BRITONS DETERMINED. Joseph Chamberlain Outlines the Policy of the Government

IN A SPEECH AT BIRMINGHAM.

The Transvaal Is Flagrantly Viclating the Equality the London Convention Was Intended to Secure." The Government Will Not Draw Back Birmingham, Eng., June 27,-Joseph Chamberlain, secretary of state for the colonies, addressing the Unionists

of this city last evening, reviewed carefully the Transvaal question. In the course of his speech he said that, owing to the enormous military preparations of the government of the South African republic, Great Britain

had been compelled to increase the British garrison in Cape Colony and Natal, entailing an additional ex-penditure of £500,000 annually. said the minister, "there would have been no raid and no crisis at the pres But the raid tied the hands ent.

ment had tried to establish friendly reand the payment of fifty cents, the return lations with President Kruger, but all limit may be extended to leave Detroit not their advances had been received with contempt. He then proceeded to eulo-gize Sir Alfred Milner, governor of Cape Colony and British high com-missioner for South Africa. The government accepted full responsibility for The curse of overworked womankind, are the actions of that official. As for the counter proposals of Mr. Kruger, they did not constitute even a fair instalment of reform,

After denouncing in the strongest terms the attitude and actions of the Boers, Mr. Chamberlain, with great deliberation and emphasis, added:

"The Transvaal's enormous secret service fund has procured it friends and advocates in every country. The way the British subject there is treated is not only a menace to them, but interferes with our prestige among the natives, who now regard the Boers, and not the British, as the paramount

power. "Besides the breaches of the London convention the Transval le flagmatly violating the equality that convention was intended to secure. Its misgov-ernment is a festering sore, polsoning the whole atmosphere of South Africa. The Dutch in Cape Colony and Natal would be in the happiest condition, but so long as the disease of hatred and suspicion prevails in Transvaal it is impossible to stop the contagion.

"Four times since independence was granted we have been on the verge of war with the Transvaal. It is erron-cous to say the British government wants war, but it is equally erroneous to say that the government will draw back, now that it has put its hand to the plow.

"We hope that the efforts that are now being made will lead to an ami-cable arrangement, for Great Britain only desires justice, but there comes a time when patience can hardly be distinguished from weakness and when moral pressure becomes a farce, that cannot be continued without loss of self respect. I trust that time may never come in this instance, but If it does Britons will insist upon finding the means to secure a result essential to the peace of South Africa."

Remarkable Rescue. **RESTORED WITH BRAZILIAN BALM** Mrs. Michael Curtain, Plainfield, Ill. makes the statement, that she caught cold makes the statement, that she caught cout, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless vic-tim of consumption and that no medicine could cure her. Her druggist suggested Dr King's New Discovery for consumption ; sho

cesses were present on the famous plains of Aldershot yesterday to wit-

CORNELL WINS AGAIN In the Eight Oared Race Against

Columbia and Pennsylvania. PENNSYLVANIA WINS FIRST BACE

In the Four Oared Contest the Men From the Keystone State Defeated Cornell's Four by Length and a Half. Columbia Second in Freshman Race. Poughkeepste, June 27 .- The four

oared race over the two mile course yesterday was won by Pennsylvania. Time, 11:12. Cornell was second; time, 11:14 3-5. Time of first mile: Pennsylvania, 5:19 3-5; Cornell, 5:33.

The freshmen eight oared race be tween Pennsylvania, Columbia and Cornell over the two mile course was won by Cornell; time, 9:55. Columbia was second, one and a quarter boat lengths behind Cornell; time, 10; Pennsylvania third, three and a fourth engths behind Columbia: Lime, 10:10. At the crack of the pistol the two four oared crews from Cornell and

