OUR COUNTRY: First, Last and Forever.

OUR Democratic friends are in quandary. Both the gold and silver shouters, after mature deliberation, are partly convinced that "Boss" Guffey gave them each a gold bribe. The silverites are elated over the defeat of Verkes; and likewise the gold bugs because of the abandonment of the 10 to 1 idea.

WITH A capitalization of \$4,000,000 and some of the most enterprising business men in New England back of it, the Great Northern Paper Company will have two of the largest paper mills in the world turning out daily 350 tons of paper by the 1st of July. The Madison, Maine and Appleton mills will be purchased by a syndicate. These mills will fight the print paper trust.

PROFESSOR FESSENDEN, of the Western University of Pennsylvania, an electrical expert, has perfected a telescope and eyeglass of colored glass which will reveal the white flash made by the firing of smokeless powder. The flash is invisible at day to the naked eye, and for this reason many lives were uselessly lost in the Spanish war locating the Spaniards, who used smokeless powder. The government may buy the invention.

SENATOR PENROSE has the distribution of all the census supervisors, about two thousand enumerators, or local census takers, in this state, and fifty clerkships in the Washington bureau. This is more patronage than any one man has ever had at his disposal in Pennsylvania, or any other state, for that matter. The Republican members of the House from this state are each allowed six clerks in Washington, and the Democratic members will have to be satisfied with two minor clerkships.

THAT women have no sense of humor has been repeated until it has become an accepted fact, which even women themselves take without a grain of salt. An English writer, however, has entered the lists on behalf of the sex, and proclaims all kinds of amiable things, as if he had just discovered them. He says, for instance, that the feminine sense of humor is much more subtle and extensive than the masculine quality, and that compared to George Eliot's manifestations the humor of Dickens is but farcical exaggeration and burlesque.

The report that times are better than they were and that this town is enjoying the greatest prosperity in its history is true to some extent—Tamaqua Recorder. The above is taken from the "only Democratic paper in the county," and recognized as one of the few calamity howlers. The editor, however, refuses to give the Republican administration proper credit for the "improved condition of the masses," but one year ago, when depression in business was noted, this inconsistent silver advocate charged the McKinley administration with all the evils known to man. If the Republican party was responsible for the poor times, it should be given credit for the acknowledged improvement in business circles now.

THE State Board of Health is distributing to the School Directors in the various districts of the state copies of a law passed by the Legislature last winter which gives School Directors supreme authority to act as boards of health in case of the appearance of infectious or contagious diseases in their respective neighborhoods. By this act the Directors are empowered not only to exclude from the public schools any person known to have been exposed to such diseases, but also to enter upon suspected premises, either by themselves or by a duly appointed agent, and to abate any nuisance they may find there. The work is made voluntary on their part, but their authority, in case they choose to take up the duty, appears to be absolute.

KIDNAPPER'S HEAVY SENTENCE.

Barrow Gets Fourteen Years and Ten Months, the Nurse Four Years. New York, June 17.—George Beaurgard Barrow, the principal in the kidnapping of Marion Clark, the infant daughter of Arthur Clark, of this city, was yesterday sentenced to 14 years and ten months' imprisonment.

The summing up by counsel was very brief, and the case was given to the jury with a few words of instruction from the bench. The jury, after being out 25 minutes, rendered a verdict of guilty, and sentence was passed as above stated.

Bella Anderson, alias "Carrie Jones," who pleaded guilty, was sentenced to four years' imprisonment.

The trial of Mrs. Barrow as her husband's accomplice will follow.

The term of imprisonment to which Barrow has been condemned is two months less than the maximum penalty prescribed for kidnapping. In the case of Bella Anderson the district attorney joined in the plea for mercy put forward by her attorney. She will be sent to the prison for women at Auburn.

The President of Our Massachusetts.

Washington, June 17.—President McKinley and family left here on a special train last evening for Holyoke, Northampton and other points in Massachusetts. The party comprised President and Mrs. McKinley, Mr. and Mrs. Abner McKinley, Mr. and Mrs. George E. Morse, of San Francisco, relatives of the president; Assistant Secretary of the Navy Allen, Mr. George Corryton, acting secretary to the president; Messrs. George Barnes and Rudolph Forster, of the White House executive staff; Dr. P. M. Rixey, U. S. N., the president's physician; Miss Ida Barber, of Canton, O., and Miss Sarah Duncan, also of Ohio, who have been the guests of Mrs. McKinley here.

