W. J. Britt and P. J. Cleary the Only Bidders for the Street Paving Job A Fire Alarm Brings the Session to an Abrupt Close.

A regular meeting of the Borough Council was held last night with Councilmen Mo-Guire, Coakley, Tracey, Boehm, Shoemaker, Straughn, James, Bell, Brennas, Harkins, Hand, Neiswenter in attendance.

Immediately after the reading of minutes Mr. James Grant made application that Mrs. Mary Murphy, of South Chestnut street, be exonerated from payment of taxes. He said the County Commissioners authorized him Shollenberger's farm in Ringtown was to state that they considered the case a worthy

The opinion stated that the Berough Auditors had no right to party inclinded the following: Mrs. James Morgan, Mrs. Charles Shreeve, Mrs. A. O. who held the whip ever the Connoil last year should ask that such a bill be paid. M. E. Doyle was allowed to speak on the question and he defended the bill as not being excessive. He appealed to the members to pay his bill and stated that several years ago

the borough paid \$200 to have the audit published in the two papers of town. He appealed to Mr. Straughn several times during his remarks as to the justification of the Mr. Boehm said two wrongs did not make a

Because the berough has paid \$200 in the past for the work does not justify the present Council in expending the same amount any more than it would be justified in spending \$400 for it. Mr. Straughn said he was willing to pay the same sum as last year. He did not maintain that the price charged was excessive, as any one knew that a publication is a newspaper could not be secured as cheap as in poster form, but the Auditors had no authority to incur a debt for newspaper publication.

During the year just closed the department responded to 21 alarms, the most destructive fire being that at the Swaim property, when about \$30,000 worth of property was destroyed. The total loss by fire for the year was about \$51. 990, sixty per cent. of which was severed by

The street committee then made a brief report of repairs made during the menth, after which Mr. James stated that the highway on Dunn's hill, west of Lamb's colliery is in a very bad condition.

On motion of Mr. Brennan it was decided to put a crossing on West Cherry street, and one at the corner of West and Centre streets. The street committee was also instructed to open the road at Klondike, and the Chief Surgess was instructed to notify the Traction mpany to put West Coal and Main streets in a passable condition where its track is

Bids were then opened for the First ward treet paving. There were but two. W. J. firitt proposed to pave from Howers to Union streets, with best quality of Hamburg vitrified orick, for \$1.93 per square yard. P. J. Cleary offered to do the work, with the same brick,

for \$1.80 per square yard.

Mr. James stated that at the last regular meeting in June Council instructed the Solic-itor to go into court and ask that a date be fixed for argument of the case against the Lakeside Railway Company by the borough, to compel the company to lower its track at the place selected for the paving. He said the borough had expended \$65 in taking evidence, and he could not understand why the case was not pushed to argument. He was confident that if the borough could not compel the railway company to ent the street down, it could not compel it to pay its share of the paying. In addition to this, he argued that the borough has no money to expend for paving, but if it could secure the money rom Tax Collector Scanian it could pave six r eight squares and save a thousand dollars the paving now projected. He moved that the paving be laid on the table until December, 1899.

Mr. McGuire asked how \$1,000 could be saved, and Mr. James replied that that much reduction could be secured on two squares if the borough should pave six or eight squares, instead of two.

Mr. Bell was also of the opinion that the railway company could not be compelled to pay its share of paving if it cannot be compelled to cut down the track to grade, and he did not know why the Solicitor did not have a date fixed for argument of the case. Mr. Tracey did not want to see the paving started until the railway company gives a

guarantee that it will pay its share.

President McGuire stated that Council ould compel this, and also stated that there was ample money in sight for the work. At this point (10:10 o'clock) the fire alarm bell rang, and there was a general rush tohurriedly adjourned the meeting until this
