Hungary are confronted with a somewhat serious situation—the escape over the frontier of men liable to military service in Austria-Hungary. A large business is carried on by the agents, chiefly foreigners, who assist these men. The first essential is a passport, and this is generally forged. It is known that 1,000 men weekly, on their way to the frontier, pass through Vienna alone, and as most of these are young men, it is calculated that during the year at least 30,000 men of those who so pass are escaping from military service. Most of these, it is estimated, come to America, where, it is believed, there are at present over 100,000 men who should be in the Austro-Hungarian Army or Re-

Berlin, Aug. 10.—According to the Berliner Tageblatt Emperor William received Congressman George Ed-mund Foss, of Illinois, and United

States Naval Attache Beehler on board the imperial yacht Hohenzollern last Wednesday at Kiel, granting them an audience of three-quarters of an hour. His majesty began the conversation by expressing a belief that Admiral Dewey had not used the words at-

tributed to him, suggesting the possi-bility of a war between the United States and Germany. Mr. Foss replied that he had just come from Trieste, where he had had long talks with Admiral Dewey, who had shown no hostility toward Germany.

The emperor declared his conviction

that German-American relations would always rebain friendly. Germans in America, he said, would take good care that no aggressive or hostile policy should be pursued toward Germany.

"The increase of the German fleet involves no threat to any other power, for the stronger a nation is at sea the more others will hesitate to begin hostillties. The increase of navies, there-fore, is in reality the best peace con-

COLUMBIA ONCE AGAIN.

Defeats Defender Over Twenty-two Minutes in Forty-three Miles. Newport, Aug. 10.—The run of the New York Yacht club cruise from Gardiner's bay to this port yesterday, a distance of 43 miles, was full of interesting brushes. While the yachts ran the last half of the 43 miles in a constantly increasing southwest breeze, the first half of the day was fluky. It is no disparagement to Columbia to say that her defeat of the Detender

by 22 minutes and 25 seconds was due more to bad judgment and hard luck of the latter boat, which left her in a soft spot, than to actual superiority. Still, the new boat showed herself very able in a broad reach with a constant ly increasing breeze, and it is not too much to say that she made an average of ully 13 knots in the run along shore from Watch Hill to Point Judith, so rapidly dropping the Defender that when she jibed round the whis-tling buoy off Point Judith her rival was hull down to the westward, over was null about to the westward, over five miles astern. On the run up from Point Judith, dead before the wind, Columbia gained a minute or two more, so that at the finish the old Defender had received the worst beating in her history.
