dike country, it seems remarkable, in deed, that almost no attention at all is paid to the indubitable evidence of sented daily by returning miners. Everybody knows at present what two years ago was only rumoredthat gold by the horseload lies not deeply buried by the great northern river, and yet there is no wild rush of fortune bunters, and the occasional short paragraphs into which the papers compress the successes and failures of individual miners are all that the public demands. The fact is that the Klondike was robbed of its "boom" by the war with Spain, and its chance of being a sensation was then cut off, prematurely and forever. This was probably fortunate for Alaska, and certainly fortu nate for hundreds of men of small physical and financial resources who would have been carried north if the wild rush had continued, but who can easily resist such temptations as the new fields, now thoroughly understood, continue to present.

Chandler on Trusts.

Senator Chandler, of New Hampshire, has been talking to the newspapers on Havemeyer, the Sugar King, and on trusts in general. The Senator is always practical and levelheaded in what he says and does. He is probably the only Republican member of the Senate who has strained relations at the White House.

He designates Havemeyer as a plutoeratic Democrat, who is willing that the Republican party shall remain in power, provided it protects the trusts. His discourse before the Industrial Commission, in which he put rth the assertion that "a protective in tariff is the mother of trusts," was is no change in the condition of those intended, of course, as a threat against the Republican party. "If last evening with fever symptoms. you don't protect trusts, especially There is talk about establishing a the Sugar Trust, we will destroy the general quarantine about the post. The tariff." That threat will not scare the Republican party.

Havemeyer is a multi-millionaire Democrat who cannot influence votes by his money. The Republican party, says Chandler, is not afraid that party capital can be made against the tariff on account of trusts. These exists everywhere, all over the world, in these latter days-in free trade as well as in tariff countries. He says :

"The Republican doctrine, as it will be enunciated at the next National struck by lightning. onvention, which will renominate Mr. McKinley, is that it is unnecessary to destroy any industry in this country in order to restrain trusts. want home industries and don't want trusts. In order to maintain the home industries we must have high tariff duties against the cheap labor and the cheap products of foreign countries. The mainten-ance of the tariff as an American doctrine was settled beyond peradventure by the election of McKinley 75- 1896 and the enactment of the Dingley bill. We are not going to destroy the tariff as a means of checking trusts,

Trusts can be checked easily and do it by suitable laws. These huge and dangerous corporations can only be created by state legislatures, and the same legislatures which create them can destroy them, or limit their functions. "Congress can control or destroy," says the Senator, "transportation trusts and some others, and state legislatures can do the rest. Therefore, I repeat that there is not tariff duties which protect industries save him. in order to destroy trusts in the product of those industries. Populistic Democrats have raised this hue and cry against them because they would like to destroy the tariff and trusts both, Mr. Havemeyer wants to maintain trusts and threatens to destroy the tariff sincerely, but only because he wishes to force the Republican party to maintain trusts, which it will not do."

"Trusts." said the Senator, in conclusion, "will not be a political issue, because both parties will denounce "them. It will remain for the voters

WAGE SCALE SETTLED.

A Gratifying Increase in the Wages of Tin Plate Workers. Chicago, July 14.—The officers of the American Tin Plate company and the wage committee of the Amalgamated Association of Iron and Steel Workers agreed on a wage scale yeserday. The scale grants a straight norease of 15 per cent. The increase terday. takes effect July 1, and is to be the minimum scale for the year ending June 30, 1900. At Wednesday night's session bars instead of billets, and a ratio of one-seventh instead of onefifth was practically decided on as a basis for figuring the scale of wages. This was abandoned at yesterday's session, however, the scale as adopted being based on \$425 as the selling price of a 100 pound box of coke tin plates. On each 10 cent increase in the price per box 2 per cent advance on the scale as adopted will be paid, while for each 10 cents decrease a deduction of 2 per cent will be made. Over 30,000 tin plate workers are benefited by the increase. All works will resume next Monday.

Colorado's Industrial Conditions. Denver, July 14.—Deputy State La-bor Commissioner Smith was examined yesterday regarding industrial condition in Colorado by the sub-committee on mining of the United States indus trial commission. He declared that the economic effects of strikes on society at large were good, in spite of the sufferings entailed, but also expressed opinion that the intelligent use of the ballot is better than strikes for imnediate results. Mr. Smith considered the eight hour law just, and favored compulsory arbitration. He said that on an average 25 per cent of the la-Trusts can be checked easily and boring people in Colorado were idisabsolutely if the people and their all the time, and yet higher wages legislatures and Congresses wish to were paid there than in any other do it by suitable laws. STRIKE RIOT IN BRIDGETON.

