RETURN OF WELLMAN.
Successfully Completed Explorations in Franz Josef Land.

ARRIVES AT TROMSOE, NORWAY.
The Explorer Discovered Important New Lands and Many Islands—Grim Story of Arctic Tragedy—Mr. Wellman Hurt by Falling into a Crevasse.
Tromsoe, Norway, Aug. 18.—Walter Wellman and the survivors of the Polar expedition led by him arrived here last evening on the steamer Capella, having successfully completed their explorations in Franz Josef Land. Mr. Wellman has discovered important new lands and many islands. The expedition brings a grim story of Arctic tragedy. In the autumn of 1896 an outpost called Fort McKinley was established in latitude 81. It was a house built of rocks and roofed over with walrus hides. Two Norwegians, Paul Bjoervig and Bert Benzen, the latter of whom was with Nansen on the Fram, remained there.

The main party wintered in a canyon covered but called Harmsworth house at Cape Tegothoff, on the southern point of Hall's Island, latitude 80. About the middle of February, before the rise of the sun to its winter height, Mr. Wellman, with three Norwegians and 46 dogs started north. It was the earliest sledge journey on record in the Arctic region.

On reaching Fort McKinley, Mr. Wellman found Benzen dead, but Bjoervig, according to promise, had kept the body in the house sleeping beside it, through two months of Arctic darkness. Notwithstanding his terrible experience the survivor was safe and cheerful.

Pushing northward through rough ice and severe storms, with a continuous temperature for ten days between 40 and 50 degrees below zero, the party found new lands north of Freedom Island, where Nansen landed in 1895. By the end of the party had reached a confident of reaching latitude 87 or 88, if not the pole itself. Then began a succession of disasters. Mr. Wellman, while leading the party, fell into a snow covered crevasse, seriously injuring one of his legs and compelling him to walk on crutches. The party was unable to walk on crutches, and he was confined to a cot. In a few minutes many dogs were crushed and the sledges destroyed. The members of the expedition narrowly escaped with their lives, though they managed to save their precious sleeping bags and some dogs and provisions.

On Mr. Wellman's condition becoming alarming, an inflammation set in, the brave Norwegians dragged him on a sledge, by forced marches, nearly 200 miles to headquarters, arriving there early last April. Mr. Wellman is still unable to walk and will probably be permanently crippled.

After reaching headquarters, other members of the expedition explored regions hitherto unknown, and important scientific work was done by Lieutenant Evelyn B. Halden, of the United States weather bureau, Dr. Edward Hofma, of Grand Haven, Mich., and A. Harlan, of the United States coast survey. The expedition killed 47 bears and many walrus.

The Capella arrived at Cape Tegothoff, in search of the expedition, on July 27 last. On Aug. 9 she met the Stella Polar, bearing the expedition headed by Prince Luigi, Duke of Abruzzi, which had sailed from Archangel to reconnoiter northwest Franz Josef Land and to meet, if possible, the Wellman expedition.

Mr. Wellman and his companions found no trace in Franz Josef Land of the missing aeronaut, Professor Andree.

WELL KNOWN SOCIETY LADY
PUBLICLY COMMENTS AND
Brazilian Balm AND **Toxicola Tablets**

"I am glad of the opportunity to publicly commend **Brazilian Balm** and **Toxicola Tablets**. They are certainly very excellent remedies as I can testify from long experience. They have kept me in splendid health, so I have never had to call a physician since I used them. **Brazilian Balm** is the one thing that cures Grippe, so it leaves no evil effects behind; and for colds, coughs, catarrh and lung troubles, I never knew its equal. And **Toxicola** is the most wonderful thing to put vigor and life into the system I ever saw. It corrects biliousness, tones up the nerves, clears the complexion and purifies the blood. It is good any time but for a Spring and Fall medicine it is worth its weight in gold. I know Miss L. L. Clark, 'The Woman Who Coughed,' and can say these remedies did all that is claimed for her and more too. I know of a great many cures in this locality. They ought to be in every home in America. They would save thousands of lives for they cure the worst cases. The best people here use them." Miss Sara Elmira Reynolds, Indianapolis, Ind.

