SUNDAY'S FATALITIES.

The Bridgeport Motorman Arrested on a Charge of Manslaughter.

THE TRESTLE PERFECTLY SOUND.

Hot the Guard Rail is Inadequate For Such a Structure—The Bridgeport Death List is Twenty-nine, and Mount Desert's Hematoma at Twenty.

Bridgeport, Conn., Aug. 8.—The number killed by the trolley accident of Sunday, when a car plunged into Peck's mill pond, is now known to be 29, while of the dozen injured three may die.

At the south end of the bridge is an earthwork approach 250 feet long, with a three per cent grade. The bridge experts who accompanied the jury said that a car running rapidly over this approach would acquire a springy, swaying motion, because of the elastic properties of the earth.

THE MOUNT DESERT HORROR.

The List of Lives Sacrificed Remains at Twenty.

Bar Harbor, Me., Aug. 8.—A careful examination by divers in the vicinity of the Mount Desert ferry slip, the scene of Sunday's terrible accident, and investigation on shore by the officials of the Maine Central railway and others, seem to indicate that the 20 victims reported in these dispatches are all from that first sent out, save that the woman who was designated as unknown has been identified as Mrs. Sleeper, of Bangor.

WELL KNOWN SOCIETY LADY PUBLICLY COMMENDS

Brazilian Balm AND Toxicola Tablets

"I am glad of the opportunity to publicly commend Brazilian Balm and Toxicola Tablets. They are certainly very excellent remedies as I can testify from long experience.

They have kept me in splendid health, so I have never had to call a physician since I used them. Brazilian Balm is the one thing that cures Grippe, so it leaves no evil effects behind; and for colds, coughs, catarrh and lung troubles, I never knew its equal.

And Toxicola is the most wonderful thing to put vigor and life into the system I ever saw. It corrects biliousness, tones up the nerves, clears the complexion and purifies the blood. It is good any time but for a Spring and Fall medicine it is worth its weight in gold.

I know Miss L. L. Clark, "The Woman Who Coughed," and can say these remedies did all that is claimed for her and more too. I know of a great many cures in this locality. They ought to be in every home in America. They would save thousands of lives for they cure the worst cases. The best people here use them." Miss Sara Elmina Reynolds, Indianapolis, Ind.

Brazilian Balm at Druggists, 25 cts., 50 cts. and \$1.00 a bottle. More doses for the money than any other remedy. Toxicola Tablets 15 cts. and 50 cts. a box. With every \$1.00 bottle of Balm you get a month's treatment of Toxicola Tablets FREE. Do not fail to try these remarkable remedies.

FOREIGN MADE GLOVES

Will Be Crowded Out by the Newly Formed Glove Trust.

TO SEEK FOR FOREIGN TRADE.

The Trust Expects Not Only to Manufacture All the Gloves Worn in This Country, But to Sell Abroad—The Middlemen Suffer.

New York, Aug. 8.—The Times says: The formation of a glove trust is assured. Its creation will mark a new era in the glove trade of this country, because it will unite the members engaged in the manufacture of ladies' fine gloves, not heretofore attempted in this country on a large scale, but they will make a strong bid for foreign trade, which they believe will be successful.

Charles E. Pain, of Chicago, attorney for the American Trust and Savings bank, of Chicago, which is furnishing the capital and accepting the options in the organization of the glove trust, is in New York. He said to a reporter: "It is quite true that we are organizing a glove trust, and that the trust is so far advanced that while the contracts do not call for the taking over of the property before Jan. 1, 1900, we shall take it over in November."

"Our plan of organization will be entirely different from that of other organizations. We have been at work for six months, and our main aim has been not only to secure the biggest concern in the country, but to retain at the same time the services of the persons now operating them. We have succeeded in interesting the manufacturers, and all of them regard our policy with great satisfaction. Many of them have already signed contracts. The financial headquarters of the trust will be in New York city."

"The formation of the trust will mark a new departure in glove making in America. For some country, there has been imported ladies' gloves, very few of which have been made here, to the value of \$1,000,000 a year. We believe we can make just as good, if not a better article, and hope to obtain nearly all that business. We propose also to build up an export trade. Only a few years ago the idea of exporting leather, steel, locomotives and many other products were laughed at, but we are doing it very successfully, and we are satisfied that we shall have no difficulty in selling our gloves abroad, and we make the same kind of goods. We are satisfied we not only can make goods to suit those who have bought the imported gloves here, but also can undersell European manufacturers abroad."

"Of course the main purpose of the trust is to eliminate the expenses of manufacture and sell wherever possible. Instead of sending 500 drummers to one small town we shall send one. Instead of running four stores in New York one will be enough. Just now from 500 to 1,200 different styles of gloves are made. Under consolidation this number can be immensely reduced and vast sums can be saved."

"For years the manufacturers have received less than 10 per cent of the net profits of the glove trade. The balance has been divided between the jobber and the retailer. The jobber, too, has been a source of much expense, as in many cases the manufacturers have had to advance the capital to carry him along, and this has been a great hardship. Profits which heretofore have gone to the non-producing middlemen will be saved, and we believe that the trust will result in a saving to the consumer at least 10 per cent in the price paid for goods."

