FRIDAY, AUGUST 18, 1906.

OUR COUNTRY: First, Last and Forever.

The Republican county chairman has chosen eighteen persons to serve as committeemen, while the rules of the party require but twelve. But, then, rules have no terror for the gentlemen from Auburn.

More than a year must elapse before the two "Hons." will look horns for the Congressional plum in this district. In the meantime these patriots are lying awake at night.

The cry of distress from Porto Rico has been promptly answered, and a large cargo of the necessities of life is already bounding on its way thither, and others will follow. The American people know how to be generous.

The German Political Club, of Luzerne county, which was recently organized for the purpose of gaining recognition for the Germans at the hands of both parties, is gaining in membership. Wilkesbarre has the largest number of members, but before election clubs are to be organized in every section of that county.

The Hon. Richard Croker, who started out so valiantly a few months ago to compass the defeat of Mr. Bryan for the Democratic nomination for the Presidency, and to nominate in his stead the brother of his subject follower, the nominal head of the New York city government, has experienced a change of heart. He has taken a complete somersault and landed feet first in the Bryan camp.

**Municipal Ownership.**  
The League of American Municipalities, at its third annual convention, will add materially to the information now in circulation on that most important of all municipal questions, the public ownership of light and water plants. Nothing has attracted more earnest public attention in recent years than the municipalization of public service industries in this country.

As the movement has progressed it has had to meet a most substantial opposition from those who do not believe that industrial enterprises should be attempted by the government. Despite this serious opposition the movement has grown with rapidity throughout the United States, until political parties have considered it expedient to place in their local platforms the most emphatic declarations in favor of municipal ownership. This question has been paramount in political contests waged in New York, Chicago, New Orleans, San Francisco, Denver, Detroit, Milwaukee, Toledo and other large cities.

That the municipalization of light and water plants has gained ground rapidly is shown by authentic statistics. Ten years ago there were scarcely more than a score of publicly owned electric light plants in this country; to-day nearly 400 municipalities own and operate works of this kind. In 1900 only 42 per cent. of the water plants in the United States were publicly owned, and to-day the percentage is about 54.

Municipal ownership, like all other questions, has two sides. The arguments, both pro and con, are well founded and intensely interesting. At the two preceding conventions of the League of American Municipalities this question has been discussed at length, but only the affirmative side has been presented. The program committee for the coming Syracuse convention have determined upon a plan that will bring forth the most comprehensive and the fairest discussion of this question ever presented in this country. They have decided to set aside one whole day for the treatment of the subject, and to have it discussed from every standpoint.

The day of the convention set aside for this interesting discussion is next Wednesday, and it is very likely that the eyes of the country, figuratively speaking, will be on Syracuse for that day. The people of Shenandoah have reasons to read carefully the proceedings of this convention.

**Gold Hunting Party's Bad Luck.**  
Seattle, Aug. 18.—W. H. Rosecrupp, of Chicago, who was a member of the Lost to Alaska party, of Chicago, has returned from Alaska. The party was composed of 50 men. They sailed from Seattle in May, 1897, intending to go to Dawson City. Through ill luck, they reached St. Michael's late and were detained there until it became too late to make the trip up the river. Then they headed for the Fish River country in the Golovin bay district, from which good reports were coming. There they have remained ever since. The expedition outfit cost an even \$50,000, \$1,000 being contributed by each member of the party. After 18 months of enduring hardships and privations they have been enabled to draw out \$400 to the man. The party is now broken up and dispersed.

**Hospital Ships For Manila.**  
Washington, Aug. 18.—The hospital ship Relief belonging to the medical department of the army, will sail for Manila about the 25th of this month with a full load of medical supplies and 20 female nurses. The hospital ship Missouri which is now being refitted in New York, will sail about the end of this month, via Suez, for Manila. She also will carry a big cargo of medical supplies and a detachment of the hospital corps numbering 150 men.

**Opening Letters For Lottery Tickets.**  
Havana, Aug. 18.—El Diario De La Marina, objecting to the action of the postoffice authorities in opening letters supposed to contain lottery tickets, says: "The action of General Wilson in searching passengers on a railway train to find his stolen watch must not be taken to establish a precedent. Let the introduction of lottery tickets be stopped, but let other means than opening letters be adopted to stop it."

**Met Death in Frightful Manner.**  
Bellefonte, Pa., Aug. 18.—While Henry Confer was threshing his season's crops at his farm in this county his 8-year-old son fell into the "jack" of the machine, head first. The little fellow's skull was battered to pieces, but the resistance of the bones was enough to stop the heavy machinery almost instantly, and when looking for the cause of the stoppage the threshers saw a lifeless body clogged in the machinery.

**Village Hearse Seized.**  
Poughkeepsie, Aug. 18.—The village hearse is in the hands of the tax collector at Poughkeepsie, and the people are so mad that not a man will do until it is released. It comes of a willful tax owner of the hearse, Samuel Mason, refused to pay. Many others decline to pay the tax. The hearse may be needed if the suit in court now pending does not end as the defendant wishes.

**The Samoan Commission's Report.**  
Washington, Aug. 18.—The German embassy has received from Baron Sternberg the full report of the Samoan commission and the draft of the proposed convention by which the treaty of Berlin will be modified. After it has been gone over by Minister von Mumm it will be forwarded to Berlin, and it will not be until Berlin and London have had opportunity to consider the report and confer with their respective commissioners that negotiations will begin on framing a new treaty.

