OUR COUNTRY : First, Last and Forever

LET's see-isn't Hon. Elias Davis. of Broad Mountain, a candidate for something or other, at some time or other?

THE advance in meat comes at a season of the year when the carnivorous part of the bill of fare can be reduced without harm if not with positive advantage.

AGUINALDO, who in his recent proclamation spoke of the Democratic party in the United States as his principal ally, finds no occasion to change his views on that subject.

IT seems probable that the Democrats in 1900 are about to repeat their action in 1864, when they declared in national convention that the war abandonment. It is recalled that it was many years thereafter before the Democracy secured even a measure of the country's confidence. Is history to be repeated?

THE evening paper is coming to be more and more the paper of the family and the main reliance, on the one hand, of busy men and women for the news of the day brought to them fresh when they have the leisure to give attention to it; and, on the other hand, the most servicable and best devised means of bringing to the attention of the buying public the wares and prices which the men of trade have to offer.

NEXT year's political platforms will denounce business combinations that encroach upon public rights. All parties alike will take this position and all are taking it this year in the statement of principles. The Republican party ranged itself against trusts as early as the national platform of 1888. There is much talk among Democratic leaders of making trusts the paramount issue in 1900. But their sincerity may be doubted when it is found that they can not discuss trusts without branching off into an assault on the protec tive tariff.

Poisons in Foods.

The poisoning of sixty four persons by ice cream at a festival in Clarion county was traced to the fermentation of the milk. The wisdom of testing food articles that are to be used for large parties is enforced. Milk is always a possible source of danger, either from the development of poisonous qualities in this manner, or from the existence of typhoid, or scarlet fever, or diphtheria in the family of the milkman. In the cities there is a system of inspection that measurably protects the people, but in the country effort is seldom made to meet the danger. And, in spite of leather manufacturers between Wisthe warnings of pure food congresses, the people of large communities are subjected to dangers quite as grave.

The health of cities is threatened by polluted water, infected air and adulterated food articles, of which the health officials take little account. Chemists have found injurious quanthe Yaqui situation well in hand. He tities of lead in confectionery, and in has 300 National Guards, 1,700 infantry, Chemists have found injurious quansome bakery products which it is used to color. Cases of chronic lead more troops are to be sent. The hostiles will not risk another open enpoisoning have followed the eating of cream puffs, ten buns and the like, and whenever the vigilance of the been organized to follow them. health officers is relaxed milk is adulterated not only by water, but by deleterious substances that give

color and an appearance of richness. It is the proper business of public health officials to relieve the people of the responsibility for these dangers and to insure a reasonable measure of safety. They are endowed with an authority that is arbitrary and virtually absolute. It is within their province, and it is practicable, to prevent the sale of all things calculated to impair the health of the Monday, when she will leave Cramps' people. They are supposed to have shipyard for a trip down to the capes the special knowledge that enables and back. them to discriminate between real dangers and the exaggerations of nlarmista.

THE BEST Washing Powder

TO RUSH THE VOLUNTEERS. All the New Regiments to Eat Christ-

mas Dinner in the Philippines. Washington, Aug. 24.—Secretary of War Root, after his arrival in Washagton yesterday, said that the matters discussed with the president were such as would ordinarily be taken up at a cabinet meeting and involved no great departure from the policy already in force respecting the Philippines. The campaign in the Philippines is to be

pushed vigorously and promptly. He was determined, he said, that every man belonging to the 29 regiments of volunteers now being recruited shall eat his Christmas dinner in that country. Regarding the reports that General Wesley Merritt, who has also been at Lake Champlain in conference with the president, is to succeed Gen-eral Otls in comand of the troops in the Philippines, Secretary Root was non-committal, He evaded all questions on this point and declined to make any positive statement whatever in regard

A Battation of Porto Ricans. Washington, Aug. 24.—According to recent advices received at the war department, the experiment of enlisting natives of the West Indies into the American navy has proved quite suc-cessful in the case of the Porto Rican battalion of United States volunteers, which body completed its organization few week ago. This battallon is commanded by Major L. P. Davidson, and s the only one of its kind in the army. Lieutenant Briand, who is the bat-talion adjutant, says that the Porto Rican soldiers are a fine lot of men, bedient and willing to learn. take great pride in being soldiers of policy was a failure and demanded its the United States army, and always dress very clean and nest, and are a valuable addition to the army.

Events in the Orient.

Victoria, B. C., Aug. 24,-Advices from the Orient by steamer Kinshumaru are brought of a battle between Formosan soldiers and Japanese garrison troops at Keelung. Ten Japanese and 31 Formosans were killed. In a conflagration the village of Echtjo was wiped out. Four hundred houses were destroyed and 120 Japanese were killed. The captain's boat of the wrecked steamer Nunobiki Maru has been found. It is feared all were drowned, as the boat was empty. British pilot boat was looted at the mouth of the Yang Tse Klang by Chinese pirates. Captain Roberts was in-jured by pirates and removed to Shanghal for medical treatment.

