# THE FLOODS IN TEXAS.

Alarming Reports Come From the Brasos River Bottoms.

MOST CRITICAL SITUATION.

Eight Hundred People Imprisoned by the Floods Are Threatened With Death From Hunger and Exposure, The Railroads Destroyed For Miles.

Galveston, July 6 .- The Texas flood situation is the result of four days steady rain, beginning June 26, which at some points partook of the nature of cloudbursts. In some cases the rainfall was 20 inches. These heavy rainfalls caused rivers to overflow, in some cases reaching the highest points known. In the central part of the state the flood reached its height Saturday and Sunday. The Brasos river at Waco flooded part of the town, but there was no loss of life. At Hearne and Navasota the same was true. The Brasos valley at Calvert, Robertson county, was flooded so suddenly that plantation hands could not reach high ground. Reports were circulated that 50 people were drowned. As the waters recode near Calvort the facts

are found to be that 14 lives were lost. All of the victims were negroes except one. Many head of cattle were drowned.

All railroads were resuming through traffic whon, on Tuesday, the floods reached the southern part of the state. This morning the flood condition in the lower Brasos valley at Brookshire, Wallis, Richmond, Rosenberg, Thompson, Duke, Arcola, Fulahear, Chenango and Columbia is very had. Wallis re-ports that the Brasos is ten feet higher than in 1885, and back water within one and a quarter miles of town is ten feet deep. The San Antonio and Ar-kansas Pasa bridge at Wallis is two feet under water. The Southern Pa-cific road west of Houston is washed out near Roseberg and Richmond. The Santa Fe is washed out near Thompi. It is feared when the rise now Wallis gets to Rosenberg and and Thompson the consequences will be erlous

Yesterday afternoon Deputy Sheriff Swearingen, of Austin county, made the following statement over the long

"Relief has not reached the flood victims in this section. Thirteen dead bodies have been recovered near the town of Brookshire, 10 miles from here. Forty-five persons above Sealy are reported mlasing and given up for dead. Seven were drowned today in a

"About 400 persons are isolated on a amall pisce of land in the Brasos bot-toms, three miles from Brookshire Several hundred more are similarly surrounded at San Philippe, and exhaustion

town of Brookshire, something never before known. The 65 lives reported lost here today were in a radius of 20 miles north and south of Sealy. We are completely isolated at Sealy, but this town is not in danger. Cannot estimate the situation beyond the limits I mention. The whole face of the country here is a sea. The channel of the Brasos river has shifted about three miles and the water here is 15 miles wide. Logs, houses, lumber and rallroad material, merchandise, live stock and other floating objects make it worth the life of rescuers to go to the relief of the endangered people, most of whom are negroes. The railroads are destroyed for miles. An immense washout occurred on the of railroad communication. The Mis-souri, Kansas and Texas, the Gulf, Colorado and Santa Fe and the Southern Pacific are all completely stopped," A telephone message from Deputy Sheriff Swerengin late last night says that fully 200 lives have been lost by the flood within a radius of 30 miles of Sealy. Tuesday night and yester day nearly 100 were drowned in the vicinity of "The Mound," a small piece of highland near Old Sanphilipi, to which hundreds of negroes fied from the Brasos bottoms, taking their horses and cattle. The waters have gradually encroached upon them until only about half an acre of space remains, and on this three negroes are huddled, with death staring them in the face. Drowning is almost sure, while starvation is certain. The nearest point of land is

TEN NEW REGIMENTS. Orders issued For Recruiting-One Colonel Alcendy Appolated.

Washington, July 6.-The order di-recting the enlistment of ten new regiments of volunteer infaniry was comploted yesterday afternoon and issued today. The order was drafted after a conference between the president and Adjutant General Corbin, and directs the recruiting officers to enlist met under the law passed March 2, 1899. These regiments are to be numbered from 26 to 35, thus retaining the continuity of the present infantry organ Major Edmund Rice, Third infantry,

was appointed colonel of the Twenty sixth, the first selection made by the sident. Colonel Rice was appointed to the army from Massachusetts as : captain of the Nineteenth Massachu setts volunteers in 1561, and served throughout the rebellion. Ho was brevetted captain, major and figuren-ant colonel for gallant services during the rebellion, and at its close became a first licatemant in the regular army At the outbreak of the war with Spall was serving as military attache in Japan, but hastened home, and accom panied General Miles' command Porto Rico. While there he was appointed by the governor of Massachusetts an Colonel of the Sixth Massa-chusetts infantry, which he continued to command until its muster out.