Brazilian Balm at Druggists, 25 cts., 50 cts. and \$1.00 a bottle. More doses for the money than any other remedy. **Toxicola Tablets** 15 cts. and 50 cts. a box. With every \$1.00 bottle of Balm you get a month's treatment of **Toxicola Tablets** FREE. Do not fail to try these remarkable remedies.

TEN NEW REGIMENTS

Of Volunteers to Be Added to the Military Establishment.

ENLISTMENTS WILL BE HURRIED

The Colonels and Lieutenant Colonels Have Been Appointed by the War Department and the Other Officers Will Be Spanish War Volunteers.
Washington, Aug. 18.—"The policy of the war department," said Secretary Root yesterday, "is to furnish General Otis with all the troops and supplies that he can use and which are necessary to wind up the insurrection in the Philippines in the shortest possible time." The secretary was speaking of the ten regiments which were called out yesterday by order of the president. He said that the army would be allowed to enlist, equip and supply the new regiments, nor in transporting them as well as the other regiments already organized in the Philippines. If the present number of transports are insufficient more will be procured. The men already enlisted for the Philippine service will be sent at once, and the new regiments will be forwarded as fast as they are organized and needed. While there has been some suggestion that the new regiments will be used as a reserve force, it may be stated positively that these regiments are not to be sent to Cuba. They can be used to reinforce General Otis.

This will add 13,000 men to the enlisted strength of the army and increase the total strength of the army to 55,045 men. The total number of volunteers called into service is 20,770 men, being only 4,833 men short of the total authorized volunteer establishment of 35,000. It is stated at the department that the number of volunteers already called into service is regarded as amply sufficient to meet all possible needs of the army, and that there is no possibility that the remaining 4,833 volunteers will be called for.

Recruiting for the volunteer army up to yesterday amounted to 235 men, making the total recruitment to date 14,122, or 1,032 in excess of the number required to complete the ten regiments organized under the orders of July 5. All of these regiments have secured their full quota except the Twenty-ninth regiment at Fort McPherson, Ga., the Thirty-first at Fort Sam Houston, Tex., and the Thirty-fifth regiment at Vancouver, B. C. The three regiments will be filled by the use of the overflow from the more successful regiments. The remainder of the excess will be used in filling the volunteer regiments being slowly organized in the Philippines which are about 1,800 men short.

It is said that no special effort is to be made to secure recruits in the southern states. This is due, it is said, to the experience of the officers who operated in that quarter for recruits for the ten volunteer regiments just organized. The only place where difficulty was experienced in securing men was in Georgia, Alabama and the Carolinas and the Gulf states and the northwestern Pacific states.

The following is a list of the colonels and lieutenant colonels: George S. Anderson, major, Sixth cavalry; Thirty-ninth, R. L. Bullard, captain, sub-department; Fortieth, E. A. Godwin, captain, Eighth cavalry; Forty-first, E. T. Richmond, captain, Second artillery; Forty-second, J. M. Thompson, major, Twenty-fourth infantry; Forty-third, Arthur Murray, captain, First artillery; Forty-fourth, E. J. Clelland, captain, Second cavalry; Forty-fifth, J. H. Dorst, captain, Fourth cavalry; Forty-sixth, W. S. Schuyler, captain, Fifth cavalry; Forty-seventh, Walter Howe, captain, Fourth artillery.

Lieutenant colonels—E. B. Pratt, captain, Twenty-third infantry; C. J. Crane, captain, Twenty-fourth infantry; J. S. Mallory, captain, Second infantry; E. H. Crowley, major, Judge Advocate; James Parker, captain, Fourth cavalry; Francis Michler, captain, Fifth cavalry; W. E. Wilder, captain, Fourth cavalry; J. H. Beacom, captain, Sixth infantry; John Bigelow, Jr., captain, Tenth cavalry.