Imported Non-Unionists Left Town at the Expense of Unionists. Bridgeton, N. J., July 14.—The arrival of 15 non-union glass blowers here yesterday was the cause of an outbreak on the part of the strikers. The strangers came from Indiana on a train over the New Jersey Central road, and two women accompanied the party. They were met at the station by a large crowd of strikers, who immediately stormed the train and captured the non-union men. A lively fracas ensued, during which many blows were exchanged. The glass in the doors and windows of the car in which the non-unign men were riding was shattered, and a back in waiting at the station was wrecked by the strikers.

The non-union men were finally induced to accompany the strikers to the latter's headquarters. The non-uninists were sent away by the strikers on a later train. Several of them, the strikers say, have been here before and were sent away in the same man It is said they come simply to get money from the union as an inucement to leave.

INDIANS RESIST DEPUTIES.

Overpowered by Numbers, the Officers Retire For Reinforcements. Edgement, S. D., July 14.—Swift lear, a Sloux Indian, and eight wagons with several bucks resisted arrest Buck creek, Wyoming, for killing game contrary to law. Amos Dem-ming, deputy sheriff of Converse county, and posse left Lusk on Wednesday with warrants for the arrest of the Indians, and overtook them at Buck creek yesterday morning. After reading the warrants the Indians refused to go with the sheriffs and drew a line, and told him if he crossed the line there would be war, and backed it up with their Winchesters. There was a moment of suspense, the deputies being clearly out of it, as the Indians were decidedly in the majority. B outnumbered, the sheriff went Edgement to get help and papers for the arrest of the Indians in South Dakota, as they crossed the line. Deputy Sheriff George Miller, of Edgemont, went out with them this morning with

an increased force. Sheriff Demming telegraphed the In-dian agent at Pine Ridge to have a ing I read about Doan's Kidney Pills so force of Indian police go out to inter-quickly relieving other sufferers and I procured a box from Kirlin's drug store. I did the Edgemont and Wyoming posse, not use the whole hox before the backache and it is expected that the Indians will be overtaken somewhere near the agency. The Indians had traveled over 60 miles yesterday, but their ponies are still seemingly as fresh as ever, al though the deputies are certain that they are nearly played out. The Indians went through the sheep herd of L. S. Tubbs last evening and stole all the herders' bedding and food. William Brack lost everything he had.

> Her Fortune to Her Preserver. New York, July 14.-Mrs. Maria Elizabeth Cleveland's fortune is to be distributed in accordance with wishes expressed in her will, by which she bequeathed the bulk of her estate "to my beloved friend, Marvin F. Scaife, of Pittsburg, who, at the risk of his own life, saved me from accidental drowning." Her will, a contest over which has been pending in the surrogate's court for years, was yesterday admitted to probate. Scaife's portion of the estate is valued at about \$100,000. The income is to be paid him for life, and his children are to inherit the money. Mrs. Cleve-land also left to William F. Scaife, his brother, some bric-a-brac, articles of vertu and furniture.

PLEURISY QUICKLY CURED.

I have suffered the most excruciating pains in the side. The Doctor said it was Pleurisy. The Brazilian Balm gave me almost instant relief when everything else failed, and permanently cured me. I took it and had some warmed and rubbed on strong.

ATON'S TANSY PILLS

Dr. Jackson points to the startling fact that there are now 20 million Catarrh victims in this country and the number rapidly increasing. It has already become the National Disease. Are we to become a nation of Catarrhites? It looks like it.

Catarrhites? It looks like it.

The Aboriginal Ladians are said not to have known the disease. That proves it is not caused by our climate and must have been imported. Its growth was slow but persistent. Forty years ago there were less than 30.000 cases in the U.S., to-day there are 20 million. Soon there will be 30 million. Where is it to end? Shall we not awake till it has statened its fangs on every man, woman and child in the land? How shall we prevent it unless we take immediate and vigorous steps to stamp out the plague? This putrid disease knows no sex, no class, no station. It is everywhere. A germ (microbe) disease it spreads by contagion. The carron breath and expectoration of the poor victim are loaded with these microbes. Others breath them in, they find lodgement and never release their hold till the victim lies down in death, unless every microbe is killed. But can they be killed? Yes, but not by any "blood mediclase." No Catarrh germ was ever found in the blood. The trouble is local and must be treated locally. A balsam has been discovered that is sure death to the Catarrh microbe, making a radical and permanent cure. It is Brazilian Balm. It has cured tens of thousands in the post 15 years. It also cures all the troubles caused by Catarrh, as Sorr Throot, Old Coughs, Bronchtius, Ashma and Lung troubles. The swallowing of the Catarrh buts unkes the Stomach raw and ulcerated. The Brazilian Balm soon makes a radical cure of the Stomach and alimentary canal. It is the cheapest remedy on the market, a \$1.00 bottle containing a whole month's treatment. As all sufferers with Catarrh and Ashma have run-down systems we will till january next put a month's treatment of both. Now is the time to treat your Catarrh. Do not delay, Ask your druggist and take no substitute. If he will not get it, send direct to us. B. P. Jackson & Co., M'rg. Chemiste, Indianapolis, Ind.