Killed by Lawless Negro.

Pittsburg, Aug. 24.—William Law-ler, white, was shot and instantly killed yesterday by an unknown negro at Willock, a small station on the Wheeling division of the Baltimore and Ohio raliroad, about ten miles from this city. Sold by P. D. Kirlin on a guarantee. d the white men of the community that a race war is threatened. Willock is the terminal of a big tunnel being cut through the hill and many negroes are employed at the works. Saturday was pay day and since then fighting, shooting and lawlessness generally has been the order of the day.

Funston to Heturn With Kansans. Kansas City, Aug. 24.—A letter to The Star, from Manila, says: "General Frederick Funston has been tempor arily relieved from duty at San Fer nando, and will go to the Second re-serve hospital to receive treatment necessitated by the reopening of a wound incurred while in the Cuban army. It is thought General Funston will not again return to active duty, as his term of service will expire Sept. 2, and he has requested and been granted permission to return to the United States with the Kansas regiment."

The Tanners' Trust.

New York, Aug. 24.—The tanners of the east and middle west who have been in this city working for a combi-nation of upper leather manufacturers since Aug. 1, are confident that in a few days their organization will be af-fected. The combination will include nearly all the calfakin and cowhide consin and the Atlantic ocean with the exception of several large tanneries in Milwaukee and will be known as the American Hide and Leather company.

Consumption Cured.

BROUGHT BACK FROM THE GRAVE.

Last November Mr. Joseph James,
painter, of 325 W. Pearl St., Indianapolis, Ind., was at death's door with quick consumption. Wasted to a skeleton; his langs a mass of ulceration; his death was hourly awaited by his doctor and family. He was kept in a constant stupor with opium. A friend, thinking to relieve his terrible cough, gave him a bottle of Brazilian Balm. Seeing its wonderful effect, the doctor advised its continued use. Mr. James soon after dismissed his doctor, and depended on the Balm alone. His recovery was on the Baim atone. His recovery was rapid and complete, and in February he returned to work. His hungs are sound, and his weight greater than at any time in his life. His recovery is regarded as

In consumption beware of cough mixtures and prescriptions that contain opium. Opium paralizes the nerves, and gives the comma bacillus a good chance to destroy the lungs. It is always fatal. Brazilian Balm does not contain a trace of any opiats, but stimuates the nerves with new life and power, destroys the microbe, and restores all that is left of the diseased lungs to a sound and healthy state which no other remedy has ever been known to accom-plish.

INCREASE OF IRON PRICES. Consumption Over Production Is Still

Foreing All Before It. Pittsburg, Aug. 24.—The American Manufacturer says: "The excess of consumption over the production is still slowly, but surely forcing all before it.

Every movement is toward that higher plane which is inevitable. The only question is, how high is the level that will be the stopping point. Prices can-not stand still for a day or a part of a day, though they are for the most part

Valley prices on Bessemer have gone to \$22 and \$23, though at Pittsburg prices are held at \$32.50 and \$23. Billets are now air tight at \$36 and \$37, and none to be had. In the raw markets the most noticeable change in addition to the advance in Bessemer was the movement in mill iron, which is quoted nt \$18.75 and \$19.

The conditions which rule in the raw material market were brought out in clear detail at a meeting of the Besse-mer Pig Iron association a few days ago at Cleveland. Reports of opera-tions showed that all of the product for the remainder of 1899 is sold, and that the output of January and February, 1900, will be needed to clear up the 1899 orders.

"Must Paddle Its Own Canoe." Atlantic City, Aug. 24.—At yeater-day's session of the colored Baptist consress of the United States, Rev. Dr. Robinson, of Pittsburg, in an address declared that the colored race "must paddle its own cance. We must get money, banks, railroads," he continued, "learn how to make guns and powder, etc., and then learn to use them before we can become a power in this country." He closed by asserting "the north, the south and the devil in hell are against the negro, and God is the only one who will accept ua,"

Seabright, N. J.
Seabright, N. J., Aug. 24.—Three persons were killed and three injured here last night while driving, by being run down by a train of the New Jersev Southern railroad. The dead are: Miss Louise Terry, 22 years of age; Charles Trippe, 7 years: Oreata Terry, 13 years of age. The injured are: Mrs. Charles Trippe, her baby and Louisa Farr. The party of six were driving in a double seated surrey, Miss Terry having the reins. A fast train struck the carriage as it was passing over a crossing, killing all three on the front seat. Thou on the back seat, Mrs. Trippe, her baby and nurse were thrown high to one side and escaped death. Mrs. Trippe was picked up unconscious. Her baby was not very severely hurt, but the nurse received serious injuries. It is thought that Mrs. Trippe is injured internally and it is feared she may not recover.
