"Early in July an 'old soldler' entered the home for a short rest, and soon afterward appeared at the dispensary, where he informed the physician in charge that he was but recently from Santiago, via a transport to a northern port; thence he started for Manila via San Francisco; beat his way to the home on a freight train, and entered with his baggage. He complained of dumb chills and fever, and was pre-scribed for. He mingled freely with the inmates of the home and a short time ago disappeared. This is the possible cause of the outbreak.

Brooklyn Tailors on Strike. New York, Aug. 1.-The garment workers in the eastern district of Brooklyn have followed the example of those in the Brownsville district, Nearly 2,500 members of the Inde-pendent Garment Workers' union ent out yesterday. They demand a ten hour working day, operators to be paid \$18 a week, pressers from \$12 to \$15 a week and finishers from \$9 to \$12. The tailors struck two years ago, and the contractors compromised and practically agreed to grant the demands of the men. The strikers say that the contractors carried out the agreement for only a few months. In other parts of greater New York the strike is apparently drawing to a close, and in the way the strikers hoped for.

INSURGENTS WELL RECRUITED.

Weil Fed. Well Clothed and Better Disciplined-A Hundred Thousand Seldiers Should Be on the Fighting Ground by November.

San Francisco, Aug. 1 .- An officer of one of the volunteer regiments in the Philippines has written the following etter, dated Manila, June 27, for publivation:

The arrival of the rainy season finds the insurrection as vigorous as it has been any time since the outbreak. The insurgent armies are well recruited, notwithstanding their heavy losses, and are well fed and clotsed. They have profited by their five months of warfare against the Americans. They are fast adopting American tactics and are becoming better disciplined and more skillful in the use of their

weapons every day. One hundred thousand soldiers should be here ready for business by the beginning of the dry season in November. Garrisons could then be stationed at strategic points. A con-tinuous warfare cannot be carried on

in this enervating climate by the same

troops. Frequent reliefs are necessary. Troops should not be kept here longer than a year. Men from a north-ern climate retain their native vigor for six or eight months after arrival here and then begin to succumb to the various aliments of tropical weather. various aliments of tropical weather. This is exemplified in the cases of the volunteers and those regulars who have been in the Philippines since last summer. The most of them are sat-urated with malaria, many have rheu-matism, and all are greatly debilitated. They are unfit for further duty, and recuperation seems slow and unsatis-function. As it is with those of the factory. As it is with them, so it is likely to be with their successors.

The eight million people of the Phil-ppines are as highly civilized as the welve million of Mexico. If the Amer-can people will imagine the United States to have acquired Mexico against her will and to be engaged in an attempt to put down a universal rebel-lion of Mexicans with 20,000 troops, they will have a duplicate picture at close range of the situation in the Philppines, with the exception that the dimate of the Philippines is from 10 to 15 degrees more tropical than that of Mexico.

Window Ginss Workers Convene. Philadelphia, Aug. 1.-The special convention of the Window Glass Workers' association opened today at Green's hotel. It is composed of the three wage committees, the executive board and the national officers. No positive information was given out as to what the workers will ask, but it is certain that an advance over present wages will be demanded. President Simon Burns said that no extravagant demand would be made. "We will ask for what we are entitled to," said he, "and will insist that our scale be paid. It will be presented to the manu-

pendent producers and keep the com-bination plants closed until our terms are granted."

Tailors' Strike Nearly Ended. New York, Aug. 1.-The tailors' strike in Manhattan borough seems to be rapidly drawing to a close. Yesterday many employers and contractor signed agreements in accordance with the men's demands, and on Sunday about 800 men returned to work, their employers having agreed to the terms. The men in each shop return to work as soon as a settlement is made. The

An Indian's Murderous Jealousy, Ahmerst, Mass., Aug. 1.--Eugen akaphuer, a graduate from the India Pacaphor, a granute from the initial school at Carillele, Pa., shot and killed. Edith Morell, aged 17 years, at the home of Mrs. J. F. Morell, in South Amherst, last evening. The Indian had been employed on the farm for about a year, and during that time he had wide much attention to the side. The paid much attention to the girl. The murder, without doubt, was the result of Miss Morell's refusal of his atten-tions. The Indian became so jealous that his behavior around the farm was very disagreenble, and yesterday it was found necessary to pay him off and give him his discharge. He returned last evening and killed the girl. Then he started a fire which destroyed the house, barn and outbuildings. The police think he is hiding in the woods and they have begun a search for him In Paty De Clam Released.

Paris, Aug. 1 -- Le Soir announces that Colonel Du Paty De Clam was liberated yesterday afternoon. Noth-ing is yet known of the actual grounds of the acquittal, but it is reported that Du Pate De Clam was exonerated because it was proved that he acted under direct orders from General Gonse and General De Bolsdeffre, against whom severe disciplinary mensures are imminent. If this is con-firmed it will prove that the efforts of the general staff to make Du Paty. De Clam a scapegoat have failed.
