OUR PRESTIGE IN PHILIPPINES. Ex-Senator Gray of Delaware Says It

Should Be Maintained. Duluth, Aug. 25.—Prominent among the arrivals here yesterday was Hon. George Gray, of Delaware, former United States senator from that state and now a United States circuit judge.

The views of Judge Gray on the Philip pine question are interesting. Speaking on this subject he said: "It was maintained on all hands that we must drive Spain out and keep her out. To do this it was absolutely necessary that we should maintain possession of the islands, provisionally at least. Before we could gather ourselves to see what should be done we were attacked, "The fight in the Philippines begun

by Aguinaldo during the armistice which was declared Aug. 12, 1898, and continued till the treaty was ratified, is still in progress. The Americans observed the truce with Spain with fi-delity and Aguinaido, whose forces were armed largely with gons provided by Dewey, opened hostilities against the American troops pending the ratifica-tion of the treaty of peace. When we have maintained the dignity and pres-tige of the American name in the Philippines and have successfully re-pelled this attack, it will be time enough to talk about the future gov-ernment of those islands. I trust that a settlement will be made that will be entirely consistent with the highest ideals of American freedom."

CHANGE IN A ROAD.

A Movement to Improve the Condition a

the Brandonville Road. M. M. Burke, Esq., of town, has been re-tained by a number of farmers in the Union townships and also a number of citizens of this town to secure a change in portion of the road leading from Shenandeah to Bran-donville. The papers are now in the hands of Liveryman O'Hara, who is taking an active Interest in the matter. Mr. Burke will on September 4th, ask court to appoint viewers to view and lay out the proposed change of route. The reason assigned is the excessive drought, the worst in that section for several grade in the road on the Brandonville motain. Should the read be changed it will then continue westward from Beichert's butel, at Brandonville, with a gradual slope along the mountain side for about three quarters of a mile and thence southward over he mountain, past the dams of the Citizens Water Company, to a point in the present road near the Kehley Rin colliery. The Brandonville hill is unquestionably

one of the most dangerous pieces of roadway in this part of the state, and it is hoped that the parties having the proposed change in hand will succeed. The new road will in no particular exceed three degrees in clavation
