-laden matter, were all permanently cured. Such a cure, unknown to any other remedy, justly entitles the Brazilian Balm to the first place in the regard of the American people. There are 20,000,000 Catarrh victims and countless Asthma sufferers in this country, all of whom can be cured with Brazilian Balm. A \$1.00 bottle of Brazilian Balm contains a month's treatment for catarrh or asthma, and for 6 months we will wrap with each \$1.00 bottle a month's treatment of Toxicole Tablets, free. Toxicole is the best tonic and nerve and strength builder known to science. This is the greatest offer ever made. Ask your druggist and take no substitute. B. F. JACKSON & Co., Mfg. A SOUTH DAKOTA ROMANCE.

Returned Soldier From the Philippines Remarries His Divorced Wife. Highmore, S. D., June 10.—The return to this town of a man and woman divorced five years ago, but who are again husband and wife, adds the last chapter to a romantic story of love and war.

Five years ago Henry Ballantyne was a member of the army of high rank. He had been married not quite 12 months. Ballantyne was a prosperous grain buyer, and owned several good farms near Highmore. These he decided to give up. The few hundred dollars he was able to scrape together in cash he put in his own pocket and left to begin life anew in California. The next winter he spent in southern California. On her way home a month ago she stopped temporarily in San Francisco. On the street there one day she met an emaciated figure in army blue, hobbling about with the aid of a heavy cane, in vain search of a job. She recognized him as Henry Ballantyne, discharged from the United States volunteer service, and an invalid from the Philippines after a fever.

Ballantyne was about to pass his former wife without speaking to her, but she, when she saw his wasted form and miserable condition, felt all his love for her revive. She hurried him into a carriage and to her hotel, where comfortable quarters, good food and the services of competent physicians soon produced a marked improvement in his health. Last week the two were remarried, and have just returned to Highmore to gether.

Schooner Wrecked, Crew Probably Lost.

Atlantic City, June 10.—The three-masted schooner George A. Howes, of Philadelphia, with a crew of 12, disappeared eight two miles off Barnegat. The crew is believed to have been drowned. The life saving crew from Barnegat station as soon as the storm abated went out to the vessel, which had turned bottom upwards. The schooner was light and was blown from New York City, O. It was commanded by Captain Beveridge.

Four Military Prisoners Escape.

New York, June 10.—Four military prisoners escaped from Castle William, Governors Island. They are Frank Harvey of the Second artillery, Michael J. McCarthy of the Eleventh infantry, and Fred Simond and Carl Decker of the Seventh artillery. The men were all imprisoned for infractions of the military laws and with the exception of McCarthy would have been released in the year 1900. McCarthy's term expires in 1901.

Molieux Again Charged With Murder.

New York, June 10.—Roland B. Molieux was yesterday rebanded on \$5,000 bail. He was immediately re-arrested on a warrant charging him with the murder of Katherine J. Adams. Molieux was arraigned in special sessions court, and the examination was set down for Monday next at 3 o'clock. The prisoner was remanded pending the examination.

Brutally Assaulted and Robbed.

Harrisburg, June 10.—Michael Henneke lives alone on a small farm in Cumberland county, not far from West Fairview. Thursday night he was brutally assaulted and robbed by several unknown men, who left him bound and a bed. Three ribs were broken and he was otherwise maltreated. It is not known how much money was taken.

RUINED BY SUGAR.

Speculators Who Have Been Waiting For a Reaction Badly Left.

New York, June 10.—Late yesterday afternoon occurred one of those slaughters of the innocents around the sugar post on the floor of the Stock Exchange which have come to be looked for as a periodical incident in the history of the exchange. For weeks there have been direct predictions that the end of the sugar company as a dominating factor in the refining industry was at hand, that the flight of its life was on its hands, that the suspension of dividends was imminent to carry on the war, and all sorts of disastrous predictions. Gentlemen supposed to be versed in the inside affairs of the company have either been silent, with an expression of plaintive sadness, or have freely admitted their conviction of the truth of the worst that could be said.

Many persons attracted by the prevailing high level of sugar, sold their stock very liberally, with the expectation of buying back when the collapse came. A great many of these bought their stock to cover short contracts yesterday at a level nearly 20 points above that which the direct predictions of the average selling and held out tentatively for the higher price. This exciting and painful incident closed a day of uniform strength throughout the market for securities. The bears turned sugar backwards some 1 1/2 points, but without marked effect on the general level. The bears were real, with reactions of about a point. But the vigorous strength developed by the coalers turned the whole market upward. Then came the rush in sugar, which made the last prices the highest of the day. The net gain in sugar is 6% and in other stocks nearly 1%.

ALLEGED TRAITORS ON TRIAL.

Charged With Enrolling Men For a Transvaal Rebellion.

Pretoria, June 10.—The trial of the eight alleged former British officers who were arrested at Johannesburg, on charges of enrolling men for high treason, in having attempted to enroll men with a view to an outbreak of rebellion, began here yesterday. The charge against Lieutenant E. J. Tremlett, Lieutenant C. A. Ellis and Lieutenant John Allen Mitchell was withdrawn, and they were called as witnesses for the state.

Lieutenant Ellis testified that overtures were made to him to hold Johannesburg and the forts until the British troops came. He was given to understand that the co-operation of the military authorities had been secured, and that capitalists were financing the movement, but he deposed that he did not know the names of the leaders of the movement.
