Five Men Killed in the Philpot-Grif-

fin Fend. Louisville, July 18.—A special from London, Ky., tells of a report reaching there of the outbreak of another feud in Clay county, by which five men lost their lives yesterday. The dead are said to be: Robert Philipot, Ed Fisher, Aaron Morris, Jim Griffin and Hugh Griffin. These fatalities resulted from pitched battle fought near Goose creek, three miles from Manchester

The feud dates back nearly two years. On Christmas, 1897, James Philpot was killed by Asron Morris, but before he died he shot and killed Will-iam Bundy, a friend of Morris. The Morrises and Griffins were closely fillated. Since then the feeling be ween the two factions has been very bitter, and it has been aroused recently the White-Baker hostilities. Philpots, which are the strongest facin the mountains, numbering about 750 voters, openly espoused the cause of the Bakers, while the Griffins took sides with the Whites.

The story that reaches here from Manchester is to the effect that Rob Philpot was arrested yesterday by Deputy Sheriff Wash Thacker. It is said that while Thacker was taking Philipot's bond the latter was shot from behind by a member of a crowd that had gathered. This precipitated a general fight with Winchesters and revolvers, which was participated in by George, Granville, Robert and Peter Philpot and Ed Fisher on one HABITUAL CONSTIPATION ide, and Aaron Morris, Hugh, Jim and ITS BENEFICIAL EFFECTS. Green Griffin on the other. The battle raged flercely for ten or fifteen minutes. When it was over it was found that the five men mentioned above had been killed outright, three of the belligerents were seriously wounded, while Pete Philpot was the only one on either side to escape injury. Granville Philpot is said to be one of the most seriously wounded. He is a Union veteran, having lost a leg at Stone River, is an ex-member of the Kentucky legislature, and is said to have killed three or four men. Ed. Fisher was about 23 years old, but was said

CLEVELAND STRIKE RENEWED. The Retention of Non-Unionists Pre-

cipiteted the Trouble Cleveland, July 18,-The inaugura-on of a second strike by the employes of the Big Consolidated Railroad com-pany was a complete surprise to the public yesterday, and nearly so to the ccapany. Ever since the men return-ed to work three weeks ago, under an agreement prepared by a committee of the city council and signed by representatives of the strikers and of the company, there had been frequent complaints on the part of the men that the ompany was not living up to the agreement. Several conforences were held, the latest about a week ago, and was then announced that everything was catisfactory, or would be as s. on as the company had been given ample time to adjust its schedules and arrange the runs.

The presence on cars of the nonanion men who were retained after the settlement of the strike was sill a bone of contention, however, and a crisis was reached on Sunday, when, as is claimed, a number of union men were discharged for refusing to go out on cars with non-union men. ing followed Sunday night, and at 3 clock yesterday morning the decision o strike was reached. All the lines vere tied up from 5 o'clock until after 8, when the operation of the Euclid avenue line with non-union en under police protection was undertaken. Cars were run at five minute intervals on that line until even-ing, but not attempt was made to move on other lines.

Henry A. Everett, president of the company, issues a statement in which he says the terms of the agreement with the strikers has been strictly adhered to, but that it was impossible to inaugurate all the reforms promptly because of the continued interference with the non-union crews, and he holds the union men directly responsible for this. He attributes the present strike Atlantic League: At Lancaster—to a feeling of disappointment on the Reading, 6; Lancaster, 4. At Wilkesbarre, 1.

Catarrh victims in this country and the number rapidly increasing. It has already become the National Disease. Are we to become a nation of Catarrhites? It looks

Catarrhites? It looks like it.

The Aboriginal Indians are said not to have known the disease. That proves it is not caused by our climate and mint have been imported. Its growth was slow but persistent. Forty years ago there were less than \$0.000 cases in the U.S., to-day there are 20 million. Soon there will be 30 million. Where is it to end? Shall we not awake till it has fastened its fang on every man, woman and child in the land? How shall we prevent it unless we take immodiate and vicorous sleps to stamp out the plague? This patrid disease knews no sex, no class, no station. It is everywhere. A germ (microbe) disease it spreads by contagion. The carron breath and expectoration of the poor victim are loaded with these microbes. Others breath them in, they find ledgement and never release their hold till the victim ites down in death, unless every microbe is killed. But can they be killed? Yes, but not by any "blood medicine." No Catarrh germ was ever found in the blood. The trouble is total and must be treated locally. A balsam has been discovered that is sure death to the Catarrh microbe, making a radical and permanent cure. It is Brazilian Baim. It has cured toos of thousands in the past 15 years. It also cures all the troubles caused by Catarrh, as Sore Throat, Old Cougha, Bronchilis, Ashma and Liang troubles. The swallowing of the Catarrh pas makes the Stomach raw and ulcerned. The Brazilian Baim soon makes a radical care of the Stomach and allmentary canal. It is the cheapest reamedy on the market, a \$1.00 bottle continuing a whole month's treatment. As all sufferers with Catarrh and Ashma have run-down systems we will full Jansary next put a month's treatment of both. Now is the time to treat your Catarrh. Do not delay, Ask your druggist and take no substitute. If he will not get it, send direct to us. B. F. Jackson & Co., Mifg. Chemists, Indianapolis, Ind.
