## UNEASINESS IN SAMOA.

The Attitude of the Natives Far From Reassuring.

COMMISSIONERS WELL RECEIVED.

But Several Fights Have Occurred Be tween the Supporters of the Rival 7.Ings-Chief Justice Chambers Left in Disgust, and is Home Again.

San Francisco, July 29.-Samean advices under date of July 14 were re-ceived yesterday by the steamer Moana, which vessel brought among its pas-pengers Chief Justice Chambers.

The situation in Samoa is one of great uneasiness, the attitude of the natives being far from reassuring. Several fights have occurred in different parts of the islands between supporters of the rivals for the kingship, and several natives have been killed. Nothing much seems to have been accomplished by the high com-mission since arms to the number of 400 were surrendered by the contend-ing factions. Chief Justice Chambers, being dissatisfied with the support extended to his court by the commis sioners, left for Washington. S. Torch went to the scene, but quiet had been restored.

The chief justice issued orders to certain towns in Sanaii to appear before the supreme court in certain civil cases where the judgment of the court had not been complied with, Chief Lanatia ordered them not to obey, telling the towns to pay no attention to the orders of the court, which were only words on paper. Some towns did not appear, while from the remaining ones only Malietoa men appeared. The Matsafa men openly defied the court. The chief justice then asked the com-missioners to support his authority with warships if necessary, and on their refusal he decided to leave

After the return of the British warship Torch from Satafa the Malleton men there took offense because the persons who attacked Chief Tanmula' house on July 4 had not been punished and made an attack on some of the followers of the rival Chief Suatele, one being killed and several wounded, two of the latter being Suatele's adopt-

But acting on the advice of his chiefs, he decided to remain in Samoa,

President Solento took office on June 10 and immediately had trouble with Vice King Tamasese and his chiefs, who considered that, although Tanu had abdicated the kingship, they still constituted a Samoan government.

The commissioners were appealed to and they requested the chief justice to see the Malletoa chiefs and try and settle thing amicably. This they did, and the chief left Mulinuu Point and the residence of the late president. Dr. Solf occupies the residence now at rental. In an Interview Chief Justice Cham-

## RACE PROBLEM SOUTH

Discussed by Governor Candler of Georgia.

URGES RESTRICTED SUFFRAGE.

He Declares That the Baltot Should Be Entrusted Only to the Virtuous and Intelligent-"Fools and Fanat-Ica" Encourage Negro in Outlawry.

Atlanta, July 29.-Governor Allen D. Candler, since the Bainbridge series of lynchings, has been asked by newspapers in various parts of the country to give his opinions on the race question in the south, and in reply to one of them the governor has fully and freely expressed his views as to the cause of the conflicts and the remedy therefor. The governor believes the present day cause of the uprisings is the intermeddling with the relations of the whites and blacks in the south by "fools and fanatics" who know nothing about the situation, but think the whole trouble dates from the day of emancipation. Governor Candler be-lieves a restricted suffrage will remedy the evil; that the ballot be given only the intelligent negro. As to the dis-position to be made of the large per-centage of illiferate negroes the governor makes no suggestion.

The governor begins his paper by referring to the emancipation, con-trasting the treatment of negroes by the white people of the south before the war to that of the "carpet baggers" immediately after. He says: "Before the ballot was thrust into "Before the ballot was thrust into the hands of the negro, unprepared for it and utterly ignorant of its sanctity and of the responsibilities of citizen-ship, notwithstanding he was a slave, he was happy and well contented to occupy that subordinate place in so-ciety to which his nature and his con-dition assigned him. lition assigned him.

But after his emancipation came his enfranchisement, and with his enfran-chisement came a horde of carpet baggers, penniless adventurers, without principles or patriotism, who charge of him when his former master and protector, with whom he had lived for generations on the most friendly and often even on affectionate terms was decitizenized.

"These carpet baggers, calling them-elves Republicans, but really only a and of marauders, held together by the cohesive power of public plunder, swarmed all over the south like the locusts in Egypt of old, and falsely taught the negroes that the southern white men were solely responsible for their enslavement and were their worst and only enemies.

"These evil teachings had but little permanent effect upon the grown up negroes, but upon the children, the generation which has grown to man-hood since that time, the effect has been most baneful. These were the prime causes of the allenation of the

'A more immediate cause is the perpetual intermeddling with the rela-tions of the race in the south by fanates and fools who know nothing about the situation. They write incendiary letters to turbulent negroes all over the south, advising them to arm themselves with Winchester rifles, and for every guilty rapist who pays the pen

Governor Candler says the intermeddlers of the north do not represent a respectable minority, and that the law less and criminal negroes in the south

"A few abandoned, reckless, crim inal negroes are responsible for all the rapes and lynchings that have occurred and their influence on reaching.

'Still, it is true that rape, the crime which nine times out of ten is the cause, immediate or remote, of lynching, is as much deplored by the better class of negroes as by the better class of white men. But as because some negroes commit rape the whole race suffers, so because some white men lynch rapists all the white people of the south are abused.
"It is a singular fact, too, that the

pharisaical fanatics who have most to say about 'Apaches,' 'southern barbarians,' etc., always stress the atrocity of the lynching, and I have never yet heard of one of them saying or doing anything to discourage the crime

which provoked it.
"Indeed, in some cases, instead of denouncing the crime they have as-sailed the character of the victim of the brute's lust, which not only encourages bad negroes, but exasperates the friends of southern womanhood. "The ballot was put in the hand of the southern negro when he was ut-terly unprepared for it. He regarded it as only an article of merchandise to be bartered away to the man who would nav him the most for it, whether drink of whisky or a dollar or two. Unscrupulous men of all parties con-tend for this vote and hug the negro around the polls and drink whisky with him. He is forgotten after elec-tion, and like a spolled child becomes resentful and vindictive."

In speaking of the remedy Governor

Candler says: "In Georgia for a generation there has been scarcely a negro between 6 and 18 years of age who has not had access to a free school. As a consequence illiteracy has decreased among them from 85 per cent in 1870 to 40 per cent in 1899, and yet it is a startling fact that crime among them has increased in about the same proportion that illiteracy has decreased.
"There is, however, another sort of education which can in time greatly relieve the situation. This is moral
