The Jury Deliberated Two Hours Over His Fate This Morning.

MURDER IN THE FIRST DEGREE

Judge Eachtel Delivered His Charge This Morning, Concluding About Ralf Past Ten, and the Jury Rendered Their Verdict at One O'Clock.

Potisville, July 1 .- At 1:05 o'clock this afternoon the jury in the case of Thomas Brennan, charged with the murder of Henry Elliott, at New Philadelphia, on June 2nd, last, returned to the court room and rendered a verdict of "guilty of murder in the

Court re-opened promptly at nine o'clock this morning and Judge Bechtel began his charge to the jury at once. After informing them that one of four verdicts could be found, namely : Guilty of murder in the first degree the second degree, voluntary manslaughter and not guilty, he continued: "We will now direct your attention to the testimony, and will endeavor to point out to you all the evidence. Whatever I shall say to you in quoting this testimony you must consider as coming from the witnesses, and not from the ourt; and you may apply the same rule as

Deputy Clerk Duffy called the roll and asked if the jury had agreed upon a verdict. The foreman handed him a written report and it was presented to the Judge, who read as follows:

"Guilty of murder is the first degree."

Mr. Brumm moved that the jury be polled and each answered "guilty." They were then discharged with the thanks of the court, and looked much relieved. The prisoner was

The nut is in pos-session of the company. There is a dent in the rail caused by the nut as the locomotive struck it.

Roland Morgan, the fireman who was killed in the wrock at Shamokin yesterday afternoon, was a nephew of Mrs. Mary A. Parrott of town. He was 25 years old and is survived by a wife. He had only recently passed a creditable examination for engine on the railroad and was anticipating the promotion every day.

They Declare They Were Never in Better Condition to Suspend Work, and They Anticipate a Peaceful Settlement of the Controversy.

Pittsburg, July 1.-The last day of the scale year of the Amalgamated As-sociation of Iron, Steel and Tin Work ers ended at midnight. While definit figures cannot now be given as to hor many men are idle today, it is known that more then 50,000 of them are forced to quit work, temporarily a least. Secretary John Williams, of the Amalgamated Association, however gave it as his opinion that a settlemer would be reached in the near future There is no animosity, and both side seem to be in favor of coming to an sgreement.

Subordinate lodges of the Amalgamated Association are taking a vote on the proposition from the manufacturers granting an advance of less than 20 per cent, while the new scale calls for an advance of 25 per cent. As soon as the returns are in a conterence wil be held. Up to midnight six firms had signed the new scale, and work is being continued at their plants. Secretary John Jarrett, of the Asso-

ciation of Iron and Steel Manufac-turers, yesterday signed the sheet mill scale for all the firms affiliated with the association. This mill, with the Moore head Bros. & Co. plant at Sharpeburg where negroes were substituted for white men a few days ago, are ex-pected to be battle fields, and a crisis will probably be reached by Monday.

As to the report that it is probable agents will be sent across the Atlantic to secure workmen, the labor leaders say manufacturers would be foolish to import workmen of whose capabilities they know nothing. It has been proven they say, that the European skilled mechanic cannot compete with the American, and just at this time the manufacturers cannot afford to ex-
