An advertisement in a newspaper finds access to the homes of the people. "In my opinion, we should nominate a man who would be willing to say to his party something like this: When my party is able, in Congress, to pass a free coinage bill, I will not veto it, but will permit it to become a law. Whatever my opinions may be, I believe the combined wisdom of the men of my own party in Congress is better than mine. The gentlemen who now control the Democratic organization in this county and who dictate the nominations, may think the voters of that party are short of memory, but they will find that this bold attempt to deceive them will only make the defeat of the party more crushing in November. Far better for them to assume the boldness of Bryan, their leader, and make an honest fight along the stress on the alleged fact that no one lines of their convictions, than attempt to secure the offices by the skulking methods of the Indian.

In the light of recent eyents, the Schuylkill county Democrat seeking office is not supposed to have convictions, nor an opinion that he dare express publicly.