The selection of the majors and company officers for the regiments is now occupying the attention of the secretary and the men are being chosen from among the volunteers who were called out in the Spanish war. The officers will be distributed as equitably as possible among the different states, but the efficiency records of the men will govern to a great extent in their selection.

It is now found that the merit runs so high that promotion from the service can well fill the list contemplated, without calling for volunteers from civil life.

Spain's Greatest Need.
Mr. R. P. Oliva, of Barcelona, Spain, spends his winters at Aiken, S. C. Well he has caused severe pain in the back of his head. On using Electric Bitters, America's greatest Blood and Nerve Remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney troubles, purifies the blood, tones up the stomach, strengthens the nerves, gives vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing, you need it. Every bottle guaranteed, only 50 cents. Sold by A. Wasley, druggist.

THE TRANSVAL Situation.

Boers Are Threatening in Case of War Their Will Murder Englishmen.
London, Aug. 18.—The Johannesburg correspondent of The Morning Post says: "It is stated on all hands that the Boers in the outside districts are threatening that in the event of war they will murder all the Englishmen and outrage their women. All the burghers in the Krugersdorp district were warned yesterday to be ready to take the field at a moment's notice."

The correspondent of The Daily Mail says: "Instead of replying to the proposal of Mr. Chamberlain to refer the franchise controversy to a joint commission of inquiry, the Transvaal government will intimate its willingness to grant a five year simple franchise, retrospective and unlogged by retrospective, and that the representation of the gold fields will be extended to one-fourth of the Volksraad, thus exceeding the fifth demand by Sir Alfred Milner and rendering an inquiry into the present franchise law unnecessary. Nothing will be demanded in return for these concessions, but a suggestion will be made that the imperial government should grant something in reciprocal. This apparent surrender must, however, be received with caution. Unless the new laws are properly secured by effectual guarantees, they may only be intended to grant the shadow of reform with the object of gaining time and placing Great Britain at a disadvantage."

To Re-organize Soldiers From Cuba.
Washington, Aug. 18.—United States troops now serving in Cuba are to be brought to the United States for the purpose of giving the men a change of climate and an opportunity to re-organize. All the regiments will not be brought home at once, but arrangements will be made so that a battalion of the different organizations may be absent at one time. When they have remained what is deemed a sufficient time in this country they will return and relieve their comrades in the regiments, this practice being kept up until the entire body has enjoyed rest in this country. The authorities intend to keep an adequate number of troops in the island to preserve order.

THE HANGING SWORD.
Do you know the story of Damocles in the ancient mythology—the man who lived with a sword fixed to his neck, and above his head, suspended only by a single hair? Many a woman of the present day is like Damocles. She is living with a constant menace of danger hanging over her head because of some weakness or disease of the special organism which makes her a woman. It is easy to see comparatively slight and trivial at first but any instant it may develop into a serious and dangerous complaint, totally unfitting her for all the duties and responsibilities of a true womanly career.

It is very much with female weakness and other ailments for more than two years when I wrote to you for advice," says Mrs. Anna Wong, (Michigan Road), Philadelphia, Pa. "Dr. R. V. Pierce's Pink Pills for Pale People cured me. I am now a healthy and happy woman. I have also taken your medicine which cured my 'leucorrhoea' which did me a great deal of good. I shall always recommend your medicine wherever I go."

Women who would know how to avoid the dangers to which they are exposed at every critical stage of their physical development should read that grand book The People's Complete Medical Adviser by Dr. R. V. Pierce, M. D. It contains over one thousand pages of practical information with engravings and colored plates. It is a complete medical library in one volume. More than half-a-million copies were sold at \$1.50 each. But from now on will be sent handsomely cloth-bound for the simple cost of mailing, 31 one-cent stamps. Address, Dr. R. V. Pierce, Buffalo, N. Y.
