A FATAL KICK. Alfred Owens, a Driver, Meets Death at Packer No. 3 Colliery. An accident which at first appeared to be

surrounded by mysterious circumstances resulted in the death of Aifred Owens, of West Lloyd street, on Saturday afternoon, at Packer No. 3 colliery. The first intimation the officials and employes of the colliery had of the accident was when the mule, which was in charge of the deceased, who was

employed as a driver, approached the bottom of the slope unattended. As this was up usual several of the employes went into the gaugway to learn if the driver had met with an ac ident. They found his dead body lying between the calls of the gaugway. His E. J. Gensemer and T. B. Griffiths the State

neck was broken. The body was removed to the family residence. The manuer in which the driver met his death was a mystery to the colliery officials but a plausible theory was arrived at namely : that when the deceased was on his way out the gangway after delivering last trip of cars to the miners, and while rid

ing on the mule's back, the animal rearest and toesed the driver against the top of the gaugway with such force as to break his neck. There was a wound upon the forchead, but this is attributed to the fall to the rails. Deputy Coroner Cardin has impanelled a jury and will hold an inquest to take testi-mony bearing upon the circumstances attend-

ing the accident. The victim was 25 years old and is survived by a wife and threa children, aged re-spectively three years, two years and ten

eeks. The funeral will take place to-mor-w. Services will be held in the Calvary Baptist church st two o'clock, and interment will be made in the Odd Fellows' cemetery

be elected as alternate, but he was successful.

After the convention adjourned Mr. Moore ande the statement, as the delegates were leaving, that he declined to serve as an al ternate state delegate. County Chairman Charles E. Quall this

afternoon made the announcement of the ap-pointment of a portion of his official cabinet as follows: Peter McCabe, Pottsville, first secretary; Carl Wagner, Pottsville, second secretary; Nicholas Brownmiller, Janitor. The County Chairman has secured cozy headquarters in the Schisslor building, on the second floor. They embrace a suite of four reoms. He says the appointment of the executive committee will be announced in a

few day. Mr. McCabe was formerly Sheriff of Schuylkill county and has always been very prominent in Republican politics of the county.

Carl Wagner was, until recently, a law student in the office of A. W. Schalck, Esq. student in the effice of A. W. Schalck, Esq. Up to the time of the convention there was a spirited contest for the position of first secretary of the centry committee, Charles A. Snyder, Esq., being urged for the position by seven of the ten Republican candidates, bendas all the Republican newspapers of the centry. On the other hand, he was bitterly appetites and, after a few more songs, all hied away to their respective homes. We know

Western ship-ments have some forward as well as the supply State Delegates Elected in the Fourth menta have gone forward as rapidly as could s, both by rail and lake, but in the West the AN ALTERNATE DECLINES TO ACT movement into consumers' cellars has no

been mpid, owing partly to the higher price, as compared with the quotations of last summer. The movement to line points on

the various milroads was of only moderate proportions, while the shipments to Canada have been rather larger than last year. As a consequence of the slowness of the market to take coal, and the inability to carry the entire surplus West, there are large cumulations at the various stocking points and, at tide, much difficulty in having cars

unloaded promptly. To prevent this latter trouble and reduce stocks, the mines will work, in August, on the basis of 3,500,000 tons, which at the present rate of consump-tion, should reduce stocks some 500,000 by Duify, of St. Clair, as his secretary and H. H. Fleisher and W. W. Moore were made the close of the month, giving a small margin with which to begin the Fall trade. Prices throughout July remained firm, The Fourth district is entitled to two state those at New York tide averaging lowe delegates and the names of three candidates were presented to the convention, namely : than at any other hide averaging lower than at any other point, owing to the low quotations made by some of the smaller interests. It is definitely understood, and will undoubtedly be adhered to, that coal already sold and not delivered and accepted or July 31 advances tensor E. J. Gensemer, of Good Springs; T. B.