New Jersey Oyster Commissioners.

Millville, N. J., June 17.—Governor Voorhees yesterday appointed Edward Riley of Newport, Edward Stiles of Port Norris and Jeremiah Ogden of Bridgeton state oyster commissioners for Delaware bay and Maurice cove, Ex-Assemblyman Thomas F. Austin of this city, was also appointed superintendent, and the state control of the oyster industry took effect yesterday.

POSTOFFICE THIEVES NABBED.

Evidently the Men Who Looted Princess Anne Postoffice.

Norfolk, June 17.—Two strange men disembarked from the Baltimore boat yesterday morning and in the afternoon boarded the same boat, presumably with the intention of leaving it at Old Point or Newport News. A detective had been placed on watch by Chief of Police Kiser, who was apprised by wire of the Princess Anne Md. postoffice robbery. They were invited from the boat to the dock by an officer, and broke into a run, hotly pursued by officers, who fired as they ran. One of the men was overhauled. The other ran into the arms of a detective West, and broke away. A ball went whizzing by his ear caused him to halt. The two men were put into a patrol wagon and started for the police station. En route one of them turned a backward somersault between two officers and broke into a run, but stopped when he saw he would be killed. Besides, he had sprained one of his ankles badly. He said: "If you men had starling you in the face what I have you, too, would take desperate chances: I don't blame you. You have done your duty and I am caught."

The men will give no information about themselves. In fact, they refuse to say a word. On being searched \$470 in stamps was found on the man who took such desperate chances to escape. This is the amount taken from the Princess Anne postoffice. Chief Kiser is confident that these are the men who about two weeks ago robbed the Elizabeth City, N. C., postoffice.

Cuba's Flag Under Old Glory.

Washington, June 17.—The order of President McKinley relative to the flag of Cuba, vessels directs that officers of the customs in Cuba may authorize the clearances under a permit, for foreign ports or ports in the United States of vessels owned prior to Jan. 1, 1899, by residents of Cuba, and owned at the time of clearance by citizens of Cuba, under distinctive signal and coasting permit of Cuba. Such vessels may fly the American flag above the distinctive signal.

TO FIGHT THE TIN PLATE TRUST.

Chicago, June 17.—Senator W. A. Clark of Montana, Charles E. Miller of New York and J. E. Shawhan of San Francisco had a consultation at the Auditorium Annex yesterday looking to the formation of a combine to fight the tin plate trust. It is proposed to establish a plant at Joliet, Ills., with a capital of \$1,000,000. This capital, however, does not represent the full strength of the proposed anti-trust plant.

"TOD" Sloan Charged With Rowdyism.

London, June 17.—It is asserted that "Tod" Sloan, the American jockey, made a brutal assault on a waiter at the Sports club on Thursday, and there was talk of having him arrested.

Sloan denies the charge, but says the assault was made by one of his (Sloane's) friends. The Times, which accuses Sloan of the assault, says the waiter was settled by paying the waiter \$500.

Kentucky's Reign of Terror.

London, Ky., June 17.—A state of terror exists in Clay county owing to the preparations for warfare now going on among the Howards, Bakers and Whites. No Baker could enter Manchester unless the whole clan rode in, and that is what is expected, in which event there will be serious bloodshed.

MURDERS SECURED A FORTUNE.

Chicago, June 17.—Word was received by the Chicago police yesterday from Vienna that the case against Bartholomaeus Kost has been completed by the absolute identification of the corpse of Mary Voedoeck. The clothing has been finally traced, every garment being recognized as part of the bridal trousseau made by the young woman before she left Duestchle Brod. Already extradition papers have been started from Vienna.

EVERYBODY'S LIABLE TO ITCHING PILES.

Bethel, Pa., June 16.—Wealthy people, old and poor, old and young—terrible the torture they suffer. Only one sure cure; Don's Ointment. Absolutely safe; can't fail.
