ASSASSINATION OF AGUINALDO

Aumin Reported, But the Report Is Generally Discredited-Said to Bave Reon Killed by General Plo Del Pilar In a Quarrel Over Luna's Murder.

ords

Mauila, June 28 .- Major General Otis has ordered the opening to trade of many important ports that have been closed since the outbreak. These include San Fernando, on the west coast

Curimoa and all ports in the islands f Samar and Loyte.

Many ships used in inter-island com-morce have been tied up in the harbor here for months, and the shippers and merchants have been urging the gov-ernment to raise the blockade. weakens. As there is a heavy export Reduced Rates to Detroit via Pennsylvania duty on hemp this will greatly in-crease the revenues. The interests of the natives, as well as the merchants and traders generally, led General Otis to take this action. Delegations from the southern islands told him that the cessation of business was bringing much suffering to peaceful inhabitants. Gunboats will protect the shipping in some porta, but elsewhere shippers must risk confiscation by the insur-gents, who exact heavy tribute of ail ships they permit to sail.

The rumor that Aguinaldo had been assassinated was in circulation here for several days. It was not believed, but its currency gave it a definite form. According to the story General Pio del Pilar called upon Aguinaldo on June 19 and accused him of causing General Luna to be killed. Aguinaido denied the responsibility, and added that he deeply regretted Luna's death. General Pio del Pilar, as the story goes, called him a liar and scoundrel, shot him twice in the head with his re-volver, and walked away unmolested. The report finds no credence in Man-IIa. A Filipino general, mounted on a big horse, with a numerous staff, has since been seen haranguing the Fillpino troops around San Fernando, in Pampanga province, and this officer is supposed to be Aguinaldo.

### Denounced Home-Wreckers.

The press has freely commented upon the sermon preached on Sunday by the Rev. Dr. Braddin Hamilton, President of the Episcopal Publication Society, of New York, in the fashionable All Saints' Chapel, at Newport, in which he made pointed

The minister's sermon is considered by many as the beginning of a powerful movement among Episcopalians of the highest social influence against the Perry Belmonts in particular and against the evil of which Dr. Hamil- last night by Detectives McVey and ton spoke in general. The subject of Dr. Hamilton's discourse was "Home Life." After speaking of the beau-ties of a pure and happy home, he said in part :

This fearful disease often first appears **Results Fatally in Nine** as a mere scratch, a pimple, or lump in the breast, too small to attract any Cases Out of Ten-A notice, until, in many cases, the deadly disease is fully developed.

Cure Found at Last. Cancer can not be cured by a surgical operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although the sore or ulcer-known as the Cancer-may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence.

The wonderful success of S. S. S. in curing obstinate, deep-seated blood diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight S. S. S. proved equal to the disease and promptly effected a cure. The glad news

spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been found for deadly Cancer. Evidence has accu-mulated which is incontrovertible, of which the following is a specimen :

the following is a specimen : "Cancer is hereditary in our family, my father, a sister and an aunt having died from this dreadful disease. My feelings may be imagined when the hor-rible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way as to cause great alarm. The disease seemed beyond the whatever, the Cancer growing worse all the while. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family, for I know how deally Cancer is, especially when inherited. I was advised to try Swift's Specific (S M S, which, from the part day, forced out the poison.
