CERTAIN Republicans at the county seat can be said to be victims of misplaced confidence. In other words, they have been given gold bricks.

Turny is a belief in Washington that ex-Secretary Alger will win the race for the Senatorship from Michigan. The people at his home look upon him as a martyr.

THE indications are that ex-Congressman Brumm is running the Republican organization. It is pertinent to remark right here that Brumm ran for Congress last year and was defeated, although it appears Chairman Quail has overlooked the fact.

REFERENCE to the estimated production of anthracite in 1899, the Anthracite Coal Operators' Association says that if the August production is kept nearly to 3,500,000 tons, the total on September 1st will be some 28,700-000 tons, leaving, on the basis of 48,-000,000 tons for the year, 19,300,000 tons to be mined in four months. Even assuming the December output at 4,300,000 tons, which would be exceptionally large, there would remain 5,000,000 a month to be produced marketed in September, October and November, It is extremely doubtful if this can be done, because of the continuance of the difficulty to secure sufficient labor and the growing scarcity of cars in 988888888888888888888 which to transport the fuel. The latter trouble is partly owing to the relatively slow movement of the market at the present time, and consequent necessity for bolding loaded cars on the sidings, but even when these are free, grain and other shipments from the West will take many cars now in service. Indeed, there seems good reason for the efforts of the companies to fill their various stocking points to their capacity, for otherwise, especially after navigation is closed, the demand may easily be greater than the ability to supply.

Consumption Cured.

BROUGHT BACK FROM THE GRAVE. Last November Mr. Joseph James, painter, of 325 W. Pearl St., Indianapo lis, Ind., was at death's door with quick ousumption. Wasted to a skeleton; his lungs a mass of ulceration; his death was bourly awaited by his doctor and family. He was kept in a constant stapor with opium. A friend, thinking to relieve his terrible cough, gave him a bottle of Brazilian Balm. Seeing its wonderful effect, the doctor advised its continued use. Mr. James soon after dismissed his doctor, and depended on the Balm alone. His recovery was rapid and complete, and in February he returned to work. His lungs are sound, and his weight greater than at any time in his life. His recovery is regarded as almost a mirscle.

BRITISH GOLD TO CONTROL

English Merchants After the Trade of Cuba and Porto Rico. Chicago, Aug. 8.—"More than \$10,-00,000 of English capital has been in-

vented in Cuban tobacco plantations. English firms control the Cuban tobacco market, and the American importers of Havana tobacco will have hereafter to look to the English for their goods."

James Grantham, of London, a rep esentative of English capitalists, who was in Chicago yesterday on his way to the Pacific coast, is authority for the foregoing statement. He has been some time in Cuba and has just returned from there. Comparatively re-Cuba and Puerto Rico are estimated by him at about \$30,000,000. He said: It is only a matter of a few years till English capital will absolutely control the Cuban and Puerto Rican commercial centers. The Cubans pre-fer to trade with the English to any other nationality, because they speak Spanish, and the English houses grant from 60 to 90 days to meet transac-tions, and also show samples of goods. American houses as a rule demand at least part payment in advance."

Charged With Attempted Wife Murder New York, Aug. S.—Mrs. Annie Kronman was found by her husband, so the latter reported to the police, in their home on Eighth avenue last night unconscious, with two five inch gashes in the back of her head. Beside her on the floor lay a bloody hatchet. The flat was in perfect order, and Mrs. Kronman's jewelry, valued at several thousand dollars, had not been disturbed. There was no evidence of struggle. The woman had evidently been struck down while passing through the private hallway. Mrs. Kronman was removed to the hospital, and up to a late hour had not regained wealthy fruit commission merchant, was arrested, charged with committing the assault. A startling incident of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetitegradually growing weaker day by day. Three physicians had given me up. Three physicians had given me up. Fortunately, a friend advised trying 'Electric
Bitters,' and to my great joy and surprise,
the first bottle made a decided improvement,
I continued their use for three weeks, and
am now a well man. I know they saved my

vices received by the vessel the situation in Guatemala it not nearly so warlike as reported, and a comparatively peaceful state of affairs exists. The government has not been unnecessarily unjust in dealing with political offenders and, though the country is in bad shape financially, there is every reason to suppose that a continuation of peace will adjust matters. There have been no political executions except where conspirators have been caught red handed in the act of trying to cause a revolution.
