He was released and installed as mayor.

Such events and conditions tend to give color to the assertions of foreign residents acquainted with the native character who insist that a great majority of the natives sympathize with the insurrection and elect officials whom they know to be revolutionists. Washington, Aug. 28 .- Officials of the weather bureau are not yet able to predict the extent to which the cyclone reported south of Martinique will develop. At present the informa-tion received here indicates only a slight disturbance south of San Do-mingo. The locality affected now, however, is entirely outside of the scope of the reporting stations and until the storm moves further north it will be impossible to determine its extent. The storm is now in the Carribean sea, and the officials say the present indications are that it will not be serious in ef-fect. Chief Moore is of the opinion that the cable company operators should be restrained from disseminating reports which may cause unnocessary alarm.
