## A Business Confidante.

A very timely article on the above subject appears in the current number of the Ladies' Home Journal. which is of vital importance to such a large number of our readers that we give the following extracts:

"It is a man's duty to acquaint his wife with every business matter of mutual interest. She should be given an insight into the purpose of his business or profession; her sympamakes tight or new shoes feel easy. Mr. Atkinson says that having been informed that telegraphic measures from the mothers and sisters of volun-teers from Nebraska, urging them not to re-enlist, had been refused delivery, he thought he would test that question. He then recounts his efforts to send through the mails to prominent officials in the Philippines the pamph lets seized by the postmaster at San Francisco some time ago, for which the author of the circular says he was threatened with prosecution for treason and sedition because of this effort on my part to convey information to you, eltizens and voters, which would inform you as to the work be ing done in this country to stop what we believe to be criminal aggression in the Philippine islands."

Mr. Atkinson asks the soldiers' views on the whole course of the warfare in the Philippine islands, promising if liberty is given to print the ters to make a careful selection there-from, "whether adverse to the posi-tion I have taken or sustaining it."

A very simple test to determine whether your kidneys or Bladder are diseased is to put some of your urine in a glass tumbler and let it stand 24 hours; if it has a sediment or a cloudy, ropy or stringy appearance, if it is pale or discolored, you do not need a phy-sician to tell you that you are in a dangerous condition. Dr. David Ken-nedy's Favorite Remedy speedily cures such serious symptoms as a pain in the back, inability to hold urine, a burning scalding pain in passing it. Frequent desire to urinate especially at night, the staining of linen by your urine and all unpleasant and dangerous effects produced on the system by the use of whiskey and beer.

By a searching investigation it was found that over 91 per cent of the people who sent for a sample bottle were so much benefited by its use that they purchased a large sized bottle of their druggist, which in most cases cured them, while in some rare in-
