In view of these facts, is it any wonder that the gentlemen who were defeated for that the gentlemen who were defeated for Commissioner and Poor Director are giving public expression to their indignation. They have just cause for complaint, because the men nominated for these two offices especially, against neither, ' whom nothing can be said derogatory to their character, were not chosen by the votes of the regularly elected dole gates, but by a mob of drunken men shout-ing and hooting and hissing as the occasion required. He is a candi-date to succeed himself, as is also his brother-in-law and present deputy, William S. Leib. The other candidate is James Mc-Elhenny, of Mahanoy City. The third-term argument is used against Deegan. It is be-lieved that the latter will retire in favor of Leib. There are times who believe that McElhenny will win out. Location and nationality are both in his favor, and his huntileg qualities would materially assist in Deputy of the second secon

The British Government Supports Its Investors and the Washington GovernmentWill He Urged to Take a Sim Har Stand For the Brice Concessions

New York, July 14 .- A business alli ance of American and English capital ists has been recently formed which is of unusual interest and importance because of the leading positions held by these men on both sides of the At-

lantic; because of the many millions of dollars involved in it; because the United States government is about to be asked to give the compact officia sanction and moral support; because England has already formally approv ed that, and because the field of its operations is beyond the jurisdiction

of both nations. Announcement of this alliance was made yesterday by F. W. Whiteridge, of the firm of Cary & Whiteridge, who now fills the place left vacant by the

death of ex-Senator Calvin S. Brice as chairman of the executive committee of the American-China Develop-ment company. The company is one party to the agreement and the other is the British and Chinese corporation.

This makes a combination of the mo powerful capitalists in the world. The field of their activities is China.

The concessions which ex-Senato ure harmony and a fair distribution of the Brice secured from the Chinese gov ernment for the American-China De velopment company consist of the righ to construct a railroad 750 miles long, from Canton to Kankow, exceedingly valuable coal mining concessions, and other industrial franchises of less in-

is only apparent. The American company's engineer, W. Barclay Parsons, of this city, has completed the survey of the railroad line from Hankow to Canton, and an agent of the syndicate is now in Shanghai. He reports that the ne-gotiations at Peking have reached a critical stage, and that there is a dis-position on the part of the Chinese government, represented by Sheng Ta-jen, director of railways, to avoid fulfilling its part of the contract. This is the cause for appealing to our government for moral support. Mr. Whiteridge asserts that Lord

Salisbury has already instructed the British ambassador in China to treat the contract secured by the American company, and shared with the English company, as if it were a British con-

REPUBLICAN HARMONY

The Republican convention on Monday will be in direct contrast to that of our friends the enemy. It will be a harmonious gathering, and a vertible love feast. Upon this point the Republican leaders have agreed.

The election this fall is likely to be a battle

on different lines that will be fought out on different lines than that of last year. The judicary will be the leading issue, and the Republican leaders will force their adversaries, no doubt reluctantly, to make the contest along those lines. This will place the Democrats on the defensive. There are hundreds in the ranks of the latter party who are honest in the belief that the Republicans of the county are

entitled to at least one of the four Judges. Then, again, there are other Democrats who are not yet willing to reward the traitors of 1806, and will support the Republican juditary nominee and perhaps the entire ticket. With the slogan, "non-partian judiciary and minority representation," the Republi-cans can ill afford to make a mistake in the choice of a nominee. The leaders realize

this and have already harmonized their differences for the time being and will nominate 7-14-21 their strongest candidate. Ex-Judge Koch,

they realize, is the most available man thus far announced. An informal conference of Martin Murphy, of Lost Creek, a driver at several Republican leaders, representing both Packer colliery No. 5, was squeezed yester-factions of the party, was held yesterday factions of the party, was held yesterday when it was mutually agreed to bury the hatchet for at least twelve months and work together for party success.

The Democratic press is trying to force Mr. Brumm as a indicial aspirant, but their

efforts are looked upon more in the nature of a joke than anything else. Mr. Brumm is not a candidate, and neither will be be. He has aspirations in another direction, which will materialize later on, after the November election. There are only two candidates for the judiciary-Hon. E. H. Koch and David 2. Henning, Esq., both from this place, with the chances in favor of the former carrying he majority of the wards in Pottsville. Out

ide of the county seat Koch will lead Henn ag without much difficulty. An element of the Republican party that opposed Koch last year have already given assurances to his friends that they will give him their hearty support. He should have very little trouble in securing his election by a handsome

ajority this year, and that will carry with t the success of the entire ticket. The Judgeship disposed by the convention.