**The Mail Pouch and the Automobile.**  
Washington, Aug. 18.—Acting Postmaster General Schallerberger, in a letter to Postmaster Dewaton, of Cleveland, has declined to authorize the carrying of a mail pouch by an automobile from Chicago to New York. Mr. Schallerberger says that while the department watches with interest the development of the motor carriage it cannot lend its official endorsement to such a feat.

**Death of a Well Known Physician.**  
Lancaster, Pa., Aug. 18.—Dr. Alexander Craig, of Columbia, one of the best known physicians in eastern Pennsylvania and for 30 years surgeon for the Pennsylvania railroad company at Columbia, died Wednesday night from paralysis. He was 61 years old.

**Examinations for Warrent Machinists.**  
Washington, Aug. 18.—Much satisfaction is felt at the bureau of navigation over the very high grade examinations, held all over the world, were submitted to a board for assignment of merit, and, after carefully considering all the papers in each case the final report is now made.

**Sacrificed to Blood Poison.**

Those who have never had Blood Poison can not know what a desperate condition it can produce. This terrible disease which the doctors are totally unable to cure, is communicated from one generation to another, inflicting its taint upon countless innocent ones.

SOME YEARS ago I was inoculated with poison by a nurse who intended to take a bath, and the little one was taken with the terrible disease and his life was ruined up to the fearful point. At all times I suffered untold misery. I was covered with sores and ulcers from head to foot, and no language could describe my sufferings of working hours of agonizing pain.

For six long years I suffered untold misery. My eyes had the best medical treatment. Several physicians successively treated me, but all to no purpose. I was finally taken to the hospital and potassium seemed to add fuel to the awful flame which was devouring me. I was visited by a friend who had had the disease and cured me by Dr. Williams' Blood Purifier. I got two bottles, and I felt hope again revive in my heart. I took the first bottle, and I was again cured. I improved from the start, and a complete and perfect cure was the result. Dr. W. J. is the only blood remedy which reaches desperate cases.

Mrs. T. W. Lane,  
Montgomery, Ala.

Of the many blood remedies, Dr. W. J. is the only one which can reach deep-seated, violent cases. It never fails to cure perfectly and permanently the most desperate cases which are beyond the reach of other remedies.

**Dr. W. J.'s Blood Purifier.**

Is PURELY VEGETARIAN, and is the only blood remedy guaranteed to contain no mercury, potash, or other mineral. Valuable books mailed free by Swift Specific Company, Atlanta, Georgia.

**THE DESTRUCTION IN PORTO RICO.**

**Late Arrivals From the Island Report Much Ruin Wrought.**  
New York, Aug. 18.—Dr. H. M. Carroll, President McKinley's commissioner to Porto Rico, who is now at Plainfield, N. J., has received a letter detailing the destruction wrought by the hurricane. It says that the seriousness of the situation is that no one has the money to buy afresh. No planting can be undertaken, nor mills built. The market is bare; nothing comes in for sale. A little milk that came in sold for 25 cents a bottle. Every vessel in Ponce is ashore and the warehouses and some houses are partially under water.

Several of the passengers on the steamship Philadelphia, which arrived yesterday from Porto Rico, gave accounts of the widespread desolation and ruin wrought by the recent tornado. M. Bird, of Guayama, said there were 1,000 hogheads of sugar in Guayama alone and it was thoroughly wet. If it is not disposed of at once it will be worthless. The natives, says Mr. Bird, are grateful for the aid rendered to them by the Americans, but free trade would be the only permanent relief. They ask for the establishing of agricultural banks to loan money at moderate terms of interest to the needy farmers. Money now commands from 10 to 15 per cent.

**That Throbbing Headache**  
Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by A. Wasley, druggist.

**Milk Closed by Strife.**  
Trenton, Aug. 18.—As a result of a strike of eight "roughers" in the rolling mill of John A. Roebbing's Sons company followed by threats of other workmen to follow their example, the Roebblings yesterday closed down their rolling mill, throwing 150 men out of work. A movement among the men to call out all the employees in the establishment is not meeting with any success.

**Murderer Arrested After Many Years.**  
Indianapolis, Aug. 18.—Vinches Gilchrist, a fruit vender, was arrested here charged with murder committed 16 years ago. The information was furnished by his brother-in-law, Giordino, whose real name is Antonio DeGonna, admits that he killed Sabadora DeGonia on a plantation near New Orleans, but insists that it was in self defense. Giordino has lived here for ten years and has been well respected.

**M. Guerin Still in Barricade.**  
Paris, Aug. 18.—According to The Figaro, the government has decided not to use force, but to wait until M. Guerin issues forth. General Jacquy and General Lague, who interviewed M. Guerin this evening, say that he declared he would resist to the death. The house is now guarded by republican guards. The cabinet will meet tomorrow to consider the situation.

**Priest Arrested For Conspiracy.**  
Paris, Aug. 18.—A dispatch from Villersfranche announces that a priest named Vial has been arrested there, charged with being connected with a plot to change the form of government.

**NUGETS OF NEWS.**  
President and Mrs. McKinley will visit Pittsburgh on Friday evening, Aug. 25.

The fund in Philadelphia for the relief of the Porto Rico sufferers has reached the sum of \$9,581.53.

A carriage containing six people fell into the White river near Washington, Ind., and all were drowned.

The agents of the Ward line steamer Vigilance, overdue at Havana, expect the steamer to arrive there today.

A cotton mill combine is to be formed to absorb \$25,000,000 worth of Fall river manufacturing property.

A large portion of northern New York, including the counties of Jefferson, St. Lawrence and Lewis, is being swept by fierce forest fires.

Two hundred people were poisoned at Oregon, Ill., by lemons which they drank at a picnic. As yet no fatalities have been reported.
