OUR COUNTRY : First, Last and Forever.

Our Democratic friends are having their troubles over the judiciary vacancy. The free silver wing patriots are bunting for a "dark distance of a few inches was able to horse."

DESPERATE efforts have been made over in England to find a satisfactory explanation for the success with which American locomotive builders are competing with those of Great Britain.

THE often promised abolition of slavery in Zanzibar is still in abevance. It is almost impossible to ob tain free men to work in the fields where spices are grown, as it means death, and so the British authorities restore runaways to their owners.

THE news editor of the Miners Journal should read his contemporaries more carefully. The Republican sentiment in this section does not favor D. C. Henning for Judge, nor did the HERALD so report it. Ex-Judge Koch is the favorite just now.

According to reports coming from all portions of the country the President can get 500,000 volunteers if he will simply issue the call. Such a vast army, of course, is not needed. From some cause the President and those whose counsels he seeks are doing their utmost to avoid the necessity of sending any more volunteers to Manila.

A WOMAN notary public in California, who was recently married. asked the Attorney General what name she should use officially in the future. He has replied that she must sign all documents as before her marriage, for he finds no law compelling or even authorizing a woman to drop her maiden name on the simple excuse of marriage. In fact he says that there is no authority for a change of name at marriage or at any other time.

**KENTUCKY'S HOWLING FARCE.** 

A Day Spent on Two Praitiess Bailots

For Governor. Louisville, June 27.—A continuous performance of howling faces made up the program of the sixth day's session of the Democratic state convention and it narrowly escaped winding up in an exhibition of pugilism and marks manship. From 10 a. m. until 6 p. m. Central Music Hall contained, with out doubt, the most uproarious and disorderly body of men that ever gathered together for the transaction o political or other business. Angered by what they considered an arbitrar, ruling of the chair, in refusing to al low an appeal from his defision de-claring out of order a motion to re-move policemen from the hall, over half the designtes sot about with all the energy they could command to pre-

vent by designing noise the transac-tion of any further business until they secured a vote on this appeal. This plan was successfully carried out until, principally because of atter physical exhaustion, the fillbusters allowed themselves to be outwitted and the ballot on nomination for governor, which the chair had ordered early in the morning and had tried repeatedly to proceed with, was concluded by

having the county chairmen, or many as would, come to the stage and yell their votes at the clork, who at a catch the figures. A second ballot was reached, this time with less tribu-

# Charges a Senator With Forgery.

Sioux Falls, S. D., June 27 .- Alf. Burkholder, a newspaper man, created a sensation in political and army circles by charging that a United States senator forged a letter in support of the senator's hostility expansion and to the war in the Philippines. The letter purported to have been written by an officer of the First regiment, South Dakota volunteers, whose name was withheld through fear that the writer would be court martialed. It described the conditions in the American ranks as being little

better than in the convict camps of Siberla. A defense was made in behalf of the senator that the letter should have been dated May 9, Instead of April 9. The letter appeared in the issue of a paper here last Tuesday morning, some hours before the ar-rival of the mail train bringing the regular Manila mail.