Connellman May Go to Jail.

New York, Aug. 8.—In the supreme court yesterday Judge Fitzgerald ordered that Connellman Cassidy, Oakley, Foley, Engel, Goodin, Murphy, Wise, Hottenroth, Francisco, Leich, Doyle, Williams, Conley and Murray pay a fine of \$20 each, and that they be committed to prison until willing to comply with the command of the writ of mandamus to assemble and authorize the controller to issue corporate stock for the purpose of paying Contractor Pierce the sums of \$14,450 and \$19,450 earned by him under a contract for the erection of the new hall of records. On Wednesday there is a meeting of the council, and if the bonds are then authorized the whole matter will probably be dropped. If the bonds are not authorized the warrants will be secured at once and the men sent to jail.

The Yellow Fever Outbreak.

Newport News, Va., Aug. 8.—One new case of yellow fever developed at the National Soldiers' Home yesterday. There were no deaths. This is the official report. The case found yesterday is the first reported since last Thursday night. There is now no doubt that the backbone of the yellow fever epidemic is broken, and in two weeks it is probable that the scourge will be a thing of the past. The quarantine, however, will be raised before that time, as the situation is improving so rapidly that it will be unnecessary to block business and traffic after the next few days.

Fugitive Russian Official Arrested.

New York, Aug. 8.—A Russian, known in the office of the Equitable Life Insurance company, where he was employed in the Russian department under the name of Peter Peters, was arrested yesterday on a warrant issued by Waldimir Toplov, the consul general of Russia at this port. The warrant charges that the prisoner, whose name is Pierre Alexandre von Mohrenscheldt, and who had the rank of captain in his native country, was a public official in the employ of the Russian government, and while thus employed embezzled 70,000 roubles. He was indicted and fled to this country, where he has been living about two years. He took out his first citizen's papers under the name of Peter Peters. He admits his identity.

TROOPS AFTER THE YAQUIS.

Americans Abandon a Rich Mining Camp and Flee to Safety.

Austin, Aug. 8.—A dispatch was received here last night from Casas Grandes, Mexico, saying that one regiment of Mexican cavalry had just left there and started on its way to the Yaqui Indian country to drive the warring braves out of their strongholds in the Saburipa mountains, where they are rapidly gathering in large forces. It is feared the Indians are planning to draw the Mexican soldiers into an ambush. Two more parties of American prospectors have just arrived at Casas Grandes, having abandoned a rich placer mining camp.

Captain Martin Ross, an old Arizona prospector, is a member of one of these parties. He was one of the first to plan to enter the Yaqui country after it was made safe for gold hunters. He says the Indians are undoubtedly well prepared for a long and bitter resistance. He believes the majority of American prospectors will hear of the uprising in time to escape if they will only heed the first warning that reaches them. Any delay in breaking camp may mean their death. Captain Ross also says there are not as many American prospectors along the Yaqui river as is generally supposed. He estimates that there are not over 500 Americans in the whole district.

The President's Busy Day.

Plattsburg, N. Y., Aug. 8.—The president had a busy day yesterday. He witnessed the yacht races in the afternoon on board the yacht Elfrida in company with Vice President Hobart and Mrs. Hobart and party. Later he took a short drive with Vice President Hobart. In the evening he held a long conference with the Secretary of War, Root, who arrived on the 7:15 train. Mrs. McKinley continues to improve slowly.

A favorite subject of great painters is a mother instructing a daughter in music—giving the early lessons. Mothers naturally want their daughters to be accomplished musicians. It helps them to find a social way. But the most important instruction to give a girl is the lesson of womanly health. This instruction should begin with the young girl enters womanhood free from the ailments that usually beset her at this period, she will possess the greatest of all qualifications for social success. Nothing in the world equals good health. Dr. Pierce's Favorite Prescription overcomes irregularities of girls and women. It strengthens the organs that distinguish the sex. It establishes a vigorous constitution, stops the drains and pains, and is of incalculable benefit in case of prostration. For the young girl entering womanhood, for the bride, the wife and mother, for those passing through the "turn of life," it is of untold benefit. It fits the girl to be a wife, and the wife to be a mother. It cures at home all drains, pains, aches and irregularities of women. It is a temperance cure—no alcohol or narcotic in it. Buy it of honest medicine dealers, who do not try to substitute something else to make a little more profit.

Mrs. A. P. Crenshaw, of Parsonsport, Sumner Co., Md., writes: "I have much to say to you and for your kind advice, that I must tell you what your medicine has done for me. I have been suffering from a severe case of 'Favorite Prescription' and can say it cured me of female weakness. I was all run-down; suffered with sick headaches, dizziness, and bearing-down pains. My health is better now than it has been for three years."

For stomach, bowels, liver and biliousness, nothing is as good as Dr. Pierce's Pleasant Pellets. They are pleasant in fact as well as name—no gripping.