Pennsylvania took the water together, but the Pennsylvania stroke started at 36, while the Cornell stroke was only 34. The Pennsylvania stroke, while not as prettily rowed as Cornell's, had much more go in it, and

before the boats had gone ten lengths the Quakers had shoved their boat's nose ahead of the Ithacans. From a mere gain of inches in the first half a mile the gain of the Pennsylvania boat became one of feet as they neared the mile mark. Twice the Cornellians. tried to reduce the lead, but each time the Quakers responded and maintain-

ed the lead of one length, which they had when they struck the bridge. It was here that a collision seemed al-most imminent, owing to the swell created by a ferryhoat. It was averted, however, and when they cleared the great abutments it was seen that the Pennsylvanians had a lead over Corpell of fully a length and a quarter. From this point of the battle to the finish there was little material change. Pennsylvania crossing the line a winner by a length and a half.

The freshmen race was one of the closest and most exciting races seen on the river in years, the Columbia crew giving the Cornell crew a sharp and pretty fight for first place and making phenomenal time, considering the slowness of their stroke. At the sound of the pistol the three craws got away in a bunch, but at the settling down of the stroke to the crew's usual style it was seen that Corneli had poked the pointed nose of her shell a few feet ahead of the line. For the first half a mile the struggle was so exciting that the spectators arose

on the press car and in the observa-tion train and cheered for each crew. Cornell was rowing a long, sweeping stroke of 34, while Pennsylvania was rowing at the rate of 35. Columbia was rowing a phenomenally long stroke, 32, the wonder of all of the

A Wreck From Grippe, Catarrh and Asthma. ESTORED WITH BRAZILLIAN BALLM I was known as "The Woman who Coughs," for I coughed in santly. I was a school teacher ill my health failed. Catarrh had en away the partition in my nose. It had produced Bronchitts

it up to 34 in an endeavor to close up the gap between Cornell's boat and

that they could hold the Columbia

boat where they pleased. Columbia went away from Pennsylvania, al-though the latter were rowing a stroke

of 36 to the former's 34. Amid the tooting of whistles and the cheers of

the Cornell contingent the boat cross-

meantime steering erratically, espe-cially at the mile mark, going out of the

boat

RIOTS IN SPANISH CITIES Against Government's Financial Pro-

fichals-Martlal Law In Saragossa. Madrid, June 27 .- A violent demonosals of the Spanish government took dace at Baragossa yesterday. The ioters attempted to stah the governor, but he was rescued by the police. A police inspector was wounded and a gendarme was killed. The mob pli-laged the building of the Sara-gonsa council general and stoued the gendarmes on guard, several of whom were severely injured. The disorders necessing, the troops were ordered out

and charged the rioters. Martial law was then proclaimed, the prefect of police handing over the reins of power to the millitary authorities. In the chamber of deputies yesterday, the premier, Senor Don Francosco Silva, replying to a question by Senor Romero y Robiedo as to the disturb-ances in various parts of the country, wild they these at Savilla and in Made

said that those at Seville and in Mad-rid were not important, but the disor ders at Saragossa were serious. The government, he declared, was fully determined to punish severely all out-breaks against law and order, and if necessary the whole peninsula would be declared in a state of slege. Senor Silva, while passing along the street yesterday, was the object of

slight manifestations of a hostile charnotor. Freezing Out Non-Unionists.

Cleveland, June 27 .- There is a general disposition among workingmen to refuse to ride on cars manned by nonunion crews, and if the conductors cannot show a union eard on demand workingmen refuse to pay their fare or remain on the cars. In consequence of this feeling, it is said, the non-union men are leaving the city in droves. The company had hoped to keep about 250 of them, but it is now said that within a week not more than

50 will be left. We all covet strength and admire it. We look at the marvelous muscular develop-ment of a Saudow with envy and straight-way resolve to bury a pair of dumb bells and get (D) of dumb bells and get strong, as if the secret of strength lay in muscles. Strength begins in the stomach. If begins there because there the strength elements are

tive and nutritive functions in perfect health, there is no medicine so sure and so satisfactory as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, enriches the blood, nourishes the nerves, and regulates the functions of every vital organ of the holds. organ of the body.
