The kidneys cry for help.
There is not an organ in the whole body so delicately constructed or so important to

breatth.

The kidneys are the filters of the blood. If they do not filter, the blood very soon becomes foul and poisonous.

Anybody knows that there can be no health where there is poisoned blood. Backache is one of the first indications of kidney trouble.

It is the kidneys' cry for help. Heed it. Doan's Kidney Pills are what is wanted. Are just what overworked kidneys need. They strengthen and invigorate the kidneys—belp them to do their work—never fail to cure any case of kidney disease.

Waldeck-Rousseau, with the headline, 'A Ministry Against the Army." This is part of the campaign against M. Loubet.

Another feature is the posting of red placards upon available walls, attacking him as a "Panamist," and repro-ducing the text of the resolution adopt ed by the chamber in March, 1898, blaming the minister of the interior for arranging, toward the end of 1892, to dispatch a police agent to Venice to see Emile Arton, implicated with Dr. Herz and Baron von Reinach in the frauds upon the Panama Canal com-pany. The placards then point out, in big type, that "this censured 'Panamist' minister of the interior was Loubet, now president of the republic."

Small groups gathered in front of the placards and discussed their contents until the police, at a late hour last evening, tore them from the walls.

Paris, June 14.-The chamber of in dictments yesterday decided that there is no case against Lieutenant Colonel Drevfus care, or against Maltre Leblois, his counsel, against whom charges were also made in connection with the case. A startling incident of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetitegradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim."

No one should fail to try them. Only 50 cents per bottle at A. Wasley's drug store.

I was known as "The Woman who Coughs," for I coughed incessantly. I was a school teacher till my health failed. Catarrh had eaten away the partition in my nose. It had produced Bronchitis, Asthma, dreadful Stomach troubles and weak kidneys. In fact it had gone all through my system, making me an easy victim for the Grippe which left me a wreck in mind and body. This was the condition the doctors left me in, after dosing me with opium, quinine, etc. Then I bought cough cures without end but they only made me worse, I was in despair till I got hold of Brazilian Balm and Toxicola Tablets. They acted like magic from the first, and in a few weeks I was cured and better than I had been in years. Talk about wonderful remedies, Brazilian Balm and Toxicola saved my life.

Manila, June 14.-Information believed to be reliable has reached here of the assassination of General Luna and his aide-de-camp, Lieutenant Pasco Ramon, June 8 by Aguinaldo's guard at the beadquarters of Aguin aido. Luna and Ramon, it appears, went to the Filipino headquarters to confer with Aguinadlo, got into an altercation with the captain of the guard and one of them drew a revolver. After ellencing the big gun at Cavite Viojo the gunboats ran close along the shore, bombarding the rebal post tion. The rebels replied with rifle fire and with the fire of some small pieces of artillery. So vigorous was the enemy's fire that at 9:20 s. m. the gunboat Helena joined the small gun-boats already named and the Princeton, Monterey and Monadnock, from their anchor ranges, dropped occasional big shells among the rebels. This, apparently, only served to incite the rebels, as they kept up an incessant fire of musketry and artillery near the mouth of the Zapote river, two miles north of Bakeor. The fire of all seven warships was concentrated on this point shortly after noon. The rebels were eventually forced to abandon their guns after holding out for about four hours, only to be confronted by General Lawton's force on land and in their rear, where there was heavy fighting.

As soon as the land fighting opened the Americans were attacked by hidden riflemen on all sides, even the amigos or "friendly" natives, in the houses of the town, shooting into their

In Order to Claim a Share of the American Gratuity.

Guanajay, Cuba, June 14.—Lieuten-ant Colonel William H. Bisbes arrived here yesterday and began paying the Culan troops, a large number of whom he found waiting. They received their shares of the American gratuity with enthusiasm, seeming to be very grateful for an opportunity to return to their homes with funds enough to colonel Bisbee strictly enforces his

Here, as elsewhere, applicants have appeared, and many of them with arms, whose names do not show in the list, and there are also applicants who have undoubtedly seen service, but do not receive payment because they do not come within Colonel Bisbee's rule. Among the later there is considerable discontent.

Monday night, before Colonel Bisbee's arrival, a large party, knowing that a quantity of arms was stored at Calino, decided to secure these weapons, in order to enable them to ollect their shares. Shortly after midnight the policemen who were guard-ing the storehouse were surprised by a strong party, which rushed the police guard. The latter fired and retained their position until their ammunition was exhausted, when the Cubans, who were armed with sticks, compelled them to submit. All the members of the party helped themselves generously to the arms. General opinion here is that the police really connived in the

from exercising common sense? Ve can't do it. As the old rhyme runs: The man's a fool who tries by force or skill To turn the current of a woman's will For it she will, she will, you may depend on't And it she won't she won't, as there's an end on't.

And if the won't she won't, so there's an end wit."

Common sense tells a woman that when she's sick she needs a doctor.

Common sense tells a woman that in disease the first question is not of man or woman, but of recognized medical ability.

Common sense applied to advertissments which invite women to "write to a woman because she is a woman and understands women," will show the women so appealed to, that it's no use to write to any woman about disease unless that woman is a physician.

hysician. Common sense used in the reading of

physician.
Common sense used in the reading of advertisements will discover that no claim is made in them to a physician's knowledge or diploma. And that is not because the claim would be morally culpable as a lie, but because it would be legally punishable as a fraud. The law permits you to masquerade as a doctor in an advertisement, just so long as you don't actually claim to be a doctor, or put M. D. after your name. That's why the advertisement is worded "write to a woman" instead of write to a doctor.
Common sense has brought more than half-a-million women, afflicted with some form of female disease, to Dr. R. V. Pierce as one of the most expert physicians in the United States in the treatment of female diseases. Dr. Pierce is a specialist. He has given more than thirty years of active practice to the treatment of female diseases. Dr. Pierce is not a "physician" by courtesy. He is a physician regularly graduated, legally empowered to practice and with thirty years of experience in the treatment of diseases of women, which he has made his specialty.

The offer of free consultation by letter made by Dr. Pierce is a real offer, an honest offer. It is an offer backed by a medical institution, with a world-wide reputation, a staff of nearly a score of regularly graduated physicians, a practice which reaches every state in the Union and a record of more than half-a-million women treated and ninety-eight out of every hundred perfectly cured.

Write to a doctor. That's the first thing. The woman's doctor, is Dr. R. V. Pierce, of the Invalids' Hotel, Ruffalo, N. V.
