MISSING BOY.

Searching Parties Looking for a Youth of Trenton.

Paul Sobieski, aged 19 years and a son of John Sobieski, left his home on Sunday, last, to pick blackberries and has not been seen since. When he left home he was accompanied by several boys, but they became separated on the mountain. The boy is subject to falling fits and it is believed he was attacked while on the mountain and has since died from hunger and exposure, or that he is too feeble to make his way home. Yesterday and last night a searching party of fifty men made a hunt for the boy over the mountains as far as Green Mountain, but failed to get any trace of him. To-night a larger party will make a search in the vicinity of Lofty.

Colliery Closed.

The prompt action of Mine Inspector Maguire in ordering the west side of the Williams colliery, near Potomac, to be closed yesterday, has prevented a terrible accident. The inspector found that the air was heavily mixed with gas, and in one lift it was near the explosive point. He considers the mine unsafe, and says it must not resume until it is put in safe condition. The mine officials are indignant. Over 900 hands are employed.

PURE FOOD MOVEMENT!

Two Arrests Made by a Special Agent This Morning.

MORE ARRESTS ARE TO FOLLOW.

A Crusade is to be inaugurated against Local Milk Dealers and Farmers Who Bring Milk to Town—Gan-pies Procured Are Now Being Analyzed.

The dairy and pure food commission of the Department of Agriculture has been operating in this town, through its special agent, Robert M. Simmons, of Phoenixville, and two arrests were made this morning. Several other arrests are to follow in a few days, Mr. Simmons states, including several farmers and other dealers in milk, the samples of milk having been procured in town.

The cases this morning were before Justice Shoemaker and hinged upon the following information:

"Robert M. Simmons, being duly sworn, deposes that he is a Special Agent in Charge of Agriculture of Pennsylvania, a long under one William Ameliewicz, on East Centre street, in the borough of Shenandoah, had in his possession for sale, offered for sale, and by his wife sold, a quantity of a confectionery package of pepper, for which this defendant paid her ten cents, and she represented it to be pure pepper, and which contained foreign matter contrary to the Act of Assembly of June 26, 1895, etc."

Ameliewicz was arraigned and Mr. Simmons produced a certificate of analysis showing that the package he purchased contained not less than 75 per cent. of adulteration, and that the substance was composed of crocker and cocoon dust with a mixture of cayenne pepper.

When asked how he became possessed of the pepper Ameliewicz said it formed part of the stock of a grocery store he purchased from Charles Radziewicz in December, 1897. Mr. Radziewicz was present and Mr. Simmons asked that a warrant be issued for his arrest for selling the adulterated Ameliewicz. The warrant was prepared and executed.

Following this there was a private consultation between Ameliewicz and Justice Shoemaker and Mr. Simmons, the latter said it was not his desire to punish the two first named, but to reach the headquarters from which adulterations are issued; but if these parties could not be traced and a case established against them, the persons under arrest would have to stand the penalty. The minimum penalty is \$50 fine, or 30 days imprisonment, or both. The maximum is \$100 fine, or 90 days imprisonment, or both. The conference resulted in an understanding by which Ameliewicz and Radziewicz are to pay a \$50 fine and the costs, each party's share being \$25, and the payment to be made within ten days.

In subsequent conversation with a reporter Mr. Simmons stated that several other arrests might be expected soon, especially among milk dealers. He has already secured a number of samples of milk and had them analyzed. They contain boric acid and over 20 per cent. of water. The boric acid found in the samples is put in the milk for the purpose of preventing it from becoming sour, but it is very injurious to health, especially when given to children as food. Boric acid, salicylic acid and formaldehyde are the ingredients usually used for the purpose stated, either of which, when used in milk, immediately stops fermentation and, therefore, when entering the stomachs of infants and children, it produces such diseases as the stomach, cholera infantum. Mr. Simmons says agents are traveling through the country offering the acids referred to farmers and milk dealers for the purpose of preserving their milk. By actual test of these goods it has been found that three drops put into four ounces of milk will keep it in warm weather without fermenting, or souring. Mr. Simmons says he prepared a sample of milk five days ago and this morning it was as free from souring as upon the day the purchase was made.

He was made a Corporal last November. Harry Walters, Jr., enlisted in Shenandoah August 5, 1898, and was also retained as a clerk. He is a valuable man and has many friends. Harry V. Hafner, of Shenandoah, who served in the drum corps in the Fourth Regiment of Pennsylvania Volunteers during the recent war, re-enlisted at Allegheny on January 9th, last, in the 15th Infantry. He was also retained as a clerk. He is an intelligent and popular young man and promises to rise in the military profession. The senior officers in command of the station are Major E. A. CHANGES IN JR. O. U. A. M.

The Amendments Passed at the National Council of the Order at Minneapolis.

