The Tin-Plate Factories.

It is unfortunate that the tinplate healthful table beverage for old and young. manufacturers of the country should be the first to strike a discord in the note of prosperity that very generally prevails at the present time. It is reported that rather than agree to the demands of their employes for a slightly increased wage every factory in the country will close indefinitely, throwing some 50,000 men out of the company when the company imported 125 negro miners from Pana, Ilis, bringing the men and 25 negro women into the camp on a special train. There has no disturbance.

The tinplate makers are the most prominent beneficiaries of a tariff schedule arranged for their sole benefit. Under the schedule the tinplate industry has prospered and is to-day in the foremost rank of American industries. The workingmen have asked for an increase of wages. By every precedent and in keeping with the object of the tariff that supports the industry their request should be granted, if it is possible to do so.

Acting under the impression that cratic state convention adjourned last the demand came mostly from radinight after nominating the following cals among the workingmen the inticket: For governor, William Goebel; lieutenant governor, J. C. W. Beckcrease was refused and the shut-down announced as reported above. But it turns out that the workingmen's petition was not the work of the radical wing of their organization, but of the conservative body of the labor-missioner of public instruction, H. V. ers. In any event, this peevish and spiteful attitude toward 50,000 work-ingmen who ask for an increase of ingmen who ask for an increase of gates instructed for him. wages is deserving of something better than threats from the tinplate Washington, June 29. — Captain Coghlan will go to Puget sound, after manufacturers.
