Residents of Shenandoah like other American can ditizens, in making an investment want to be sure of getting the worth of their money. They want to know all the whys and wherefores, and in a direct ratio to the value of the investment they burrow and ferret until satisfied with the collatoral. Take an instance in the realm of proprietary articles. If we know of a friend who has been cured, we have some faith in the preparation; if we know of two or three our faith increases. If the cures reach scores, all well known citizens, and anyone who still maintains that there is nothing beyond ordinary merit in the said preparation can safely he left to the care of his fellow taxpayers. If he wishes to pick a quarrel with them on the question of their judgment and verseity, he has ample opportunity in Shenandoah to do so. Begin with this case :

Paris, June 19.—President Loubet received in audience yesterday M. Casi-mir-Perier, former president of France, and consulted with him regarding the ministerial crisis. After this interview M. Loubet received Senator Pierre Waldeck-Rosseau.

The latter, it is understood, has made his acceptance of the task of forming a cabinet conditional upon the co-operation of M. My skin was almost yellow, eyes sunken, tongne coated, pain continually in back and sides, no appetite-gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. MOST VIOLENT CASES HAVE The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinappeared at FIRST AS ary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is they naturally turn themselves over to the doctors, and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

The Son of a Slave Mother on Southern Miscegenation.

THE ARISTOCRACY RESPONSIBLE.

The Founder of the American Protective League Says the Poor "hites Are Not to Blame For Racial Amai-

Boston, June 19 .- Joseph W. Henderson, of Providence, founder of the American Protective League, an organization of colored people for the securing of their rights, delivered an I hesitate to mention from the pulpit. ecent speech of ex-Governor Northen, of Georgia, with reference to the southern outrages upon colored people. Said Mr. Henderson:

me to make any reply to Governor me to make any reply to Governor gard the statements of Dr. Broughton as ridiculous. I ask the public to sussinvery. But had I been an owner of human beings and man killing dogs. as he has been, and since written my name among the followers of Christ, I would have felt more like coming up to the altar of repentance at this stage of reform than to have come to one of the greatest cities in the world with a typewritten defense of the most cruel institutions of human debauchery ever known to civilized or savage man Were it not that it was in Georgia that my poor mother was born; there that she tremblingly obeyed the slave muster's whip and felt the slave hound's bite; there that she was sold and deported for life from her blood. and kin, I would not stoop to dignify Governor Northen's pro-slavery utter-

ances even with a sneer.
"Governor Northen says that miscegenation by law will never take place in the south. But miscegenation in the south his already taken place. It has been on the read over 200 years. Not miscegenation by law, but by brute force, which is the very worst form of law. Who started it? Not the negroes, I am sure, nor was it the poor white trash. It was the blue vein aristocracy of the south that broke over the fence, defled all law, and the result is we have black negroes and white negroes, some of them as white

as Governor Northen.
"One seldom hears of the wholesale assaults that southern white men are making upon colored women, but they are as constant as the rising and set-ting of the sun. Go south and count the penitentiary born children whose mothers are colored and fathers white.

That tells the story.

"Aside from force, there is a regular organized society of white men and colored women, for which the colored women are as much to blame as the white men. These particular colored women have long since concluded that they would rather wear diamons and ride in carriages of their own than to chop cotton or wash dishes for somebody else, and be it said to the discredit of this class of colored women and their white gentlemen assoclates that they are living in clover.

"The poor whites of the south are not to blame for this racial amalgamation, for they and the blacks do not associate. They mutually hate and scorn each other. It is the blue vein aristocracy of the south that is creating havoc with the morals and social affections in negro homes and mixing the races most alarmingly.

"I have been unable to ascertain what led Governor Northen to tell his northern audience that the negro has the same chance in southern courts that the white man has. Southern law is the white man's cloak and the black man's enemy. It is often used to protect the lawless and punish the lawful, provided the lawless are white and the lawful black."

It is the invention of Dr. R. V. Pierce, of Buffalo, N. Y., a regularly graduated physician and skilled specialist in the cure of all diseases of woman.

Mrs. Orrin Stiles, of Downing, Dunn Co., Wis., writes: "I cannot praise your Favorite Prescription enough for I have not been as well for five years as I now ain. In July last I had a bally boy, weight it ibs. I was only sick a short time, and since I got up have not had one sick day." Sick women can consult Dr. Pierce by letter free of charge. Every letter is held strictly private and succedly confidential.

strictly private and sacredly confidential

Designing men work on women's feelings, by advising women to "write to a woman who understands woman's needs." It is useless to seek advice about disease of any woman who is not a phy-sician. So far as known no qualified woman physician is connected with any proprietary medicine establishment.