The session of the national council of the Jr. O. U. A. M., which has adjourned after a history making session at Minneapolis, passed a large number of amendments which will be interesting to the 4,000 members in this country. Probably the most important one is that referring to the various state councils, the question of ratifying the action of the National Council in changing the name from Junior Order United American Mechanics to "United Americans." The various subordinate councils in the United States have voted upon this proposition, on several times, but has always been defeated by a decisive vote in this state, which founded the order and has 57,000 members. The change of name will undoubtedly be ratified this time under new laws, as each state will be recorded as one vote only, and in the national council the vote for a change was 118 yeas to 21 nays, which came from Pennsylvania, New Jersey and Virginia, all the other states voting unanimously yes. A beneficiary rank was added to the order and the cost of insurance will be announced as soon as three of the most prominent actuaries in the United States have reported on the cost of life insurance. The age for members has been changed from 16 to 18 years and upwards.

The term of national representatives was reduced from five to three years and the basis of representation changed so that Pennsylvania will have eleven members in the National Council instead of twenty-nine, as at present.

The order has been in need of a new ritual and a three-degree ceremony was exemplified during one of the evening sessions. The work was highly commended by all who saw it, but as a large number of representatives were favorable to a one-degree ritual the adoption of the new initiatory work was postponed for one year and a prize of \$500 offered to the member writing a ritual which would be accepted at the meeting next year at Detroit.

As a well known member of the order said: "The order has been hindered in its patriotic work for many years by its name, as a great many eligible people thought it was a boy's order on account of its prefix, while hundreds of others thought it was a labor organization on account of the word 'mechanic' being a part of its name. The order is purely patriotic and beneficial. It is not an anti-Catholic order, as is supposed by many, but takes in all classes and creeds, with the restriction that they must be American born."

Another Serious Mine Explosion.

Wilkesbarre, Pa., July 25.—A heavy explosion of gas occurred in No. 4 shaft of the Kingston Coal company yesterday, by which two men were badly burned. Walter Duncan, a company hand, was burned about the face and head. His condition is said to be serious. Michael Pitchinski, a miner, was frightfully burned about the body. He will die. David Morris, a driver boy, was cut about the head by flying coal and rocks. The slope was badly wrecked.

INGERSOLL FUNERAL!

The Body of the Famous Orator Will Be Cremated.

THE FUNERAL WILL BE PRIVATE.

Dr. John Clark Ridpath will deliver an Address and O. J. Smith, a Warm Friend of the Orator, will Read Selections From His Writings.

New York, July 25.—Simple funeral exercises over the body of the late Robert G. Ingersoll will be held at Walsaton, the Ingersoll summer home at Dobbs Ferry, at 4 o'clock this afternoon.

Dr. John Clark Ridpath, who was for many years a close personal friend of Colonel Ingersoll, will read the eulogy delivered by Colonel Ingersoll upon his brother Clarke. Dr. Ridpath will also read "My Creed," the last poem written by Colonel Ingersoll, and will afterward make a brief address. Major O. J. Smith, of Dobbs Ferry, a warm friend of the great orator and lecturer, will read other selections from Ingersoll's writings.

Early tomorrow morning the family will accompany the remains to Fresh Pond, Long Island, where the body will be cremated. They will bring the ashes back to Dobbs Ferry, and they will be deposited in an urn which will be surmounted with a bust of Colonel Ingersoll. The only music that will be heard at the service will be "Siegfried's Funeral March."

The mail yesterday brought over 800 letters of condolence and telegrams continue to pour in from all parts of the country. Among those received yesterday was one from Julia Marlowe, the actress, now in London. Another was from Rev. R. H. Pullman, a personal friend of Colonel Ingersoll.

The funeral will be private, and it is expected that only those who were personal friends of long standing will attend, and representatives of societies that believed as did the late Colonel Ingersoll.

Mrs. Ingersoll is so ill that she is confined to her bed. Colonel Ingersoll's daughters, Miss Maud and Mrs. Walsaton H. Brown, are both on the verge of prostration. The grief stricken wife and daughters, who share the belief of the dead agnostic, have begged only to be allowed to keep the body with them as long as possible. They have repeatedly refused to discuss the final disposition of the remains, and it was not until yesterday afternoon that they permitted Clinton B. Farrell, brother-in-law and secretary of Colonel Ingersoll, to complete the arrangements.

Boy Manifested 'Nabbed' Wrecks.

Wilkesbarre, Pa., July 25.—At Ransom, a small station on the Lehigh Valley railroad, five men went on this city's local passenger train from Wilkesbarre arrived at the station last evening about the time the Black Diamond express from the west was due. Among the passengers were Mrs. W. L. Gerton, the wife of a farmer, and her 5-year-old son Fred. The mother carried the boy in her arms and started to cross the abandoned track just as the express train, running 40 miles an hour, came thundering along. The boy was thrown under the wheels of the big locomotive and ground to pieces. The mother was hurled in the air and picked up unconscious. It is thought she will recover.

This furnace has been idle since the financial depression of 1893. The company has been reorganized, and is composed largely of eastern capitalists. When in full operation the furnace will employ 400 to 500 men, and the annual capacity is about 45,000 tons.
